Language Aesthetics of Modern African Drama Isaiah Ilo, 2013-11-13 The goal of this book is to initiate theoretical discussions on the popular subject of African literary language and the thrust of the contribution apart from theory building is the introduction of the Post indiginist concept next to the well known essentialist and hybrid concepts The study outlines a set of criteria for each aesthetic concept so that literary analysis based on the criteria will verify whether or not they are adequate for understanding explaining and describing African writers language usage It is expected that a language aesthetic theory in the African context may help in the study of individual writers styles and equally address a neglect of descriptive studies in African literary scholarship

The Development of African Drama Michael Etherton, 2023-08-18 Originally published in 1982 this book explores concepts such as traditional performance and African theatre It analyses the links between drama and ritual and drama and music and diagnoses the confusions in our thought The reader is reminded that drama is never merely the printed word but that its existence as literature and in performance is necessarily different The analysis shows that literature tends to replace performance and drama removed from the popular domain becomes elitist The book's richness lies in the constantly stimulating analysis of art theatre as exemplified in protest plays in African adaptations and transpositions of such classical subjects as the Bacchae and Everyman in plays on African history on colonialism and neo colonialism The final chapters argue that the form of African drama needs to evolve as the content does

African Modernity and the Philosophy of Culture in the Works of Femi Euba Iyunolu Osagie, 2017-06-05 This book is a significant and original contribution to the ongoing conversation on modernity It uses the creative and critical works of Nigerian playwright and novelist Femi Euba to demonstrate the place and function of African cultures in modernity and makes the case for the vibrancy of such cultures in the shaping and constitution of the modern world In addition to a critique of Euba's fifty year artistic career this book offers an account of Euba's formative relationship with the 1986 Nobel Prize for Literature winner Wole Soyinka during the promising days of the Nigerian theatre in the immediate post independence period and the effect of this relationship on Euba's artistic choices and reflections Euba contributes to our understanding of Africa's negotiation of modernity in significant ways especially in his sensitive reading of Esu the Yoruba god of fate and chance as an artistic consciousness whose historical and ideological mobility during New World slavery during Africa's colonial period and in the manifestations in the black diaspora today emblemizes the process we call modernity By using ritual myth and satire as avenues to the debate on modernity Euba lays emphasis on the transformative possibilities at the

crossroads of history His works engage the psychological interconnections between old gods and new worlds and the dialogic relationship between tradition and modernity Delineating the philosophical and literary debates that reject an easy division between a stereotypically traditional Africa and a modern West the author shows how Euba s plays and novel engage the entwined and intimate relationships between the modern and the traditional in contemporary Africa and thereby she asserts the global resonance of Euba s African and specifically Yoruba conception of the world By meticulously collecting cataloguing and critiquing Euba s works Osagie models a new way of practicing African literary studies and invites us to glimpse narrative genius on the continent that she firmly believes African scholars should both promote and celebrate *Africa and the United States* U.S. National Commission for UNESCO.
