Stellar English Frank L. Cioffi, 2024-04-30 A handy bare essentials pocket guide to formal written English for students scholars and writers in need of a reference to sharpen their ability to write with clarity and credibility **A**

Frequency Dictionary of Contemporary American English Mark Davies, Dee Gardner, 2013-08-21 First published in 2010 Routledge is an imprint of Taylor Francis an informa company **Thinking about going into teaching ESL/EFL/ESOL**

Damian Johnstone, 2020-07-30 This short book is for you if you are considering going into the field of teaching English as a second foreign language whether English is your first native language or not I have written it with those who are contemplating pursuing English teaching ESL EFL or ESOL as a career option particularly in mind but it would also be of interest to individuals who might be thinking about engaging in English teaching on a short term or voluntary basis My purpose in writing this book is to help you decide whether or not teaching English as a second foreign language is something you might want to pursue Based upon my own experience of teaching English as a second language and my knowledge of the

English language teaching field more broadly I discuss what it is like in practical terms to be an ESL EFL ESOL teacher what the job involves and what to expect beyond the practicalities to give some insight into how EFL teachers think about their task the skills qualities and knowledge needed to be an ESL EFL ESOL teacher the kind of opportunities available I also give some ideas about where to begin with getting into English teaching and I provide recommendations on how to find out more about the field Although the focus of this book is the teaching of the English language much of what is written will be equally relevant to teaching any language So if English is not your first language and you are interested in teaching your native language to those who do not know it this book is for you too **World Englishes** Kingsley Bolton, Braj B. English Words and Sentences Eva Duran Eppler, Gabriel Ozón, 2013 Hands on theory neutral and non technical this textbook is a basic introduction to the structure of English words and sentences Assuming no prior knowledge of linguistic analysis it presents the facts in a straightforward manner and offers a step by step guide from small to large building blocks of language Every chapter contains numerous exercises and discussion questions which provide essential self study material as well as in chapter tasks which lead students to a more comprehensive understanding of linguistic issues The book also features concise chapter summaries suggestions for further reading an inclusive glossary and two consolidation chapters which encourage students to secure their understanding of the English language The dedicated companion website includes further exercises answers and solutions to the exercises as well as useful links **On the Grammar of Optative**

Constructions Patrick Georg Grosz, 2012 The primary aim of this dissertation is to present an analysis for so called optative constructions clauses that express a wish hope or desire without containing a lexical item that means wish hope or desire A secondary aim is to contrast optative constructions with so called polar exclamatives clauses that express surprise shock or dismay at a given fact without containing a lexical item that means surprise shock or dismay The goal is to better understand the way in which syntax semantics and pragmatics interact in order to yield the meanings and uses that these constructions have The core claim is that we can understand optative constructions by virtue of exploring three properties that they share First I argue that optatives and polar exclamatives contain a generalized exclamation operator EX which serves to express an emotion towards the status of the modified proposition on a contextually provided scale Second I argue that semantic mood including factivity and counterfactuality is encoded in a distinguished Mood head the content of which co determines both morphological mood and the material that overtly surfaces in the position of C Third I argue for a generalized analysis of prototypical particles including non exclusive ONLY concessive AT LEAST and unstressed DOCH My analysis treats these particles as truth conditionally vacuous presupposition triggers which interact with optativity in three different ways First they convey additional information with respect to the modified proposition Second they eliminate alternative readings for an ambiguous clause due to incompatibility Third this disambiguating role makes them ideal licensors for a marked utterance type Chapter 1 of this dissertation is an introductory chapter that presents the core proposal in a nutshell After this coarse

overview chapter 2 reviews some basic definitions and background on optatives and polar exclamatives Subsequently I proceed to a presentation of my entire system in chapter 3 The following chapters discuss each of the three core parts in turn starting with the EX operator in chapter 4 followed by semantic mood in chapter 5 and finally I discuss particles in chapter 6 Chapter 7 concludes
