**Reception of H.G. Wells in Europe** Patrick Parrinder,John S. Partington,2013-02-14 H G Wells was described by one of his European critics as a seismograph of his age He is one of the founding fathers of modern science fiction and as a novelist essayist educationalist and political propagandist his influence has been felt in every European country This collection of essays by scholarly experts shows the varied and dramatic nature of Wells s reception including translations critical appraisals novels and films on Wellsian themes and responses to his own well publicized visits to Russia and elsewhere The authors chart the intense ideological debate that his writings occasioned particularly in the inter war years and the censorship of his books in Nazi Germany and Francoist Spain This book offers pioneering insights into Wells s contribution to 20th century European literature and to modern political ideas including the idea of European union Reception of H G Wells in Europe Review      *VerbMobil: Foundations of Speech-to-Speech Translation* Wolfgang Wahlster,2013-04-17 In 1992 it seemed very difficult to answer the question whether it would be possible to develop a portable system for the automatic recognition and translation of spontaneous speech Previous research work on speech processing had focused on read speech only and international projects aimed at automated text translation had just been terminated without achieving their objectives Within this context the German Federal Ministry of Education and Research BMBF made a careful analysis of all national and international research projects conducted in the field of speech and language technology before deciding to launch an eight year basic research lead project in which research groups were to cooperate in an interdisciplinary and international effort covering the disciplines of computer science computational linguistics translation science signal processing communication science and artificial intelligence At some point the project comprised up to 135 work packages with up to 33 research groups working on these packages The project was controlled by means of a network plan Every two years the project situation was assessed and the project goals were updated An international scientific advisory board provided advice for BMBF A new scientific approach was chosen for this project coping with the complexity of spontaneous speech with all its pertinent phenomena such as ambiguities self corrections hesitations and disfluencies took precedence over the intended lexicon size Another important aspect was that prosodic information was exploited at all processing stages

*Canadian News Facts* ,1977      **Class Politics** Stephen Parks,2013-03-27 Class Politics The Movement for the Students Right to Their Own Language 2e is a response to histories of Composition Studies that focused on scholarly articles and university programs as the generative source for the field Such histories particularly in the 1980s and 1990s divorced the field from activist politics washing out such work in the name of disciplinary identity Class Politics shows the importance of political mass movements in the formation of Composition Studies particularly Civil Rights and Black Power Class Politics also critiques how the field appropriates these movements The book traces a pathway from social movement to progressive

academic groups to their work in professional organizations to the formation of the Students Right to Their Own Language Stephen Parks then shows how the SRTOL was attacked and politically neutralized by conservative forces in the 1980s and 1990s arguing for a return to politics to reanimate its importance and the importance of politics in the field Stephen Parks restores politics to the history of Composition Studies Richard Ohmann **What Was Literary Impressionism?** Michael
