**Evaluation of Guidelines for Exposures to Technologically Enhanced Naturally Occurring Radioactive Materials** National Research Council, Division on Earth and Life Studies, Commission on Life Sciences, Committee on Evaluation of EPA Guidelines for Exposure to Naturally Occurring Radioactive Materials, 1999-01-25 Naturally occurring radionuclides are found throughout the earth's crust and they form part of the natural background of radiation to which all humans are exposed. Many human activities such as mining and milling of ores, extraction of petroleum products, use of groundwater for domestic purposes, and living in houses alter the natural background of radiation either by moving naturally occurring radionuclides from inaccessible locations to locations where humans are present or by concentrating the radionuclides in the exposure environment. Such alterations of the natural environment can increase, sometimes substantially, radiation exposures of the public. Exposures of the public to naturally occurring radioactive materials NORM that result from human activities that alter the natural environment can be subjected to regulatory control at least to some degree. The regulation of public exposures to such technologically enhanced naturally occurring radioactive materials TENORM by the US Environmental Protection Agency EPA and other regulatory and advisory organizations is the subject of this study by the National Research Council's Committee on the Evaluation of EPA Guidelines for Exposures to Naturally Occurring Radioactive Materials. Agency for Toxic Substances and Disease Registry, 1990 Solving the Paleo Equation Garrett Smith, 2014-01-28 Solving the Paleo Equation Stress Nutrition Exercise Sleep is the ultimate guide to customizing your diet and lifestyle practices to your unique physical and metabolic needs. You'll learn how to maximize your health practices and minimize your time and effort, no more driving yourself to exhaustion in hardcore fitness classes. No more strict, unsustainable and impractical approaches to nutrition. Either Solving the Paleo Equation will help you not only avoid the ravages of adrenal fatigue, low metabolism, dwindling sex drive, and sleep problems, all too common consequences of overzealous workout regimes, it will help you rehabilitate from the unhealthful health protocols you've pursued in the past. Throughout this book, naturopathic physician Dr. Garrett Smith and independent health researcher and bestselling author Matt Stone address the main areas that the health seeker often dangerously ignores, like Sleep. One simple change in your bedroom could restore a normal cortisol rhythm. Stress Practices to keep your home and workspaces from raising your adrenaline and sapping your testosterone. Exercise Simple, free, reliable ways to self-monitor to avoid burnout and overtraining, regardless of the type of exercise. Nutrition Learn about the four Anti

Stress and their powerful effects in the body. Instead of regurgitating the old school saw to eat clean and exercise more, Smith and Stone focus on the basic pillars of true health and outstanding physical and mental function: sleep, stress, exercise, and nutrition. By analyzing and improving the fundamental areas of physical function—sleep quality, sexual performance, digestion, blood sugar regulation, body temperature, etc.—virtually every system of the body dramatically improves as well. In *Solving the Paleo Equation*, Smith and Stone go beyond simple Paleo theory and take readers on a journey toward a practical and useful understanding of how their bodies work. Using the simple tools of a thermometer and basic biofeedback markers—urine concentration, temperature of hands and feet, mood stability, bowel transit time, etc.—you will learn how to eat and live the most healthfully for YOU. *Solving the Paleo Equation* is not a health formula, philosophy, cult fad, or movement, but an education. It's the manual on do-it-yourself health enhancement.
