The President
The President of the Senate
The Speaker of the House of Representatives

The Secretary of the Treasury, in coordination with the Director of the Office of Management and Budget, is required to annually submit financial statements for the U.S. government to the President and the Congress. GAO is required to audit these statements.¹ This is (1) our report on the accompanying U.S. government's accrual-based consolidated financial statements for the fiscal years ended September 30, 2010 and 2009, and the 2010, 2009, 2008, 2007, and 2006 Statements of Social Insurance, and (2) our associated reports on internal control over financial reporting and on compliance with selected provisions of laws and regulations. As used in this report, accrual-based financial statements refer to all of the consolidated financial statements and notes, except for those related to the Statement of Social Insurance.²

Management of the federal government is responsible for (1) preparing annual consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP); (2) establishing, maintaining, and evaluating internal control to provide reasonable assurance that the control objectives of the Federal Managers' Financial Integrity Act (FMFIA)³ are met; and (3) complying with laws and regulations. Also, the 24 Chief Financial Officers (CFO) Act agencies are responsible for

¹The Government Management Reform Act of 1994 has required such reporting, covering the executive branch of government, beginning with financial statements prepared for fiscal year 1997. 31 U.S.C. 331(e). The federal government has elected to include certain financial information on the legislative and judicial branches in the consolidated financial statements as well.

²The accrual-based consolidated financial statements for the fiscal years ended September 30, 2010 and 2009 consist of the (1) Statements of Net Cost, (2) Statements of Operations and Changes in Net Position, (3) Reconciliations of Net Operating Cost and Unified Budget Deficit, (4) Statements of Changes in Cash Balance from Unified Budget and Other Activities, and (5) Balance Sheets, including the related notes to these financial statements. Most revenues are recorded on a modified cash basis. The 2010, 2009, 2008, 2007, and 2006 Statements of Social Insurance, including the related notes, are also included in the consolidated financial statements. The Statements of Social Insurance do not interrelate to the accrual-based consolidated financial statements.

³31 U.S.C. 3512 (c), (d) (commonly referred to as FMFIA). This act requires executive agency heads to evaluate and report annually to the President and the Congress on the adequacy of their internal control and accounting systems and on actions to correct significant problems.

in isolation from the rest of the government But the Framers of the Constitution explicitly intended for the branches of government to be interdependent Congress in Context introduces readers to Congress's critical role in the context of this interdependent system Using the metaphor of a board of directors the authors explain the three key roles of Congress within the federal government authorizing what government does funding its activities and supervising how it carries out the laws Congress passes and shows students how Congress interacts with the rest of the government to exercise these powers The thoroughly expanded and revised second edition features brand new chapters on Congress and the courts and Congress and interest groups It also includes expanded coverage of Congress's relationship with the executive branch campaign finance and today's major budget issues Grounded in the latest political science literature coupled with contemporary examples Congress in Context offers students an informed yet accessible introduction to how the legislative branch carries out its duties

Dirty Deals? Amy Handlin, 2014-09-16 An encyclopedia unlike any other this work focuses on lobbying corruption and political influence in America to inspire readers to think critically about the U S government and to appreciate the opportunities of citizenship Even before the founding of the Republic James Madison expressed the concern that special interest influence could become adverse to the rights of other citizens as well as the permanent and aggregate interests of the community In modern times examples of lobbying scandals and corruption associated with political campaign contributions abound and yet our political system can and does further the larger goals of American democracy Suited for advanced high school students undergraduates and general readers this set examines the three powerful forces that affect every level of government but typically operate out of public view This three volume work exhaustively covers the evolution and impact of lobbying political influence and corruption from the Colonial era to today Volume 1 contains detailed scholarly essays on various aspects of lobbying corruption and political influence Volume 2 comprises informative A Z entries on people events laws organizations and legal decisions The entries demonstrate the linkages among the topics but give equal attention to each as an independent influence on U S government and politics Developments since 1990 and the extensive proliferation of the Internet and social media receive additional emphasis Volume 3 contains primary documents that include executive orders court cases state and federal lobbying forms and codes of conduct related to lobbying campaign finance reform and anti corruption measures
