**Sissinghurst: An Unfinished History** Adam Nicolson, 2015-07-14 A charming portrait of an ancient and beautiful house in Kent and a poignant and amusing portrait of the English class system Simon Winchester From lavish palace for Elizabethan nobles to dreary jailhouse for eighteenth century prisoners of war from well manicured country house for a string of landed families to weed choked ruin Sissinghurst in Kent has become one of the most illustrious estates in England and its future may prove to be just as intriguing as its past In the 1930s English poet Vita Sackville West and her husband Harold Nicolson acquired land that had once been owned by Vita's ancestors Together they created elaborate gardens filled with roses apple trees vivid flowers and scenic paths lined with hedges and pink brick walls Vita a gardening correspondent for the Observer and a close friend of Virginia Woolf opened Sissinghurst to the public But the thriving working farm began to change after her death Her son Nigel instituted sweeping changes including transferring ownership of the estate to Britain's National Trust in 1967 to avoid extensive taxation For author Adam Nicolson the grandson of Harold and Vita Sissinghurst was always more than a tourist attraction it was his home As a boy Nicolson hiked the same trails that Roman conquerors walked centuries before With wistful imagination fascination with natural beauty and connection to the land Nicolson has

returned home to restore Sissinghurst's glory. **Beliefs** Perry L. Westmoreland, 2007 Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections: Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides, Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

**Ghost Stories for Darwin** Banu Subramaniam, 2014-10-15 In a stimulating interchange between feminist studies and biology, Banu Subramaniam explores how her dissertation on flower color variation in morning glories launched her on an intellectual odyssey that engaged the feminist studies of sciences in the experimental practices of science by tracing the central and critical idea of variation in biology. Subramaniam reveals the histories of eugenics and genetics and their impact on the metaphorical understandings of difference and diversity that permeate common understandings of differences among people. She exists in contexts that seem distant from the so-called objective hard sciences. Journeying into interdisciplinary areas that range from the social history of plants to speculative fiction, Subramaniam uncovers key relationships between the life sciences, women's studies, evolutionary and invasive biology, and the history of ecology, and how ideas of diversity and difference emerged and persist in each field. **The Beginning and End of All Things** Edward W.
