**Cave Deposits: Processes, Approaches and Environmental Significance** Leonardo Piccini, Eleonora

Regattieri, Andrea Zerboni, Aurel Perșoiu, 2022-03-29 Building and Remembering Chris Urwin, 2023-02-28 Building and Remembering is a multidisciplinary study of how memory works in relation to the material past Based on collaborative ethnoarchaeological research carried out in Orokolo Bay Papua New Guinea Chris Urwin explores oral traditions maintained and produced in relation to artifacts and stratigraphy He shows how cultivation and construction bring people from Orokolo Bay into regular contact with pottery sherds and thin layers of black sand Both the pottery and the sand are forms of material evidence that remind people of the movements and activities of their ancestors and they help sustain stories of origins and connections The sherds remind people of the layout of their ancestors villages and of the annual maritime visits by Motu people who came from 400 km to the east The black sand evokes events of the distant past when their ancestors created the

land through magic Villagers in Orokolo Bay have intimate knowledge of the contents of the subsurface and places where people work and dig more regularly are thought of as especially ancient Here people conduct their own form of archaeology as part of everyday life This book interweaves such community constructions of the past with the emergence of large coastal villages in Orokolo Bay and across a broader span of the south coast of Papua New Guinea The villages housed dense populations and hosted elaborate masked ceremonies that could span decades When Sir Albert Maori Kiki the former Deputy Prime Minister moved to Orokolo Bay in the mid 1930s he was mesmerized by the place which appeared like a modern metropolis buzzing with noise and activity Yet little is known of when these villages originated or how they developed In this book archaeological digs and radiocarbon dating are used to gain insight into how several Orokolo Bay sites developed focusing on the key origin and migration village of Popo Village elders share their understandings of ancestral places during surveys and through oral traditions People lived in Popo for some five hundred years moving to through and from the estates expanding and at times shifting the village to access the social and subsistence benefits of coastal village life [Top Walks in Tasmania](#) Melanie Ball,2018-10-01 Tasmania is utopia for bushwalkers there are walks traversing many diverse landscapes from exposed ice carved moors and mountains to primordial rainforests rugged river gorges and precipitous sea cliffs as well as some that follow in the footsteps of convict labourers Experienced travel writer Melanie Ball has hiked every track in this book for walkers of all levels of experience Included are some of Tasmania s most famous walks such as the Overland Track and Frenchman s Cap plus some hidden gems Most of the tracks can be completed in a few hours but there are some multi day walks for those wanting more of a challenge For each walk there is detailed trail information a map and photographs
