The Problem with Science R. Barker Bausell, 2021-01-26 Recent events have vividly underscored the societal importance of science yet the majority of the public are unaware that a large proportion of published scientific results are simply wrong The Problem with Science is an exploration of the manifestations and causes of this scientific crisis accompanied by a description of the very promising corrective initiatives largely developed over the past decade to stem the spate of irreproducible results that have come to characterize many of our sciences More importantly Dr R Barker Bausell has designed it to provide guidance to practicing and aspiring scientists regarding how a to change the way in which science has come to be both conducted and reported in order to avoid producing false positive irreproducible results in their own work and b to change those institutional practices primarily but not exclusively involving the traditional journal publishing process and the academic reward system that have unwittingly contributed to the present crisis There is a need for change in the scientific culture itself A culture which prioritizes conducting research correctly in order to get things right rather than simply getting it published

The Wiley-Blackwell Companion to Political Sociology Edwin Amenta, Kate Nash, Alan Scott, 2016-09-26 The Wiley Blackwell Companion to Political Sociology is a complete reference guide reflecting the scope and quality of the discipline and highlighting emerging topics in the field Global in focus offering up to date topics from an interdisciplinary international set of scholars addressing key issues concerning globalization social movements and citizenship The majority of chapters are new including those on environmental politics international terrorism security corruption and human rights Revises and updates all previously published chapters to include new themes and topics in political sociology Provides an overview of

scholarship in the field with chapters working independently and collectively to examine the full range of contributions to political sociology Offers a challenging yet accessible and complete reference guide for students and scholars

Case Studies and Theory Development in the Social Sciences Alexander L. George, Andrew Bennett, 2005-04-15 The use of case studies to build and test theories in political science and the other social sciences has increased in recent years Many scholars have argued that the social sciences rely too heavily on quantitative research and formal models and have attempted to develop and refine rigorous methods for using case studies This text presents a comprehensive analysis of research methods using case studies and examines the place of case studies in social science methodology It argues that case studies statistical methods and formal models are complementary rather than competitive The book explains how to design case study research that will produce results useful to policymakers and emphasizes the importance of developing policy relevant theories It offers three major contributions to case study methodology an emphasis on the importance of within case analysis a detailed discussion of process tracing and development of the concept of typological theories Case Studies and Theory Development in the Social Sciences will be particularly useful to graduate students and scholars in social science methodology and the philosophy of science as well as to those designing new research projects and will contribute greatly to the broader debate about scientific methods

Advanced Introduction to Empirical Legal Research Herbert M. Kritzer, 2021-02-26 Herbert Kritzer presents a clear introduction to the history methods and substance of empirical legal research ELR Quantitative methods dominate in empirical legal research but an important segment of the field draws on qualitative methods such as semi structured interviews and observation In this book both methodologies are explored alongside systematic data analysis Offering an overview of the broad ELR literature the institutions of the law the central actors of the law and the subjects of the law are each addressed in this highly readable account that will be essential reading for legal researchers

Inside an Academic Scandal Max H. Bazerman, 2025-09-09 How fraud in a published paper about honesty roiled the world of social science In 2012 Max Bazerman along with four coauthors published an influential paper showing that signing first that is promising to tell the truth before filling out a form produced greater honesty than signing afterward In 2021 academic sleuths revealed that two of the experiments in the paper were fraudulent triggering what would become one of the most significant academic frauds of the twenty first century In Inside an Academic Scandal Bazerman tells the sobering story of how fraud in a published paper about inducing honesty upended countless academic careers wreaked havoc in organizations that had implemented the idea of signing first and undermined faith in academic research and publication This vivid account offers an inside look at the replicability crisis in social science today In intriguing detail the book explores recent conflicts and transformations underway in the field considers the role of relationships and trust in enabling fraud in academic research and describes Bazerman s own part in the scandal what he did and didn t do to stop the fraud in the signing first paper what consequences he faced and what hard lessons he learned in the process A compelling

story of fraud and betrayal the book provides a deep and ultimately instructive look at how academic research works and doesn't in social science

Voting Rights Act: Tacking, stacking, and cracking: race and reapportionment in Monterey County, 1981-1992 United States. Congress. House. Committee on the Judiciary. Subcommittee on the

Constitution, 2006

PATRIMONIAL POWER in the MODERN WORLD Julia Adams, Mounira M. Charrad, 2011-07 During the 2011 uprisings in the Arab world protesters demanded the ouster of authoritarian forms of rule and an end to the influence of ruling families on politics society and the economy These upheavals revealed that patrimonial power in its diverse forms is still a dynamic force in global politics able to shape world events This volume brings the study of patrimonialism back to center stage and presents the concept as a useful tool to analyze how nations global developments and international relations are influenced and transformed Leading scholars show that patrimonial practices present throughout history are important features of global capitalist modernity The authors analyze patrimonial politics in regions throughout the world including in the United States Tunisia Chile France Iraq Lebanon Morocco Poland and Russia This volume will appeal to students of politics and policy and to a multidisciplinary scholarly audience in political sociology historical social science history and social theory

The Federal Statistical System: Its Vulnerability Matters More Than You Think Kenneth Prewitt, 2010-09 How do federal statistics strengthen our nation's science as well as its policy From demographers requiring vital statistics to economists relying on national accounts from political scientists using voting data to sociologists requiring race ethnicity statistics from public health researchers needing epidemiology data to those working on the history of the United States and drawing on statistical records the need for official statistics is great And yet it is not widely recognized that federal statistics provide a vital contribution to the nation's scientific infrastructure as well as serving as an information provider to the policy process What is the role of the federal statistical system in our scientific knowledge of American society Would the social knowledge relevant to public policies have reached current levels of maturity in the absence of public statistics Except by the scientific community that actually uses them federal statistical programs are typically not thought of in scientific terms but as adjuncts to important government functions In this latest volume of *The ANNALS* leading academics along with key federal officials including the president's science advisor the chief statistician of the U.S. the director of the Office of Management and Budget OMB the presidents of the National Academies and the director of the Census Bureau address the argument that the statistics that the federal statistical system produces should be understood as constituting a scientific infrastructure for the empirical social sciences Further they see the current federal statistical system as the best hope for bringing strong science to bear on new data sources and the best place to navigate unforeseen challenges in preserving the independence of statistical information from political interference This unique collection of essays conceptualizes the U.S. Federal Statistical System its role reach achievements and vulnerabilities The authors explore challenging issues such as privacy and confidentiality protections data quality and maintaining representativeness Their intriguing discussion also takes up the

move from a census and survey data system to a system that increasingly incorporates administrative and digital data the nation's scientific leadership's role as advocates for statistical programs the problems with the scientific methodology sample surveys on which these statistics rest and strengthening the network of statistical agencies and programs Recommendations are offered ranging from how to better organize the system how to protect statistics from political interference how to strengthen their role in science and in the policy process and how to prepare for the challenges of a new information order If federal statistics are the knowledge base from which policy problems and solutions emerge it is imperative that we pay attention to the lessons they offer Never before has this topic received this level of attention from such an array of contributors A must read for all social scientists and policy makers

Gender and Race Inequality in Management:

Migrant Youths and Children of Migrants in a Globalized World Marta

Tienda, Alicia Adserà, 2012-08-31 Migrant Youths and Children of Migrants in a Globalized World The ANNALS of the American Academy of Political and Social Science Series

Immigration and the Changing Social Fabric of American Cities

John MacDonald, Robert J. Sampson, 2012-04-12 This volume of The ANNALS brings together a leading set of scholars to present new research on trends in the spatial forms of immigration that are transforming the American landscape the effects of the world in a city With a distinct analytic focus the volume takes a comparative approach examining recent immigration trends disaggregating by ethnicity or immigrant type wherever possible focusing on core features of the nation's social fabric e.g. violence legitimacy of social institutions governance economic well being and empirically going beyond the big cities of traditional concern to a host of smaller cities and towns reaching into far flung pockets of the country The lineup includes papers on both familiar cities such as New York Los Angeles Chicago and Miami as well as places as different as San Antonio Nashville Boston Dublin Hazleton Pennsylvania and St James Minnesota While the places studied and features of their social fabric may differ the social processes underlying the spatial forms of immigration are shown to be largely the same This volume will be of interest to social scientists from a broad range of disciplines who engage in research and teaching on issues related to immigration policy makers and individuals working on immigration policy research

Continental Divides:

International Migration in the Americas Katharine M. Donato, Jonathan Hiskey, Jorge Durand, 2010-10-15 Since Mexico U.S. migration represents the largest sustained migratory flow between two nations worldwide much of the theoretical and empirical work on migration has focused on this single case In the last few decades however migration has emerged as a critical issue across all nations in Latin America and the Caribbean with the region seeing its position changed from a net migrant receiving region to one that now stands as one of the foremost sending areas of the world In this latest volume of the ANNALS leading migration scholars seek to redress the imbalance offered when only studying a single case with the first

systematic assessment of Latin American migration patterns using ongoing research on the Mexican case as a basis for comparison Each chapter examines specific propositions or findings derived from the Mexican case that have not yet been tested for other Latin American or Caribbean nations Using a common framework of data methods and theories they offer a new perspective on the causes and consequences of migration in the Western Hemisphere *Young Disadvantaged Men: Fathers, Families, Poverty, and Policy* Timothy Smeeding, Irwin Garfinkel, Ronald B. Mincy, 2011-06-09 By age 30 between 68 and 75 percent of young men in the United States with only a high school degree or less are fathers This volume provides practical policy driven strategies to address the national epidemic of disadvantaged young fathers and the challenges they face in raising and supporting their children National experts discuss the issues of immediate concern to those working to reconnect disengaged dads to their children and improve child and family economic and emotional well being Each chapter was presented at a working conference organized by Institute for Research on Poverty director Tim Smeeding University of Wisconsin Madison in coordination with the Columbia University School of Social Work s Center for Research on Fathers Children and Family Well Being directed by Ronald Mincy and the Columbia Population Research Center directed by Irwin Garfinkel The conference brought together scholars many in public policy to examine strategies for reducing barriers to marriage and fathers involvement designing child support and other public policies to encourage the involvement of fathers and addressing fathers who have multiple child support responsibilities This volume will appeal to researchers policy makers and practitioners dedicated to improving the lives of low income families and children *Advancing Reasoned Action Theory* Michael Hennessy, 2012-03-29 Dedicated to Martin Fishbein the premier social psychologist in the area of attitude and attitude change this volume focuses on his work as the codeveloper of reasoned action theory an approach to behavioral prediction and change that has been used in thousands of research studies Immediately after Fishbein s death the Annenberg Public Policy Center at the University of Pennsylvania established a memorial lecture series in his honor This volume offers ten formal papers derived from those lectures starting with a summary of the evolution of reasoned action theory and a quantitative analysis of the current approach followed by a discussion of ways to expand the capacity of the theory and concluding with current examples of state of the art applications of reasoned action theory focusing on different types of behavioral interventions These articles attest to the general applicability of the theory and the heterogeneous contexts in which the theory can be productively applied Together they compose the most up to date treatment of the quantitative analysis of reasoned action theory currently available and they show that there is considerable justification for comparing the reasoned action approach to other well known scientific theories This volume will appeal to students of political sociology and public health to a multidisciplinary scholarly audience in sociology public affairs and social work and to public health practitioners and foundation grant specialists **Bringing Fieldwork Back In** Elijah Anderson, 2012-06-21 In 2001 the first of a series of ethnographic conferences took place in Los Angeles with an emphasis on fieldwork Since then the field has

gained a much larger disciplinary footprint While the increase in substantial research in the field has risen dramatically ethnographic styles of writing have emerged that fail to include much discernible fieldwork This volume of The Annals broaches the subject of improving fieldwork in the ethnographic spectrum through old fashioned or shoe leather fieldwork At a more recent ethnographic conference at Yale University in 2010 with a follow up in June 2011 emerging ethnographers were mentored by senior scholars in which they presented an informal yet supportive setting where ethnographic fieldwork could be constructively critiqued This volume is a product of those collective efforts The articles in this volume include insight into relations among affluent minorities the status system we find in today's sports and a portrait of an employer of undocumented workers among other articles This volume will appeal to both undergraduate and graduate students with a wide range of interests including sociology education anthropology and race and gender conflicts and problems Work, Family, and Workplace Flexibility Kathleen Christensen, Barbara L. Schneider, 2011-10-10 This volume contains a collection of articles that examines workplace flexibility work family conflict and workers increasing lack of leisure time and how it pertains to long term U S national stability The contributors argue that current workplaces are not meeting the needs of today's workers and the lack of workplace flexibility is having huge human capital costs that are affecting every sector of society They explore how flexibility despite having fixed costs can be an effective tool for attracting and retaining employees and increasing productivity the key being to make the workplace flexible in ways that are profitable for employers and also engage workers to feel more satisfied and committed to their jobs
