Genre Across The Curriculum:

Genre Across The Curriculum Anne Herrington, Charles Moran, 2005-02-24 *Genre across the Curriculum* will function as a good textbook one not for the student but for the teacher and one with an eye on the context of writing Here you will find models of practice descriptions written by teachers who have integrated the teaching of genre into their pedagogy in ways that both support and empower the student writer While authors here look at courses across disciplines and across a range of genres they are similar in presenting genre as situated within specific classrooms disciplines and institutions Their assignments embody the pedagogy of a particular teacher and student responses here embody students prior experiences with writing In each chapter the authors define a particular genre define the learning goals implicit in assigning that genre explain how they help their students work through the assignment and finally discuss how they evaluate the writing their students do in response to their teaching

Everyday Genres Mary Soliday, 2011-02-07 Mary Soliday calls on genre theory which proposes that writing cannot be separated from social situation to analyze the common assignments given to writing students in the college classroom and to investigate how new writers and expert readers respond to a variety of types of coursework in different fields This in depth study of writing pedagogy looks at many challenges facing both instructors and students in college composition classes and offers a thorough and refreshing exploration of writing experience ability and rhetorical situation
