Baileigh White a dancer didn't have the easiest start to life When she was three she was diagnosed with a rare heart and lung condition and her days were filled with hospital visits medications and an ever looming uncertainty Baileigh began dancing at age three following her diagnosis At six years old her health deteriorated and she ended up on life support after suffering cardiac arrest Following weeks of ups and downs a decision was made to remove Baileigh from life support Still a miracle happened and a call came Baileigh was receiving a heart and lung transplant Baileigh was a survivor after the transplant and her life became a balance between gratitude and the fear of rejection Amid this posttransplant struggle she danced again moving with effortless grace against all odds surrendering to the rhythm of life and refusing to let anything limit her spirit As a high school senior Baileigh went to Seoul South Korea where fate visited Practicing alone one night she heard something like a commotion She opened the door to find a wounded man who had stumbled into her studio chased by a dark figure She saved his life when she instinctively defended him with a baseball bat showing up like a knight in shining armor This stranger Evan held secrets that connected their lives Back in the States Baileigh returned to her life with a silent reminder of a night she wished she could forget As the danger came roaring back Evan returned his history and hers colliding in a shower of violence and desire Evan chose love instead of duty and stood with Baileigh Their love was a light for all **Gender and Fair Assessment** Warren W. Willingham,Nancy S. Cole,2013-12-16 There have been many important changes in the participation of women and men in American society over the past quarter century Tests play a role in those changes by providing evidence of the diverse achievement and proficiency of women and men They aid the learning process and reflect inequalities in opportunity to learn and participate In addition they provide useful information in considering what alternatives in education and work make most sense for individuals and influence views about groups of students educational programs and a wide range of issues For all of these reasons it is important that tests assess fairly and reflect accurately the ways young people are and are not achieving as well as desired The test performance of women and men is a research topic of historical interest and has received much attention in recent years Because of this increased interest there is a great deal of new research and data available The purpose of the study presented in this volume was to review this new information with two objectives in mind to clarify patterns of gender difference and similarity in test performance and related achievements and to see what implications those findings might have for fair assessment and as a corollary examine the assessment process as a possible source of gender differences This study is interested in tests used in education to assess developed knowledge and skill In order to gain a broader view of gender similarity and difference the contributors looked at other types of measures and other characteristics of young women and men Their hope is to contribute to a firmer basis for

insuring fairness in tests an objective which is particularly important as the field moves increasingly to new forms of assessment in which there is less experience **Cracking the AP human geography exam [electronic resource]** Jon Moore, 2009 Reviews topics covered on the test offers tips on test taking strategies and includes two full length practice tests with answers and explanations **Fandom, Now in Color** Rukmini Pande, 2020-12-15 Fandom Now in Color gathers together seemingly contradictory narratives that intersect at the in visibility of race ism in fandom and fan studies This collection engages the problem by undertaking the different tactics of decolonization diversifying methodologies destabilizing canons of must read scholarship by engaging with multiple disciplines making whiteness visible but not the default against which all other kinds of racialization must compete and decentering white fans even in those fandoms where they are the assumed majority These new narratives concern themselves with a broad swath of media from cosplay and comics to tabletop roleplay and video games and fandoms from Jane the Virgin to Japan s K pop scene Fandom Now in Color asserts that no one answer or approach can sufficiently come to grips with the shifting categories of race racism and racial identity Contributors McKenna Boeckner Angie Fazekas Monica Flegel Elizabeth Hornsby Katherine Anderson Howell Carina Lapointe Miranda Ruth Larsen Judith Leggatt Jenni Lehtinen joan miller Swati Moitra Samira Nadkarni Indira Neill Hoch Sam Pack Rukmini Pande Deepa Sivarajan Al Valent n
