Do you wish you could save website links to read them later rather than keeping multiple tabs open at a time? Maybe you find it easier to doodle or hand write notes and reminders rather than type them? Do you like the idea of capturing a thought at work, viewing it in your phone, and then editing it at home on your desktop? Have you ever wished you could instantly see information about certain projects or events grouped together based simply on a keyword? Do you often get ideas whilst driving that you wish you could save but can't because texting whilst driving is dangerous? Is your computer screen, desk, kitchen bench covered in sticky notes reminding you to do x, y, and z? If any of the above scenarios describe you then this book is for you. Google Keep is a deceptively simple note-taking application that can improve your productivity in both your personal and your professional life, and this book walks you through exactly how to use it.
