Preventing Discipline Problems, K-12 Howard Seeman, 2014-08-14 Preventing Discipline Problems K-12 Cued to Classroom Management Training Handbook covers every aspect of classroom management and illustrates how to tap into the teacher's most influential tool in the classroom: the person inside the teacher. Schools across the United States as well as 15 other countries use this text and accompanying training handbook to help train teachers to negotiate classroom problems. This book helps real teachers deal more effectively with administration, parents, substitute or cluster teaching, bullying, creating a safe classroom environment, and with students who demonstrate a variety of behavioral problems. The author, Howard Seeman, demonstrates how to handle and prevent these various situations. Included in each chapter are self-training, hands-on practice exercises, and helpful guidelines and checklists to assist the beginning or veteran teacher. Online course and a live action training DVD are available. Please contact Howard Seeman at hokaja@aol.com.

Energize the High School Classroom Paul Richmond, 2008-10-01 There is so much more to teaching today than simply teaching. Prepping for multiple courses, grading papers, duties, coaching, class advising, lack of parental support, limited administrative support, etc. These distractions make it more and more difficult to find the time to sustain a level of creativity in the classroom. Everyone could use a playbook—something to refer to that provides that specific spark or research that can enhance the classroom experience. This book will provide you with ways to deliver curriculum, not organize it. The best material in the world is often ignored by students because of the method it is delivered. You may even discover that after reading and implementing ideas from this book, you will begin to surprise yourself with additional ideas of your own.
