Washington and an extensive list of active congressional caucuses and contact details **A New U** Ryan Craig, 2018-09-11 Every year the cost of a four year degree goes up and the value goes down But for many students there s a better answer So many things are getting faster and cheaper Movies stream into your living room without ticket or concession stand costs The world s libraries are at your fingertips instantly and for free So why is a college education the only thing that seems immune to change Colleges and universities operate much as they did 40 years ago with one major exception tuition expenses have risen dramatically What s more earning a degree takes longer than ever before with the average time to graduate now over five years As a result graduates often struggle with enormous debt burdens Even worse they often find that degrees did not prepare them to obtain and succeed at good jobs in growing sectors of the economy While many learners today would thrive

with an efficient and affordable postsecondary education the slow and pricey road to a bachelor's degree is starkly the opposite. In *A New U: Faster, Cheaper Alternatives to College*, Ryan Craig documents the early days of a revolution that will transform or make obsolete many colleges and universities. Alternative routes to great first jobs that do not involve a bachelor's degree are sprouting up all over the place. Bootcamps, income share programs, apprenticeships, and staffing models are attractive alternatives to great jobs in numerous growing sectors of the economy: coding, healthcare, sales, digital marketing, finance, and accounting, insurance, and data analytics. *A New U* is the first roadmap to these groundbreaking programs which will lead to more student choice, better matches with employers, higher return on investment of cost and time, and stronger economic growth.

**Quality Assurance in Higher Education in Eastern and Southern Africa** Peter

Neema-Abooki, 2021-08-23 This book examines the critical aspect of quality assurance/maintenance of competitive standards in African higher education. It explores both the micro and macro levels of continental African higher education regulatory authorities and analyses different institutional, regional, and national practices for moving towards continental quality assurance approaches. Contributed to by scholars across Eastern and Southern Africa, the book considers conceptual, practical, epistemological, and policy dimensions of quality and quality assurance, especially in relation to higher education in Africa. It therefore draws on research and local expertise to open up debate about how to assure and enhance the quality of higher education, providing a comprehensive review of eight countries and considering societal challenges. It aims to satisfy the need for more thoughtful and critical works on African education as produced by African educators. The uniqueness of this book lies in integrating both the theoretical and practical dimensions of quality to devise appropriate strategies for ensuring quality and standards in higher education in continental Africa and beyond. This authoritative book advocates for a timely discussion around the provision of good quality higher education and research in African universities and will be of great interest to academics, policy makers, researchers, and postgraduate students in the fields of higher education, comparative education, and African studies.

**Malaysia's Student Loan Company** Wan Saiful Wan Jan, 2020-04-14 The Malaysian National Higher Education Fund Corporation PTPTN was set up in 1997 Since then it has accumulated a massive debt amounting to RM40 billion in principal plus RM13 billion in interest All these are guaranteed by the Malaysian government It is now the biggest provider of student loans in the country and continues to play a very important role in catalysing socio economic mobility especially among the ethnic Malays which is the majority community in the country However the business model employed by PTPTN is irrational and unsustainable It borrows from the financial market at on average 4 to 5 per cent and lends to students at 1 per cent No serious effort has been made to revamp this model and all public discussions around it have been driven by political populism The biggest challenge is the low repayment rate This problem has been ignored because Malaysian politicians of all colours have wanted to maintain popularity Collecting debt is certainly not popular PTPTN under a new leadership since mid 2018 gathered and developed ideas on how to reform their organization These ideas have been presented to various levels of government including to the Cabinet in early 2020 PTPTN must be reformed to

avoid its debt from inflating further Whether the Malaysian government has the much needed political will to push through the reforms is a question yet to be answered
