The Economic Status of the Hispanic Population Marie T.

Mora, Alberto Dávila, 2013-03-01 In 2010 Hispanics represented one out of every six people in the U S up from one out of

eight in 2000 such that the economic status of this population has become increasingly important for the economic direction of the nation This volume brings together a group of scholars who analyze a variety of socioeconomic issues particularly those related to education poverty and health to assess how Hispanics have been faring relative to other Americans A common theme across the chapters is that Hispanics tend to lag behind non Hispanics with respect to their economic outcomes Despite this lag however some of the studies indicate that Hispanics have been making progress in terms of improving their relative economic position in recent years Several of the chapters also discuss policy implications The intended audience includes social scientists students policymakers and anyone interested in learning more about the economic conditions of Hispanic Americans Many of the authors employed rigorous statistical methods to analyze the economic status of Hispanics but the chapters were written to be accessible to a broad audience instead of one comprised mainly of quantitatively oriented academics

Doing the Best I Can Kathryn Edin,Timothy J. Nelson,2014-08-15 Across the political spectrum unwed fatherhood is denounced as one of the leading social problems of today Doing the Best I Can is a strikingly rich paradigm shifting look at fatherhood among inner city men often dismissed as deadbeat dads Kathryn Edin and Timothy J Nelson examine how couples in challenging straits come together and get pregnant so quickly without planning The authors chronicle the high hopes for forging lasting family bonds that pregnancy inspires and pinpoint the fatal flaws that often lead to the relationship s demise They offer keen insight into a radical redefinition of family life where the father child bond is central and parental ties are peripheral Drawing on years of fieldwork Doing the Best I Can shows how mammoth economic and cultural changes have transformed the meaning of fatherhood among the urban poor Intimate interviews with more than 100 fathers make real the significant obstacles faced by low income men at every step in the familial process from the difficulties of romantic relationships to decision making dilemmas at conception to the often celebratory moment of birth and finally to the hardships that accompany the early years of the child s life and beyond A

Japanese American Incarceration Stephanie D. Hinnershitz,2021-10-01 Between 1942 and 1945 the U S government wrongfully imprisoned thousands of Japanese American citizens and profited from their labor Japanese American Incarceration recasts the forced removal and incarceration of approximately 120 000 Japanese Americans during World War II as a history of prison labor and exploitation Following Franklin Roosevelt s 1942 Executive Order 9066 which called for the exclusion of potentially dangerous groups from military zones along the West Coast the federal government placed Japanese Americans in makeshift prisons throughout the country In addition to working on day to day operations of the camps Japanese Americans were coerced into harvesting crops digging irrigation ditches paving roads and building barracks for little to no compensation and often at the behest of privately run businesses all in the name of national security How did the U S government use incarceration to address labor demands during World War II and how did

imprisoned Japanese Americans respond to the stripping of not only their civil rights but their labor rights as well Using a variety of archives and collected oral histories Japanese American Incarceration uncovers the startling answers to these questions Stephanie Hinnert's timely study connects the government's exploitation of imprisoned Japanese Americans to the history of prison labor in the United States
