Third Series* Library of Congress. Copyright Office, 1974 **Voting Assistance Guide**, 2002 Souled Out E. J. Dionne Jr., 2009-10-12 The religious and political winds are changing. Tens of millions of religious Americans are reclaiming faith from those who would abuse it for narrow partisan and ideological purposes. And more and more secular Americans are discovering common ground with believers on the great issues of social justice, peace, and the environment. In Souled Out, award-winning journalist and commentator E. J. Dionne explains why the era of the Religious Right and the crude exploitation of faith for political advantage is over. Based on years of research and writing, Souled Out shows that the end of the Religious Right doesn't signal the decline of evangelical Christianity but rather its disentanglement from a political machine that sold it out to a narrow electoral agenda of such causes as opposition to gay marriage and abortion. With insightful portraits of leading contemporary religious figures from Rick Warren and Richard Cizik to John Paul II and Benedict XVI, Dionne shows that our great religions have always preached a broad message of hope for more just human arrangements and refused to be mere props for the powers that be. Dionne also argues that the new atheist writers should be seen as a gift to believers: a demand that they live up to their proclaimed values and embrace scientific and philosophical inquiry in a spirit of intellectual solidarity. Written in the tradition of Reinhold and H. Richard Niebuhr, Souled Out will help change how we think and talk about religion and politics in the post-Bush era. By Popular Demand John Gastil, 2000-08-01 John Gastil challenges conventional assumptions about public opinion, elections, and political expression in this persuasive treatise on how to revitalize the system of representative democracy in the United States. Gastil argues that American citizens have difficulty developing clear policy interests, seldom reject unrepresentative public officials, and lack a strong public voice. Our growing awareness of a flawed electoral system is causing increased public cynicism and apathy. The most popular reforms, however, will neither restore public trust nor improve representation. Term limits and campaign finance reforms will increase turnover but they provide no mechanism for improved deliberation and accountability. Building on the success of citizen juries and deliberative polling, Gastil proposes improving our current process by convening randomly selected panels of citizens to deliberate for several days on ballot measures and candidates. Voters would learn about the judgments of these citizen panels through voting guides and possibly information printed on official ballots. The result would be a more representative government and a less cynical public. America has a long history of experimentation with electoral systems, and the proposals in By Popular Demand merit serious consideration and debate. **The Power Worshippers**

Katherine Stewart, 2020-03-03 The inspiration for the documentary *God Country* For readers of *Democracy in Chains* and *Dark Money* a revelatory investigation of the Religious Right's rise to political power For too long the Religious Right has masqueraded as a social movement preoccupied with a number of cultural issues such as abortion and same sex marriage In her deeply reported investigation Katherine Stewart reveals a disturbing truth this is a political movement that seeks to gain power and to impose its vision on all of society America's religious nationalists aren't just fighting a culture war they are waging a political war on the norms and institutions of American democracy Stewart pulls back the curtain on the inner workings and leading personalities of a movement that has turned religion into a tool for domination She exposes a dense network of think tanks advocacy groups and pastoral organizations embedded in a rapidly expanding community of international alliances and united not by any central command but by a shared anti-democratic vision and a common will to power She follows the money that fuels this movement tracing much of it to a cadre of super wealthy ultraconservative donors and family foundations She shows that today's Christian nationalism is the fruit of a longstanding antidemocratic reactionary strain of American thought that draws on some of the most troubling episodes in America's past It forms common cause with a globe spanning movement that seeks to destroy liberal democracy and replace it with nationalist theocratic and autocratic forms of government around the world Religious nationalism is far more organized and better funded than most people realize It seeks to control all aspects of government and society Its successes have been stunning and its influence now extends to every aspect of American life from the White House to state capitols from our schools to our hospitals *The Power Worshippers* is a brilliantly reported book of warning and a wake up call Stewart's probing examination demands that Christian nationalism be taken seriously as a significant threat to the American republic and our democratic freedoms

Reforming Legislatures Peverill Squire, 2024-06-26 Winner of the 2025 Virginia Gray Book Award APSA Section 22 State Politics and Policy Legislatures are ubiquitous in the American political experience First created in Virginia in 1619 they have existed continuously ever since Indeed they were established in even the most unlikely of places notably in sparsely populated frontier settlements and functioned as the focal point of every governing system devised Despite the ubiquity of state legislatures we know remarkably little about how Americans have viewed them as organizations in terms of their structures rules and procedures But with the rise of modern public opinion surveys in the twentieth century we now have extensive data on how Americans have gauged legislative performance throughout the many years That said the responses to the questions pollsters typically pose reflect partisanship policy and personality Generally respondents respond favorably to legislatures controlled by their own political party and those in power during good economic times Incumbent lawmakers get ratings boosts from having personalities home styles that mesh with those of their constituents These relationships are important indicators of people s thoughts regarding the current performance of their legislatures and legislators but they tell us nothing about attitudes toward the institution and its organizational characteristics This study offers a unique perspective on what American voters have historically thought about legislatures as organizations and legislators as representatives Rather than focusing on responses to surveys that ask respondents how they rate the current performance of lawmakers and legislatures this study leverages the most significant difference between national and state politics the existence of ballot propositions in the latter At the national level Americans have never had any say over Congress s structure rules or procedures In contrast at the state level they have had ample opportunities over the course of more than two centuries to shape their state legislatures The data examined here look at how people have voted on more than 1 500 state ballot propositions targeting a wide array of legislative organizational and parliamentary features By linking the votes on these measures with the public debates preceding them this study documents not only how American viewed various aspects of their legislatures but also whether their opinions held constant or shifted over time The findings reported paint a more nuanced picture of Americans attitudes toward legislatures than the prevailing one derived from survey research When presented with legislative reform measures on which concrete choices were offered and decisions on them had to be made the analyses presented here reveal that counter to the conventional wisdom that people loved their representatives but hated

the legislature voters usually took charitable positions toward the institution while harboring skeptical attitudes about lawmakers motives and behaviors      *Southeast Corridor, Houston* ,2007      **Practicing Texas Politics** ,1998
