How To Write A Dysphagia Report:

A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology Cyndi Stein-Rubin, Renee Fabus, 2024-06-01 Learning to assess speech and language disorders and write diagnostic reports may be an overwhelming experience especially when most texts don't cover both topics at once. With that in mind, A Guide to Clinical Assessment and Professional Report Writing in Speech Language Pathology Second Edition combines the latest assessment protocols and diagnostic techniques with vital diagnostic report writing tools into a single definitive guide. Cyndi Stein-Rubin, Renee Fabus, and their contributors recognize that clinical assessment is inextricably linked to report writing and have updated this Second Edition to synthesize the two. Following the introductory chapters which discuss the basics of assessment and report writing, each subsequent chapter focuses on a particular disorder, provides in-depth assessment tools, and presents a corresponding sample report. Key Features: An inventory and explanation of formal and informal assessment measures; A glossary of key vocabulary; Sample case histories with assessment tools; Relevant and useful interview questions; Each disorder's background and characteristics; Assessment parameters; A differential diagnosis section; A model report. The accessible format of A Guide to Clinical Assessment and Professional Report Writing in Speech Language Pathology Second Edition will help students learn how to assess and document speech and language disorders and will also make for a perfect reference for them as clinicians for years to come. *New approaches to evaluation and management of dysphagia in neurological disease* Masahiro Nakamori, Omar Ortega Fernández, Jun Kayashita, Mineka Yoshikawa, 2024-08-26 Neurological diseases tend to cause dysphagia which can lead to aspiration pneumonia influencing patient mortality and morbidity and increase the cost of medical care. Thus it is essential to implement better evaluation, intervention, and rehabilitation for dysphagia. Many protocols and tools for assessing dysphagia, including aspiration, have been developed. Videofluoroscopic and videoendoscopic examinations are the current gold standard for assessing dysphagia. In addition, novel methods and instruments have been developed which are non-invasive and simple to implement. As for clinical intervention, several effective rehabilitation protocols as well as traditional methods have been utilized. Moreover, novel machines such as transcranial magnetic stimulation, transcranial direct current stimulation, and transcutaneous electrical stimulation of the neck are being introduced and are expected to improve neuromuscular function. *Dysphagia - E-Book* Michael E. Documentation and Reimbursement for Speech-Language Pathologists Nancy Swigert, 2024-06-01 Although it is the least noticed by patients effective documentation is one of the most critical skills that speech language pathologists must learn With that in mind

Documentation and Reimbursement for Speech Language Pathologists Principles and Practice provides a comprehensive guide to documentation coding and reimbursement across all work settings. The text begins with section 1 covering the importance of documentation and the basic rules both ethical and legal followed by an exploration of the various documentation forms and formats. Also included are tips on how to use electronic health records as well as different coding systems for diagnosis and for procedures with an emphasis on the link between coding reimbursement and the documentation to support reimbursement. Section 2 explains the importance of focusing on function in patient centered care with the ICF as the conceptual model then goes on to cover each of the types of services speech language pathologists provide evaluation treatment planning therapy and discharge planning. Multiple examples of forms and formats are given for each. In section 3 Nancy Swigert and her expert team of contributors dedicate each chapter to a work setting in which speech language pathologists might work whether adult or pediatric because each setting has its own set of documentation and reimbursement challenges. And since client documentation is not the only kind of writing done by speech language pathologists a separate chapter on other professional writing includes information on how to write correspondence avoid common mistakes and even prepare effective PowerPoint presentations. Each chapter in Documentation and Reimbursement for Speech Language Pathologists contains activities to apply information learned in that chapter as well as review questions for students to test their knowledge. Customizable samples of many types of forms and reports are also available. Included with the text are online supplemental materials for faculty use in the classroom. Documentation and Reimbursement for Speech Language Pathologists Principles and Practice is the perfect text for speech language pathology students to learn these vital skills but it will also provide clinical supervisors new clinicians and speech language pathologists starting a private practice or managing a department with essential information about documentation coding and reimbursement.
