

WRITING A PHILOSOPHY PAPER

Philosophical writing is different from the writing you are asked to do in other courses; these guidelines might be helpful, but do not assume that following them is enough to write a good philosophy paper.

1. What you are trying to accomplish: The virtues of a philosophy paper

A philosophy paper consists in a critical analysis of a thesis and in a reasoned defense of some claims. If you advance a claim, your claim should be supported by argument. If you attribute a view to someone, you should support your attribution with reference to the original text and interpretative remarks. When you make claims about a philosopher you have read, make sure that you support your interpretation with references to specific passages. When you take a specific formulation of a point from a text, use quotations.

The virtues of a philosophy paper are:

- **clarity:** say what you have to say simply and straightforwardly
- **depth of analysis and critical questioning:** offer a critical analysis of a philosophical issue, present and question different approaches to the same issue, and compare them.
- **consideration of arguments:** the reader is not interested in your own opinion, but in the way you reason about a particular issue, how you argue about it, how you defend your claims. You must exhibit reasons for what you hold, not just voice your concern about a particular matter. Make your reasons explicit.
- **logical organization:** everything that you write must be justified: there should be a reason why you wrote what you wrote the way you did. Use only the sentences that you need to express your claims. In order to construct an argument, each step of your reasoning should be clear and in the right order. Each paragraph should follow the previous one logically,

Methods of Doing Eastern Philosophies Chanh Phan, , *Writing-Intensive* Wendy Strachan, 2008-04-01 In one of the few book length studies of a major post secondary writing across the curriculum initiative from concept to implementation *Writing Intensive* traces the process of preparation for new writing requirements across the undergraduate curriculum at Simon Fraser University a mid sized Canadian research university As faculty members across campus were selected to pilot writing intensive courses and as administrators and committees adjusted the process toward full implementation planners grounded their pedagogy in genre theory a new approach for many non composition faculty So doing the initiative aimed to establish a coherent yet rhetorically flexible framework through which students might improve their writing in all disciplines Wendy Strachan documents this campus cultural transformation

exploring successes and impasses with equal interest The study identifies factors to be considered to avoid isolating the teaching of writing in writing intensive courses to engender a university wide culture that naturalizes writing as a vital part of learning across all disciplines and to keep the teaching of writing organic and reflected upon in a scholarly manner across campus A valuable case history for scholars in writing studies WAC WID and curricular change studies

Advances in Corpus-based Research on Academic Writing Ute Römer,Viviana Cortes,Eric Friginal,2020-02-15 This volume showcases some of the latest research on academic writing by leading and up and coming corpus linguists The studies included in the volume are based on a wide range of corpora spanning first and second language academic writing at different levels of writing expertise containing texts from a variety of academic disciplines and sub disciplines and of different academic registers Particularly novel aspects of the collection are the inclusion of research that combines rhetorical moves with multi dimensional analysis studies that cover both fixed and variable phraseological items lexical bundles phrase frames constructions and work that is based on corpora of English as an academic lingua franca Going beyond merely summarizing their findings the authors also discuss what their research means for academic writing practice and pedagogical settings The volume will be of interest to researchers students and teachers who would like to expand their knowledge of how academic writing functions and what it looks like in a variety of contexts

Problems in Epistemology and Metaphysics Steven B. Cowan,2020-02-06 Problems in Epistemology and Metaphysics takes a pro and con approach to two central philosophical topics Each chapter begins with a question Can We Have Knowledge How are Beliefs Justified What is the mind Contemporary philosophers with opposing viewpoints are then paired together to argue their position and raise problems with conflicting standpoints Alongside an up to date introduction to a core philosophical stance each contributor provides a critical response to their opponent and clear explanation of their view Discussion questions are included at the end of each chapter to guide further discussion With chapters covering core questions surrounding religious beliefs scientific knowledge truth being and reality this is a comprehensive introduction to debates lying at the heart of what we know how we know it and the nature of the world we live in

Transcendental Arguments in Moral Theory Jens Peter Brune,Robert Stern,Micha H. Werner,2017-03-20 Since Barry Stroud s classic paper in 1968 the general discussion on transcendental arguments tends to focus on examples from theoretical philosophy It also tends to be pessimistic or at least extremely reluctant about the potential of this kind of arguments Nevertheless transcendental reasoning continues to play a prominent role in some recent approaches to moral philosophy Moreover some authors argue that transcendental arguments may be more promising in moral philosophy than they are in theoretical contexts Against this background the current volume focuses on transcendental arguments in practical philosophy Experts from different countries and branches of philosophy share their views about whether there are actually differences between theoretical and practical uses of transcendental arguments They examine and compare different versions of transcendental arguments in moral philosophy explain their structure and assess their

respective problems and promises This book offers all those interested in ethics meta ethics or epistemology a more comprehensive understanding of transcendental arguments It also provides them with new insights into uses of transcendental reasoning in moral philosophy Methods in Analytical Political Theory Adrian Blau,2017-05-02 This is the first book to explain how to use key methods in analytical political theory The methods discussed include contractualism reflective equilibrium positive political theory thought experiments and ideological analysis Many discussions of political theory methods describe and justify these methods with little or no discussion of their application emphasizing what is and why do over how to This book covers all three Each chapter explains what kinds of problems in political theory might require researchers to use a particular method the basic principles behind the method being proposed and an analysis of how to apply it including concrete principles of good practice The book thus summarizes methodological ideas grouped in one place and made accessible to students and it makes innovative contributions to research methods in analytical political theory

Problems in Value Theory Steven B. Cowan,2020-02-06 Problems in Value Theory takes a pro and con approach to central topics in aesthetics ethics and political theory Each chapter begins with a question What Makes Actions Right or Wrong Does Morality Depend on God Do We Need Government Contemporary philosophers with opposing viewpoints are then paired together to argue their position and raise problems with conflicting standpoints Alongside an up to date introduction to a core philosophical stance each contributor provides a critical response to their opponent and clear explanation of their view Discussion questions are included at the end of each chapter to guide further discussion With chapters ranging from why the government should never wage war to what is art and does morality depend on God this introduction covers questions lying at the heart of debates about what does and does not have value **How Students**

Write: A Linguistic Analysis Laura Louise Aull,2020-04-01 Broad generalizations about people today are a familiar feature of first year student writing How Students Write brings a fresh perspective to this perennial observation using corpus linguistics techniques This study analyzes sentence level patterns in student writing to develop an understanding of how students present evidence draw connections between ideas relate to their readers and ultimately learn to construct knowledge in their writing Drawing on both first year and upper level student writing the book examines the discourse of students at different points in their education It also distinguishes between argumentative and analytic essays to explore the way school genres and assignments shape students choices In focusing on sentence level features such as hedges perhaps and boosters definitely this study shows how such rhetorical choices work together to open or close opportunities for thoughtful exchanges of ideas Attention to these features can help instructors foster civil discourse design effective assignments and expose and question norms of higher education *The Great Conversation* NORMAN.
