How Young People Communicate A Cuban Perspective:

How Young People Communicate. A Cuban Perspective Eddie Fisher, Yorkys Santana Gonzalez, 2014-11-06 Research Paper postgraduate from the year 2014 in the subject Psychology Social Psychology Palack University Olomouc Economics language English abstract This research investigates and provides a deeper insight into what is meant by effective communication then relates this to how young people in Cuba communicate today and how changes in technology have already affected the communication style of youngsters in this country The results suggest that face to face communications are diminishing at the expense of digital communications such as SMS and Social Media This could have adverse affects in future on how well young and older people live and work together in local communities It is suggested to take proactive steps now to educate young people in the correct use of emerging technology to ensure that they do not lose their ability to communicate effectively with people at all ages in future Social Psychology has a responsibility to improve the lives of people at all ages It could become the driving force to educate young people how to make good use of the new technology whilst at the same time trying not to lose existing abilities to communicate effectively with people face to face and with respect The outcome of this research should also be of interest to other countries The adverse impact of new technology on how young people communicate is now evident world wide Keywords Face to face communications technology social media attitude social responsibilities

Internationalizing the Communication Curriculum in an Age of Globalization Paaige Turner, Soumia Bardhan, Tracey Quigley Holden, Eddah Mutua, 2019-12-09 Globalization and the resulting internationalization of universities is driving change in teaching learning and what it means to be educated This book provides exemplars of how the Communication discipline and curriculum are responding to the demands of globalization and contributing to the internationalization of higher education Communication as a discipline provides a strong theoretical and methodological framework for exploring the benefits challenges and meanings of globalization The goal of this book therefore is to facilitate internationalization of the communication discipline in an era of globalization Section one discusses the theoretical perspectives of globalism internationalization and the current state of the Communication discipline and curriculum Section two offers a comprehensive understanding of the role ways and impact of internationalizing teaching learning and research in diverse areas of study in Communication including travel programs and initiatives to bring internationalization to the classroom The pieces in this section will include research based articles case studies analytical reviews that exam key questions about the field and themed pieces for dialogue debate on current and future teaching and learning issues related to internationalizing the Communication discipline curriculum Section three provides an extensive sampling of materials and resources for immediate use in internationalization in communication studies sample syllabi activities examples and readings will be included In sum our book is designed to enable communication curriculum and communication courses in other disciplines to be internationalized and to offer different approaches to enable faculty students and administrators to

incorporate and experience an internationalized curriculum regardless of time and financial limitations This book is notable as a professional development resource for individuals both inside and outside the communication discipline who wish to incorporate a global perspective into their research and classrooms Beauty: Exploring Critical Perspectives Pierre Wilhelm, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Rather than accept society's preferred metaphors about beauty at face value the authors in this volume question the fact that beauty can also surprise us in the least foreseeable setting at the most unexpected moment and in the most surprising or unsettling ways Their work underscores beauty's ephemeral transitory fleeting and at times confounding nature The way beauty reveals itself to us they point out may challenge or even contradict established conventions norms and values about aesthetics The emergence of unconventional metaphors and analogies about beauty in these chapters calls on us to pay attention to competing and seemingly intractable connotations of fear darkness ugliness oppression repression callousness and dejection that won't leave us indifferent to their appeal How we as researchers envisage beauty as a topic of investigation tells us as much about our conceptualization of beauty arising from particular scientific perceptions as about the language and symbols that express this perception It raises the important question about why we rely on conceptual constructs to explain beauty and whether beauty remains a mystery to be explored or ultimately one best left unexplained **Assertiveness in the Health Domain**

Handbook of Research in Educational Communications and Technology M. J. Bishop, Elizabeth Boling, Jan Elen, Vanessa Svihla, 2020-09-21 The 5th edition of the prestigious AECT Handbook continues previous efforts to reach outside the traditional instructional design and technology community to the learning sciences and computer information systems communities toward developing a conceptualization of the field However given the pervasive and increasingly complex role technology now plays in education since the 1st edition of the Handbook in 1996 the editors have reorganized the research chapters in this edition to focus on the learning problems we are trying to solve with educational technologies rather than to focus on the things we are using to solve those problems Additionally for the first time this edition of the Handbook reflects our field s growing understanding of the importance of design scholarship to inform practice by including design case chapters These changes for this edition of the Handbook are intended to bring educational technology research into the broader framework of educational research by elaborating on the role instructional design and technology plays as a scholarly discipline in addressing education s increasingly complex issues Provides comprehensive reviews of new developments in educational technology research and design practice Includes concrete examples to guide future research and practice in the ways emerging technologies can be used to solve educational problems Contains extensive references furnished to guide readers to the most recent research and design practice in the field of instructional design and technology

Perspectives on Individual Differences Affecting Therapeutic Change in Communication Disorders Amy L. Weiss, 2012-12-06 This volume examines the ramifications of individual differences in therapy outcomes for a wide variety of communication disorders In an era where evidence based practice is the clinical profession s watchword each chapter attacks this highly relevant issue from a somewhat different perspective In some areas of communication disorders considering the variance brought by the client into the therapeutic mix has a healthy history whereas in others the notion of how individual client profiles mesh with therapy outcomes has rarely been considered Through the use of research results case study descriptions and speculation the contributors have creatively woven what we know and what we have yet to substantiate into an interesting collection of summaries useful for therapy programming and designing clinical research

Interracial Communication Mark P. Orbe, Tina M. Harris, 2007-08-14 This exciting and much anticipated Second Edition of *Interracial Communication Theory into Practice* guides readers in applying the valuable contributions of recent communication theory to improving everyday communication among the races Authors Mark P Orbe and Tina M Harris offer a comprehensive practical foundation for dialogue on interracial communication as well as a resource that stimulates thinking and encourages readers to become active participants in the solution process Part I of the book provides a foundation for studying interracial communication and includes chapters on the history of race and racial categories the importance of language the development of racial and cultural identities and current and classical theoretical approaches

Part II applies these concepts and theories to interracial communication practices in specific everyday contexts friendships romantic relationships organizational public and group settings and the mass media Encyclopedia of Science and Technology Communication Susanna Hornig Priest, 2010-07-14 The explosion of scientific information is exacerbating the information gap between richer poorer educated less educated publics The proliferation of media technology and the popularity of the Internet help some keep up with these developments but also make it more likely others fall further behind This is taking place in a globalizing economy and society that further complicates the division between information haves and have nots and compounds the challenge of communicating about emerging science and technology to increasingly diverse audiences Journalism about science and technology must fill this gap yet journalists and journalism students themselves struggle to keep abreast of contemporary scientific developments Scientist aided by public relations and public information professionals must get their stories out not only to other scientists but also to broader public audiences Funding agencies increasingly expect their grantees to engage in outreach and education and such activity can be seen as both a survival strategy and an ethical imperative for taxpayer supported university based research Science communication often in new forms must expand to meet all these needs Providing a comprehensive introduction to students professionals and scholars in this area is a unique challenge because practitioners in these fields must grasp both the principles of science and the principles of science communication while understanding the social contexts of each For this reason science journalism and science communication are often addressed only in advanced undergraduate or graduate specialty courses rather than covered exhaustively in lower division courses Even so those entering the field rarely will have a comprehensive background in both science and communication studies This circumstance underscores the importance of compiling useful reference materials The Encyclopedia of Science and Technology Communication presents resources and strategies for science communicators including theoretical material and background on recent controversies and key institutional actors and sources Science communicators need to understand more than how to interpret scientific facts and conclusions they need to understand basic elements of the politics sociology and philosophy of science as well as relevant media and communication theory principles of risk communication new trends and how to evaluate the effectiveness of science communication programmes to mention just a few of the major challenges This work will help to develop and enhance such understanding as it addresses these challenges and more Topics covered include advocacy policy and research organizations environmental and health communication philosophy of science media theory and science communication informal science education science journalism as a profession risk communication theory public understanding of science pseudo science in the news special problems in reporting science and technology science communication ethics
