Human Resources Case Studies:

Human Resource Management Michael Müller-Camen, Richard Croucher, Susan Rosemary Leigh, 2008-01-31 Human Resource Management A Case Study Approach is ideal for all HR students with limited real life experience of HR in the workplace Covering all the essential HR topics including recruitment reward performance management employment relations health and safety and equality and diversity this book expertly uses case studies of these activities and issues in the real world to truly show HR in practice Closely structured around the changing role of the HR function Human Resource Management A Case Study Approach provides expert guidance on HR processes and practices in the modern workplace while also looking forward to the role of HR professionals in the future Packed with case studies international examples and global research this is an essential resource for all students of HR from the beginning of their studies right through to graduation and into the workplace Online resources include powerpoint slides and lecture notes for tutors and additional case studies and multiple choice questions for students Human Resource Case Studies Martin Gabriel (HR consultant), 2016 *Case Studies in Work, Employment and Human Resource Management* Tony Dundon, Adrian Wilkinson, 2020-02-28 This comprehensive book offers a fascinating set of over 40 evidence based case studies derived from international research on work employment and human resource management HRM *Df-Hired Hands Or Human Resources?* Z B. E. Kaufman, 2011-02-23 *Case Studies in Organizational Behaviour and Human Resource Management* Dan Gowler, Karen Legge, Chris Clegg, 1993-03-28 This book presents 24 research based cases that require users to apply relevant theoretical models to the analysis of real life organizations and to specify solutions to practical managerial problems Nine of the cases additionally provide role playing exercises The book is organized into five parts and the cases deal with issues at the interface of strategy organizational behaviour and HRM These include Japanese manufacturing methods TQM JIT high performance work teams greenfield sites culture and commitment layering recruitment selection appraisal and development managing growth and retrenchment All the cases are united by the common theme of managing organizational change in settings as diverse as car components and assembly companies British Airways Fulham Football Club retail distribution and retailing a partnership of professional surveyors the NHS and British Rail Case Studies and Activities in Adult Education and Human Resource Development Steven W. Schmidt, Kathleen P. King, 2010-09-01 Case studies have become a widely used instructional tool in many educational environments The use of case studies began in the 1950s at Harvard Business School Today they may be used as part of a course of study or as the main focus of a course to which other material is added While the use of case studies is prevalent in schools of business and medicine they are not often used in adult education or human resource development This may be because there are no current major publications that deal with the use of case studies in these disciplines nor are there any major databases of adult education or human resource development case studies for instructors to use Good case studies can bring reality into the classroom They can provide

frameworks for discussion based on issues that must be faced in real life Complex case issues can be broken down and examined for greater understanding then pulled together again for resolution Case studies can be used successfully in adult education I propose a book based on the use of case based learning in adult education and human resource development HRD The book could be positioned as a supplement to course textbooks for courses in adult education and HRD I would write the cases and develop the exercises but could also get others to contribute a case study or exercise to the book Cases would each be a half page to maybe 2 3 pages at the long end and would include questions for students readers Supplementary information possibly in the form of a DVD could be put together for instructors This information would include case study focal points and examples of possible responses for each study exercise
