*Tongeren during the Late Roman Period and Early Middle Ages, c. 300-750 CE* Steven Vandewal, 2024-12-16 The traditional picture is that there is little information about Tongeren the capital of the civitas Tungrorum in Roman times from Late Antiquity onwards In the last twenty years or so very cautiously voices have been raised to nuance the story of the general decline of Tongeren from the beginning of the fifth century A recurring question is whether Tongeren remained inhabited and what its function might have been A key site is the Roman basilica the predecessor of an early medieval church A key figure is the bishop whose seat was moved to neighbouring Maastricht in the sixth century Based on an extensive database a picture of late Roman Tongeren is drawn with its public and private buildings cemeteries and material finds While the number of finds is decreasing more historical sources are becoming available for the early Middle Ages For this period not only the re Christianisation is discussed but also the political religious and economic role that the former capital of the civitas could have played Due to its location one could state that in the civitas Tungrorum the Middle Ages started earlier than elsewhere because of the emergence of a Franko Roman society

*The Crowd in the Early Middle Ages* Shane Bobrycki,2024-11-19 The importance of collective behavior in early medieval Europe By the fifth and sixth centuries the bread and circuses and triumphal processions of the Roman Empire had given way to a quieter world And yet as Shane Bobrycki argues the influence and importance of the crowd did not disappear in early medieval Europe In *The Crowd in the Early Middle Ages* Bobrycki shows that although demographic change may have dispersed the urban multitudes of Greco Roman civilization collective behavior retained its social importance even when crowds were scarce Most historians have seen early medieval Europe as a world without crowds In fact Bobrycki argues early medieval European sources are full of crowds although perhaps not the sort historians have trained themselves to look for Harvests markets festivals religious rites and political assemblies were among the gatherings used to regulate resources and demonstrate legitimacy Indeed the refusal to assemble and other forms of slantwise assembly became a weapon of the powerless Bobrycki investigates what happened when demographic realities shifted but culture religion and politics remained bound by the past The history of crowds during the five hundred years between the age of circuses and the age of crusades Bobrycki shows tells an important story one of systemic and scalar change in economic and social life and of reorganization in the world of ideas and norms *Dictionary Catalog of the National Agricultural Library* National Agricultural Library (U.S.),1967 Catalogue Davis & Orioli (Firm), **Dictionary Catalog of the Rare Book Division** New York Public Library.
