I am a police officer and more times than not, I find myself dealing with school ages kids. Usually they range between the ages of 13-18. Most of the time I feel like a counselor because when we deal with juveniles, the juvenile judicial system has tied our hands in what they will incarcerate a juvenile for, so we usually give them a stern talking to and release them back to the custody of their parents. I also work closely with the middle and high school administrators. Sometimes we are in the schools dealing with problems or sometimes we take kids back to school that we find skipping class.

This is why I chose to write this discussion board entry on the ethics of school counselors. There are several ethical standards for school counselors, so I will only be touching on a few of them, while comparing them to biblical passages. The first I would like to hit on is the counselor's responsibilities to their students. They are to treat their students with respect at all time and always consider the students future when talking with them. Romans 12:10 states, "be devoted to one another in brotherly love, but give preference to one another in honor. I think this passage fits perfect here, because when a student goes to a counselor it is usually to talk about a problem they are having or advice on a particular topic. This verse is saying to be devoted to the person as you want the same devotion to you. Another ethical standard for school counselors is confidentiality. The administrators and counselors are not to discuss the student's issues and school records with anyone unless a informed consent has been agreed on and signed. Proverbs 12:22 states, "lying lips are an abomination of the lord, but those who act faithfully are his delight. Taking this passage word for word to me basically means that the lord frowns upon the lips that lie and lying is also one of the Ten Commandments that should be remembered when being trusted by another. One of the ethical standards is that counselors and administrators but inform parents and/or legal guardians if a student poses a danger to himself or another. The counselors are never to negate the risk of harm because some students will hide this in order to avoid any type of further scrutiny from other students, teachers or administrators. Corinthians 6:19-20 states, "do you not know that your body is a temple of the holy spirit within you, whom you have from God? You are not your own, for you were bought with a price. So glorify in your body, " I don't think that many of these students who look to harm themselves or harm someone else are thinking past the injury and into the bible and what they are actually doing in the Lord's eyes. The next ethical standard by which the counselors are held to is professionalism. They are to treat everything that you do in a way that is looked at as professional to society.

They are to seek the consent of parents before conducting any research into a

*Culture and Enlightenment* Paul Crittenden, 2017-11-22 This title was first published in 2002 Culture and Enlightenment are the two words that best characterise the essence of Gyrgy Markus's career in whose honour this book is published Markus devoted the last twenty years of research towards a theory of cultural objectifications and their pragmatics and the great depth of his knowledge of the history of culture and philosophy informs all his teaching and writing The pursuit of Enlightenment ideals attains reflective self consciousness in Markus works forged in the knowledge of its own historicity of the embeddedness of rationalities in culture and in an awareness of the paradoxes that cling to the conscious affirmation of ideals which are no longer self evident or beyond questioning In taking up the challenge of these paradoxes Markus spans the whole history of modern philosophy and culture with a matchless authority This book draws together contributions from leading figures in contemporary philosophy who are also friends colleagues and former students of Gyrgy Markus The book is divided into two sections the first presents critical assessments of various aspects of Markus wide ranging works the second presents contributions in celebration of his influence and his wide interests In their critical assessment of Markus work and in the demonstration of his influence the contributors hope to convey something of the breadth and something of the excitement of doing philosophy in the company of Gyrgy Markus

M'Laren, 1870 **The Idea of Poverty** Paul Spicker, 2007-01-10 Paul Spicker examines views about what poverty is and what should be done about it Poverty means many different things to different people for example lack of money or dependency on benefits Here he makes an argument for a participative inclusive understanding of the term **Economic Ideas, Policy and National Culture** Eelke de Jong, 2021-11-14 All human beings develop a certain view on the world Inhabitants of the same country are likely to develop similar worldviews The common part of these views constitutes the

country's national culture. Consequently, academic economists, policymakers, and the population at large are consistently exposed to the same opinions on the preferred way of organizing an economy. This book explores the economic impacts of these shared cultural values, focusing on the economies of the United States, Germany, and France. These three countries broadly represent three different types of economic organization and their corresponding economic ideologies: a free market economy, a coordinated market economy, and a hierarchical market economy. The contributors to this edited volume have examined the extent to which the shared worldviews between academic economists, policymakers, and the wider population impact these economies. In particular, the chapters investigate the consequences for the design of the labor market, the financial system, competition policy, and monetary policy. The work also explores the extent to which the shared views on national culture and economic systems and policies in these countries contribute to the population's well-being overall. This book makes an invaluable contribution to the literature on comparative economics, economic policy, well-being, and cultural economics.

**Horace Greeley** Robert C. Williams, 2006-05 A major figure in nineteenth-century American politics and reform movements, Greeley was also a key actor in a worldwide debate about the meaning of freedom that involved progressive thinkers on both sides of the Atlantic, including Margaret Fuller, Ralph Waldo Emerson, and Karl Marx. In the first comprehensive biography of Greeley to be published in nearly half a century, Williams captures Greeley from all sides: editor, reformer, political candidate, eccentric, and trans-Atlantic public intellectual examining headlining news issues of the day, including slavery, westward expansion, European revolutions, the Civil War, the demise of the Whig, and the birth of the Republican parties, transcendentalism, and other intellectual currents of the era.

**Interpreting Political Responsibility** John Dunn, 2014-07-14 In this volume, one of the leading political theorists of our time addresses what he believes is the major task of political theory: showing human beings how they have good reason to act in the historical situation in which they find themselves. Dunn argues that humans today depend more abjectly and extensively than ever before on the capacity of some of our number for skillful political action. There are many reasons for this dependence, closely linked: nuclear threat and financial systems, massive trade flows that sustain or imperil the well-being of all modern populations, and the awesome scale of the unintended ecological effects of human production. Why has modern political theory failed to relate these factors systematically to one another and to provide people with adequate reasons for action? To answer this twin query, Dunn brilliantly deploys the resources of the historical development of Western political thinking in counterpoint with some of the main lessons of international political economy. The concluding essay reasserts that the classical virtue of prudence has a central place in contemporary politics. The conditions of modern politics, it maintains, require the exercise of prudence, not merely by political, military, and economic leaders but also by the populace at large. Overall, this selection of Dunn's most influential work of the past decade reflects his remarkable range of interests, including Locke's ideological importance, the nature of trust in politics, rights, liberty, responsibility at a national level, postcolonial African politics, and political community.

*Representation, Heterodoxy, and Aesthetics* Ashley Marshall, 2014-12-23 The chapters constituting this book are different in subject and method striking testimony to the range of Paulson's interests and the versatility of his critical powers In his prolific career he has produced extensive analysis of art poetry fiction and aesthetics produced in England between 1650 and 1830 Paulson's unique contribution has to do with his understanding of seeing and reading as closely related enterprises and popular forms in art and literature as intimately connected connections illustrated by literary critics and art historians here Every essay shares some of the concerns and methods that characterize Paulson's wonderfully idiosyncratic thought except for the final essay an attempt systematically to analyze Paulson's critical principles and methods Recurrent themes are a concern with satire in the eighteenth century a connection between verbal and visual reading an insistence on the importance of individual artistic choices to the history of culture an attention to the aims and motives of individual makers of art and a sensitivity to the crucial links between high and low art This volume offers rich explorations of a range of subjects Swift's relationship to Congreve Zoffany's condemnation of Gillray and Hogarth and broader implications for the role of art in public discourse the presentation of mourning in the work of the Welsh artist and writer Edward Pugh G M Woodward's *Coffee House Characters* representing a turn from satire on morals towards satire on manners Adam Smith's evolving aesthetic program Samuel Richardson's notions of social reading The discussions represent a variety of exemplifications of the Paulsonesque showing a concern with satiric representation in mixed media with different forms of heterodoxy and iconoclasm and with the values of producers of popular and polite culture in this period

*The Idea of Democracy in the Modern Era* Ralph Ketcham, 2004 Although the last half of the twentieth century has been called the Age of Democracy the twenty first has already demonstrated the fragility of its apparent triumph as the dominant form of government throughout the world Reassessing the fate of democracy for our time distinguished political theorist Ralph Ketcham traces the evolution of this idea over the course of four hundred years He traces democracy's bumpy ride in a book that is both an exercise in the history of ideas and an explication of democratic theory Ketcham examines the rationales for democratic government identifies the fault lines that separate democracy from good government and suggests ways to strengthen it in order to meet future challenges Drawing on an encyclopedic command of history and politics he examines the rationales that have been offered for democratic government over the course of four manifestations of modernity that he identifies in the Western and East Asian world since 1600 Ketcham first considers the fundamental axioms established by

theorists of the Enlightenment Bacon Locke Jefferson and reflected in America s founding then moves on to the mostly post Darwinian critiques by Bentham Veblen Dewey and others that produced theories of the liberal corporate state He explains late nineteenth century Asian responses to democracy as the third manifestation grounded in Confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups Ketcham critiques the first second and fourth modernity rationales for democracy and suggests that the Asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today s world He advocates a reorientation of democracy that de emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the Jeffersonian universalism that which informed the founding of the United States if democracy is to flourish in a fifth manifestation The Idea of Democracy in the Modern Era is an erudite interdisciplinary work of great breadth and complexity that looks to the past in order to reframe the future With its global overview and comparative insights it will stimulate discussion of how democracy can survive and thrive in the coming era

The Question of Law Young Kim,2024-01-08 In pursuit of the question of law Young Kim explores foundational political and moral concerns and develops a new normative theory of law This theory of law may be stated as two principles in lexical priority as follows First Principle One should obey those laws of legal rational political authority that do not otherwise violate societal norms and customs Second Principle Government should only enforce rules of human behavior of legitimate legal rational political authority This view understands the foundation of law to be political including the power to enforce rules Thus as this book argues the question of law is seen primarily as a question of obedience whether and in what circumstances it is appropriate to obey the law Furthermore justice is seen as providing the moral framework within which rules of law are articulated Law should serve the demands of justice in particular the theory of justice as right actions which is led by moral concerns
