Shafranek, 2021-09-29 In the United States politics has become tribal and personalized The influence of partisan divisions has extended beyond the political realm into everyday life affecting relationships and workplaces as well as the ballot box To help explain this trend we examine the stereotypes Americans have of ordinary Democrats and Republicans Using data from surveys experiments and Americans own words we explore the content of partisan stereotypes and find that they come in three main flavors parties as their own tribes coalitions of other tribes or vehicles for political issues These different stereotypes influence partisan conflict people who hold trait based stereotypes tend to display the highest levels of polarization while holding issue based stereotypes decreases polarization This finding suggests that reducing partisan conflict does not require downplaying partisan divisions but shifting the focus to political priorities rather than identity a turn to what we call responsible partisanship

*Gracious Forgiveness* Cristian F. Mihut, 2023-03-14 Divine forgiveness is expressed in biblical and liturgical contexts through a variety of metaphors canceling debts covering stains forgoing or stopping litigation forgetting iniquities and more In this study Cristian F Mihut retrieves a theologically paradigmatic liturgically deep and symbolically evocative image of divine forgiveness that has received little attention bearing burdens *Gracious Forgiveness* A Theological Retrieval articulates a divine disposition to forgive starting from this metaphor Embedded in a larger covenantal relational framework where sin is a cosmic sickness humans are targets of divine healing and divine transcendence is expressed through

inexhaustible gracious commitments to redress brokenness divine forgivingness finds its most lucid tangible and full expression in the life and work of Jesus Christ In the person of Jesus Christ we see most clearly how a gracious God is committed to separating sinners from their sin and how God heals people by absorbing into God s own being the consequences of their offense A second main argument of the book is that sin bearing Christological forgivingness has ethical and relational ramifications The study articulates a human disposition to forgive forgivingness that involves both a certain conception of one s participation in Christ and a certain formation of one s sensibility Entrenching forgivingness depends at once on developing gracious hopeful and merciful dispositions but also on seeing oneself as a continuant of God s cosmic story of redressing brokenness Mihut concludes with a defense of the surprising claim that curative forgivingness is compatible with anger and even recommended to people living under oppression      Bonhoeffer Petra Brown,2019-01-04 Theologian Conspirator Martyr Saint Dietrich Bonhoeffer was killed in the waning days of World War II having been implicated in the July 20th assassination attempt on Hitler Since his death Bonhoeffer s life and writings have inspired contradictory responses He is often seen as a model for Christian pacifist resistance and more recently for violent direct political action Bonhoeffer s name has been invoked by violent anti abortion protestors as well as political leaders calling for support on a war on terror in the aftermath of 9 11 Petra Brown critically analyses Bonhoeffer s writing preceding and during his conspiracy involvement particularly his recurring concept of the extraordinary Brown examines this idea in light of the state of exception a concept coined by the one time Nazi jurist and political theorist Carl Schmitt She also draws on the existentialist philosopher S ren Kierkegaard to consider what happens when discipleship is understood as obedience to a divine command This book aims to complicate an unreflective admiration of Bonhoeffer s decision for conspiracy and draws attention to the potentially dangerous implications of his emerging political theology      SOGI Minority and School Life in Asian Contexts Makiko Kasai,Yuichi Toda,Stephen Russell,2023-09-01 Representing an often overlooked population this book explores the experiences of LGBTQ youth in Asian countries Contributors focus on LGBTQ youth s school life experiences including bullying and violence a pervasive and serious problem This book aims to inform psychologists mental health providers and school professionals about the needs of LGBTQ youth from eight different Asian countries Individual chapters present unique aspects of LGBTQ youth experiences in school contexts from different cultural perspectives In addition the intersectionality of LGBTQ and other minorities including ethnicity religion and social class highlights multiple sources of oppression or discrimination that can create additional pressures and stress for youth The concepts of inter minority conflict and inter minority empathy are introduced to understand minority issues from new perspectives This is a valuable reference for psychologists social workers counselors nurses mental health professionals and students whether preparing for general practice treating LGBTQ clients or supporting LGBTQ youth in schools around the world      *A Companion to Fritz Lang* Joe McElhaney,2015-01-27 A Companion to Fritz Lang Fritz Lang s movie making spans a major part of the history of cinema

across genres styles and national contexts With smartness and sharpness the essays in this essential volume come from many angles to capture the richness of Lang s cinema and bring great insight to its study Dana Polan Cinema Studies NYU Fritz Lang s influence on cinema cannot be overstated with a career that stretched from the silent era in Germany to the decline of the Hollywood studio system in the late 1950s from the Weimar Republic to Nazi Germany from Depression America to the McCarthy era One of the best known migr s from Germany s school of Expressionism Lang is also credited with influencing the emergence of film noir A Companion to Fritz Lang offers the first full scale collection of scholarship available in English on one of the most important filmmakers of all time Addressing much of Lang s voluminous body of work from Metropolis and M to lesser known titles such as Western Union and Clash by Night this volume offers a superb overview of Lang s cinema with revealing insights into his enduring influence on directors such as Godard Scorsese Chabrol and Tarantino The two dozen essays presented here are an unrivaled and up to the minute assessment of the prolific and resilient life and vision of one of cinema s greatest auteurs
