Brutt, Or The Sighing Gardens Friederike Mayröcker,2008 br tt or The Sighing Gardens is the hallucinatory tale of an obsessive writer s love affair late in life as told through the daily journal entries of the writer a montage of relentless observation interspersed with found materials from newspaper articles literature and private correspondence The process of aging and the process of writing are two persistent and carefully intertwined themes though it is apparent that plot and theme are subordinate to the linguistic experiments that Friederike Mayr cker performs as she explores them Mayr cker is known for crossing the boundaries of literary forms and in her prose work she creates a hypnotic slurred narrative stream that is formally seamless while simultaneously overstepping all the bounds of grammar and style She is always pushing to expose the limits of language and explore its experimental potential seeking a re ordering of the world through the re ordering of words Her multilayered texts are reminiscent of the traditions of Surrealism and Dadaism and display influences from the works of Beckett H lderlin Freud and Barthes Yet much of Mayrocker s writing simply has no corollary and the experience of reading Roslyn Theobald s brilliant translation grants the English speaking audience an unforgettable encounter with this completely original work
