The objective for the project should be clear and thorough planning should take place, e.g. preparing the questions for an interview. This is followed by the research, and finally the data/ information has to be collated into evidence. The evidence will be in the form of an essay with sub-headings relating to the criteria of the task.

Although learners will spend time outside of contact time to collect resources and information, the completion of the task has to be facilitated by the teacher in class time. The topic and nature of the project will be determined by the content covered according to the annual teaching plan. Learners should be given a project before the end of the second term, after the content related to the project has been addressed, for submission during the third term. Learners will need adequate guidance at the outset of the project and progress should be monitored throughout.
