Manual de zoología fantástica Jorge Luis Borges, Margarita Guerrero, 1957      **Manual de Zoología Fantástica. [With Illustrations.]** Jorge Luis Borges, Margarita Guerrero, 1957      **La función simbólica de los ritos** Francisco Checa, 1997

A Descriptive Catalogue of the Jorge Luis Borges Collection at the University of Virginia Library C. Jared Loewenstein, 1993 Nearly a decade in compilation this catalogue is the most complete checklist to date of works by and about Argentine poet essayist and short story writer Borges 1899 1988 The catalogue describes the holdings in the Borges collection at the U of Virginia Library the world's finest and most complete collection of works by and about Borges Annotation copyright by Book News Inc Portland OR      Borges's Poe Emron Esplin, 2016-03-15 Edgar Allan Poe's image and import shifted during the twentieth century and this shift is clearly connected to the work of three writers from the R o de la Plata region of South America Uruguayan Horacio Quiroga and Argentines Jorge Luis Borges and Julio Cortázar In Borges's Poe Emron Esplin focuses on the second author in this trio and argues that Borges through a sustained and complex literary relationship with Poe's works served as the primary catalyst that changed Poe's image throughout Spanish America from a poet prophet to a timeless fiction writer Most scholarship that couples Poe and Borges focuses primarily on each writer's detective stories refers only occasionally to their critical writings and the remainder of their fiction and deemphasizes the cultural context in which Borges interprets Poe In this book Esplin explores Borges's and Poe's published works and several previously untapped archival resources to reveal an even more complex literary relationship between the two writers Emphasizing the spatial and temporal context in which Borges interprets Poe the R o de la Plata region from the 1920s through the 1980s Borges's Poe underlines Poe's continual presence in Borges's literary corpus More important it demonstrates how Borges's literary criticism his Poe translations and his own fiction create a disparate Poe who serves as a precursor to Borges's own detective and fantastic stories and as an inspiration to the so called Latin American Boom Seen through this more expansive context Borges's Poe shows that literary influence runs both ways since Poe's writings visibly affect Borges the poet story writer essayist and thinker while Borges's analyses and translations of Poe's work and his responses to Poe's texts in his own fiction forever change how readers of Poe return to his literary corpus      Women Curriculum Theorists Sandra Leaton Gray, David Scott, 2023-04-21 Most published bodies of work relating to curriculum theory focus exclusively or almost exclusively on the contributions of men This is not representative of influences on educational practices as a whole and it is certainly not representative of educational theory generally as women have played a significant role in framing the theory and practice of education in the past Their contribution is at least equal to that of men even though it may not immediately appear as visible on library shelves or lecture lists This book addresses this egregious deficit by asking readers to engage in an intellectual conversation about the nature of women's curriculum theory as well as its impact on society and thought in general It does this by examining the work of twelve women curriculum theorists Maxine

Greene Susan Haack Julia Kristeva Martha Nussbaum Nel Noddings Jane Roland Martin Marie Battiste Dorothea Beale Susan Isaacs Maria Montessori Mary Warnock and Lucy Diggs Slowe The book is not an encyclopaedia nor is it a history book It aims to bring to the reader's attention through a semantic rendition of the world those seminal relationships that exist between the three meta-concepts that are addressed in the work feminism learning and curriculum It will appeal to scholars and researchers with interests in curriculum and the philosophy and sociology of education **The Mythmaker** Carter Wheelock, 2014-05-29 Readers who are intrigued though often mystified by the intellectual fantasies of Jorge Luis Borges will find this book a revelation a skeleton key to one of the most fundamental and baffling aspects of Borges's fictions the pattern of symbolism with an inner meaning Carter Wheelock's study reduces a number of literary and intellectual abstractions to concrete terms enabling the reader to understand Borges's fantasies in ways that show them to be not so fantastic after all Indeed they are amazingly consistent and minutely accurate in their symbolic depiction of the magic universe of the mind Wheelock also discusses the affinity between Borges's philosophical idealism and his esthetic of the intelligence the relationship between these and the esthetic ideas of French Symbolism and the influence on his fictions of the Rubiyat of Omar Khayyam Why is it that this writer's writer from the Argentine erudite allusive elusive has attracted such international attention In Wheelock's opinion it is because he has symbolized in his short stories the fundamental form of the human consciousness the functioning of the imaginative world creating mechanism and the eternal battle between form and chaos The Mythmaker is concerned with elucidating the particulars of Borges's fictional works but even as it does so it also reveals their universality Jorge Luis Borges Tim McNeese, 2013 He read and wrote with the greatest of passions And Jorge Luis Borges the greatest of Argentine writers created through a 60 year long career one of the significant and enduring literary legacies of any writer of the 20th century The reach of his poetry his stories and his essays was global

*Tranimacies* Eliza Steinbock, Marianna Szczygielska, Anthony Clair Wagner, 2021-05-24 *Tranimacies* is a neologism that pushes and pulls together transness and animality so as to better germinate unruly wily perverse relationships between them and their spawn Through *tranimacies* the book aims at rethinking the linking of liberation struggles amongst former colonized peoples and lands minoritized genders and sexualities racially marked persons and non human animals and does so in a variety of geopolitical and temporal sites This rich compendium includes original scholarship and dialogues as well as poetry comix bioart and performance documentation The composite term of *tranimacies* enmeshes several everyday and scholarly concepts transgender animal animacy intimacies This edited volume's bundle of theoretical and artistic works insists on the beating heart of embodied experiences and political pulses at the core of these concepts The authors show that *tranimacies* are spread throughout what Mel Y Chen describes as the animacy hierarchies that delimit zones of possibility and agency confounding the vertical order with transversal movements As an intervention into the burgeoning debates within and across trans animal critical race and posthuman studies this publication seeks to destabilize the logic of turns in critical

theory and through sticky intimacies uncover how animality race and gender underscore the humanist production of meanings By taking a decolonial approach in the main but not exclusively the authors hope to shift debates in animal studies towards accounting for and delinking from colonial mentalities Three poems interweave our selection of chapters which together forge three lines of inquiry defined by a certain ethos transhistories of the present lessons from the bestiary and animatingephemera The chapters in this book were originally published as a special issue of *Angelaki* **Signs of Borges** Sylvia Molloy,1994 Publisher description Borges s sustained practice of the uncanny gives rise in his texts to endless tensions between illusion and meaning and to the competing desires for fragmentation dispersal and stability Molloy traces the movement of Borges s own writing by repeatedly spanning the boundaries of genre and cutting across the conventional separations of narrative lyric and essay fact and fiction Rather than seeking to resolve the tensions and conflicts she preserves and develops them thereby maintaining the potential of these texts to disturb At the site of these tensions Molloy locates the play between meaning and meaningless that occurs in Borges s texts From this vantage point his strategies of deception recourse to simulacra inquisitorial urge to unsettle binarism and distrust of the permanent all that makes Borges Borges are examined with unmatched skill and acuity **Anthropology and Cryptozoology** Samantha Hurn,2016-11-03 Cryptozoology is best understood as the study of animals which in the eyes of Western science are extinct unclassified or unrecognised In consequence and in part because of its selective methods and lack of epistemological rigour cryptozoology is often dismissed as a pseudo science However there is a growing recognition that social science can benefit from engaging with it for as as social scientists are very well aware scientific categorisation and explanation represents just one of a myriad of systems used by humans to enable them to classify and make sense of the world around them In many cultural contexts myth folk classification and lived experience challenge the truth expounded by scientists With a reflexive anthropological approach and drawing on rich empirical and ethnographic studies from around the world this volume engages with the theoretical and methodological issues raised by reported sightings of unrecognised animals Bringing into sharp focus the anthropological value and challenges for methodology posed by beliefs about unclassified creatures Anthropology and Cryptozoology Exploring encounters with mysterious creatures will be of interest to anthropologists sociologists and geographers working in the fields of research methods anthrozoology mythology and folklore and human animal interaction

Routledge is an imprint of Taylor Francis an informa company **Decolonial Ecologies** Joanna Page,2023-06-14 In *Decolonial Ecologies* The Reinvention of Natural History in Latin American Art Joanna Page illuminates the ways in which contemporary artists in Latin America are reinventing historical methods of collecting organizing and displaying nature in order to develop new aesthetic and political perspectives on the past and the present Page brings together an entirely new

corpus of artistic projects from Argentina Brazil Chile Colombia Ecuador Mexico and Peru that engage critically and creatively with forms as diverse as the medieval bestiary baroque cabinets of curiosities atlases created by European travellers to the New World the florae and herbaria composed by eighteenth and nineteenth century naturalists and the dioramas designed for natural history museums She explores how artists develop decolonial and post anthropocentric perspectives on the collections and expeditions that were central to the evolution of European natural history Their works forge a critique of the rationalizing approach to nature taken by modern Western science reconnecting it with forms of popular indigenous and spiritual knowledge and experience that it has systematically excluded since the Enlightenment Drawing on photography video illustration sculpture and installation this vividly illustrated and lucidly written book also available in premium quality in hardback edition explores how these artworks might also deconstruct the apocalyptic visions of environmental change that often dominate Western thought developing a renewed understanding of alternative ways in which humans might co inhabit the natural world

**Marco Paolini** Cristina Perissinotto,2023-03-27 Marco Paolini A Deep Map breaks new ground in the field of Italian political theatre by outlining the unique approach of one of Italy's most celebrated playwrights Marco Paolini whose work has hitherto remained mostly inaccessible to English speaking audiences This book is the first substantial study of Paolini's corpus in English Additionally it offers an in depth analysis of Paolini's unique methods by focusing on the recovery of collective cultural memory through theatre and in depth historical and political context Author Cristina Perissinotto engages critically with art and politics in Italy specifically but also considers implications and relevance on a global scale Perissinotto's multidisciplinary approach simultaneously draws upon memory studies history and poetry She demonstrates how Paolini's plays use techniques already in use to ancient Greek theatre which called for the engagement of actors in political commentary from the stage connecting them directly with the public on social and ethical issues

Primo Levi's Narratives of Embodiment Charlotte Ross,2010-09-13 This innovative reading of Primo Levi's work offers the first sustained analysis in English of his representations of bodies and embodiment Discussion spans the range of Levi's works from testimony to journalism from essays to science fiction stories identifying and tracing multiple narratives of embodiment and disembodiment across his oeuvre These narratives range from the abject disembodied condition of prisoners in Auschwitz to posthuman or cyborg individuals whose bodies merge with technological devices Levi's representations of bodies are explored in relation to theories of embodiment and posthumanism bringing his work into new dialogue with critical discourses on these issues Taking inspiration from Levi's definition of the human being as a constructor of containers as well as from the recurring references to both material and metaphorical containing structures in his work the book suggests that for Levi embodiment involves constant negotiations of containment He depicts the complex relationships between physical and social bodies the material and the immaterial self the conscious and unconscious subject the organic and the technologically enhanced body engaging with evolving understandings of the boundaries of the body the

self and the human      **The Human-Animal Boundary** Nandita Batra, Mario Wenning, 2018-11-27 Throughout the centuries philosophers and poets alike have defended an essential difference rather than a porous transition between the human and animal Attempts to assign essential properties to humans e g language reason or morality often reflected ulterior aims to defend a privileged position for humans This book shifts the traditional anthropocentric focus of philosophy and literature by combining the questions What is human and What is animal What makes this collection unique is that it fills a lacuna in critical animal studies and the growing field of ecocriticism It is the first collection that establishes a productive encounter between philosophical perspectives on the human animal boundary and those that draw on fictional literature The objective is to establish a dialogue between those disciplines with the goal of expanding the imaginative scope of human animal relationships The contributions thus do not only trace and deconstruct the boundaries dividing humans and nonhuman animals they also present the reader with alternative perspectives on the porous continuum and surprising reversal of what appears as human and what as nonhuman      Borges' Classics Laura Jansen, 2018-06-14 In *Borges Classics* Laura Jansen reads the oeuvre of the Argentine author Jorge Luis Borges as a radically globalized model for reimagining our relationship with the classical past This major study reveals how Borges constructs a new physics of reading the classics which privileges a paradoxical vision of the canon as universal yet centreless and eschews fixed ideas about the cultural history of the West Borges unique approach transforms classical antiquity into a simultaneously familiar and remote world whose legacy is both urgent and unstable In the process Borges repositions the classical tradition at the intersection of the traditional Western canon and modernist literature of the peripheral West Jansen s study traces Borges encounters with the classics through appeal to themes central to Borges thought such as history and fiction memory and forgetfulness the data of the senses and the vectors that connect cultures and countries      *Dragon* Martin Arnold, 2018-06-15 From the fire breathing beasts of North European myth and legend to the Book of Revelation s Great Red Dragon of Hell from those supernatural agencies of imperial authority in ancient China to the so called dragon women who threaten male authority dragons are a global phenomenon one that has troubled humanity for thousands of years These often scaly beasts take a wide variety of forms and meanings but there is one thing they all have in common our fear of their formidable power and as a consequence our need either to overcome appease or in some way assume that power as our own In this fiery cultural history Martin Arnold asks how these unifying impulses can be explained Are they owed to our need to impose order on chaos in the form of a dragon slaying hero Is it our terror of nature writ large unleashed in its most destructive form Or is the dragon nothing less than an expression of that greatest and most disturbing mystery of all our mortality Tracing the history of ideas about dragons from the earliest of times to *Game of Thrones* Arnold explores exactly what it might be that calls forth such creatures from the darkest corners of our collective imagination      **Medieval Bestiaries** , 2025-08-28 What could the phoenix elephant and spider teach medieval people and what can they teach us now about human animal relationships *Medieval Bestiaries* New

Approaches offers innovative insights on questions previously unasked about a most popular type of illuminated manuscript whose animal pictures and stories continue to entertain and inspire. Bringing together an impressive range of multi-disciplinary expertise, the authors provide fresh perspectives on previously unpublished or under explored bestiary texts, images, methods of production, cross literary influences, and moralized messaging. Most significantly, they move bestiaries out of their specialized scholarly corner into the wider world of animal thinking across Christian, Jewish, and Islamic cultures and stake a claim for animals as a central meeting ground for medieval and modern sensibilities. Contributors are Emma Campbell, Marc M. Epstein, Erica Fudge, Larisa Grollemond, Rebecca Hill, Elizabeth Morrison, Julie Orlemanski, Alexandra Paddock, and Debra Higgs Strickland.
