A spirited, insightful exploration of our favorite machine and its cultural impact on society over the past one hundred and fifty years. More than any other technology, cars have transformed American popular culture. Cars have created vast wealth as well as novel dreams of freedom and mobility. They have transformed our sense of distance and made the world infinitely more available to our eyes and our imaginations. They have inspired cinema, music and literature. They have, by their need for roads, bridges, filling stations, huge factories and global supply chains, re-engineered the world. Almost everything we now need, want, imagine or aspire to, assumes the existence of cars in all their limitless power and their complex systems of meanings. This book celebrates the immense drama and beauty of the car, of the genius embodied in the Ford Model T, of the glory of the brilliant red Mercedes-Benz S-Class made by workers for Nelson Mandela on his release from prison, of Kanye West's chopped Maybach, of the salvation of the Volkswagen Beetle by Major Ivan Hirst, of Elvis Presley's 100 Cadillacs, of the Rolls-Royce Silver Ghost and the BMC Mini, and even of that harbinger of the end, the Tesla Model S and its creator, Elon Musk. As the age of the car as we know it comes to an end, Bryan Appleyard's brilliantly insightful book tells the story of the rise and fall of the incredible machine that made the modern world what it is today. *The Wild Year* Jen Benson, 2022-04-19.
