Operation Ro-Go 1943 Michael John Claringbould,2023-11-23 A compelling account of the failure of Imperial Japan s Operation Ro Go intended to take the offensive in the Solomons theater of the Pacific War but which became Japan s first line of defense against the Allies Rabaul raids and Bougainville landings By the midpoint of World War II in the Pacific Japan was on the defensive At the end of 1943 after a year of tumultuous air combat around Rabaul and the Solomons 173 Japanese aircraft were sent to Rabaul The plan was for them to participate in Ro Go Sakusen known as Operation Ro Ro Go or B to strike Allied air power and shipping in the Solomons and to slow the American advance by severing Allied supply chains However instead of challenging Allied air and sea power on their own terms the operation became unexpectedly embroiled in defensive combat and counterattacks first to defend Rabaul from Allied air raids and then to challenge the Allied landings at Bougainville In one fell swoop Operation Ro Go was turned on its head and transformed into a defensive battle for the Japanese In this book the first in English to focus on Operation Ro Go Michael John Claringbould uses rare Japanese primary source material to explain how the Japanese planned and fought the campaign and corrects enduring myths often found in books that rely only on Western sources He traces the unexpected and tremendous pressures placed on the operation s units at Rabaul as the Japanese dealt with massive surprise raids from Fifth Air Force bombers and later US Navy carrier aircraft concluding with the strategic

upset of the Bougainville landings Packed with previously unpublished photos spectacular original illustrations 3D recreations of specific missions maps and explanatory diagrams this study tells the previously untold but significant story of Japan's air war in the Solomons Wake Island 1941 Jim Moran,2011-09-20 An illustrated examination of the daring last stand by a collection of marines sailors and other service personnel on Wake Island in World War II one of the legendary stories of American military history On the same day that the Japanese attacked Pearl Harbor they also launched air attacks on Wake Island an American marine and naval base in the Pacific Three days later a Japanese invasion force stormed the island but were bloodily repulsed by the scratch force of marines sailors and even service personnel who defended it Despite US attempts to relieve the island the Japanese launched a much greater invasion a few weeks later and despite gallant resistance eventually caused the US Forces to surrender This book tells the complete story of the vicious fighting on Wake Island featuring full color maps and archive photography *PC Mag* ,1989-02-14 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology *Darwin 1942* Bob Alford,2017-02-23 Following the devastating raids on Pearl Harbor on 7 December 1941 lightning advances by Japanese forces throughout the Pacific and the Far East and a desperate battle by the Allied command in the Dutch East Indies it became evident that an attack on Australia was more a matter of when and not if On 19 February just eleven weeks after the attacks on Pearl Harbor and two weeks after the fall of Singapore the same Japanese battle group that had attacked Hawaii was ordered to attack the ill prepared and under defended Australian port of Darwin Publishing 75 years after this little known yet devastating attack this fully illustrated study details what happened on that dramatic day in 1942 with the help of contemporary photographs maps and profiles of the commanders and machines involved in the assault **Operation KE** Dennis R Letourneau,J. A. R Letourneau,2012-11-15 Operation KE explores the air combat that attended the Japanese evacuation of Guadalcanal in early 1943 a topic which has hitherto received very little attention Operation KE was successful largely because Japanese strategic planning and tactical execution was basically sound The traditional view holds that the Japanese got away with the initiative largely because the Americans let them the US Pacific high command felt it was not worth the effort to try and stop them Letourneau contends that this was not entirely the case He argues that the Cactus Air Force and Guadalcanal based naval units did their best to disrupt the evacuation still believing that the Tokyo Express was bringing reinforcements and supplies to the 17th Army Other US forces in the South Pacific did make a half hearted and questionably executed attempt to stop the Japanese but were bluffed into adopting a wait and see posture Operation KE focuses on the air war fought between the Cactus and US 13th Air Forces on the one hand and the Japanese Navy and Army Air Forces on the other from mid December 1942 to mid February 1943 The book scrutinizes the US air strikes against the six KE related Tokyo Express destroyer runs plus related air strikes against the Japanese merchant marine as well as air and

naval base suppression missions undertaken by both sides to determine what actually happened in order to analyze why the Japanese evacuation succeeded and why Cactus failed to stop it Background chapters attempt to assess the respective states of readiness of the Japanese and US air arms in the South Pacific to support on the one hand and counter on the other the execution of Operation KE The central portion of the book narrates in some detail what actually occurred in the air and at sea including air strikes fighter sweeps base suppression missions and naval sorties during the crucial prelude to and the actual playing out of the interrelated events that comprised the evacuation operation Concluding chapters analyze on both strategic and tactical levels the Japanese planning and execution of Operation KE and Cactus initiatives to interdict KE s successful prosecution The authors conclude that both the Japanese and the American states of readiness on the eve of Operation KE suffered in such matters as optimizing both resources and operating procedures and combating a hostile environment Consequently both combatants were somewhat handicapped in their abilities respectively to carry out and contest Operation KE The author contends that the Japanese developed a reasonably sound strategy that exploited those methods and tools of war then in use in the South Pacific to achieve success they maximized their own strengths while taking advantage of their adversary s limitations Contrary to the traditional view the authors are of the opinion that Japanese utilization of their newly built airstrip at Munda in the Central Solomons played an important role in the success of Operation KE which was in keeping with the long range intention of developing Munda and Vila airstrips as major forward airbases to defend against any Allied push toward Rabaul through the Solomons The U S on the other hand by consistently misreading Japanese intent regarding Operation KE and pursuing a cautious offensive strategy blunted the tactical impact of their initiatives to counter the evacuation Several imprudent tactical decisions and a misallocation of resources further diluted the strength of US efforts

Polikarpov I-15, I-16 and I-153 Aces Mikhail Maslov, 2013-02-20 From the heat of Spain to the frozen wastelands of Finland this book reveals the combat stories of the pilots who flew the Polikarpov fighters from 1936 until the end of World War II The I 15 I 16 and I 153 fighters were the world s first mass produced fighters Some 17 000 Polikarpovs had been manufactured by the time production ceased in 1941 They served with the Republicans in the Spain the Chinese against Japan in 1937 38 and the Soviets against both Japan in the Nomonhan Incident and Finland during the Winter War By 1941 more than 20 Soviet pilots had made ace in Polikarpovs and many more attained that status during the first months of the German invasion Though thoroughly outclassed this book shows how the Polikarpov was the backbone of the Soviet air force during the early months of the war in the east and continued to serve as training aircraft and as frontline fighters some right through to 1945

Handbook of Antioxidant Methodology Paul D Prenzler,Danielle Ryan,Kevin Robards,2021-10-12 The field of antioxidant research has grown rapidly over the last 30 years and shows no sign of slowing down In order to understand how antioxidants work it is essential to understand how their activity is measured However antioxidant activity measurements are controversial and their value has been challenged This book addresses a number of the controversies on antioxidant testing methods Specifically the book highlights the importance of context helping the reader to decide what methods are most appropriate for different situations how the results can be interpreted and what information may be inferred from the data There are a multiplicity of methods for measuring activity with no standardized method approved for in vitro or in vivo testing In order to select an appropriate method a thorough knowledge of the processes associated with reduction oxidation is essential leading to an improved understanding and use of activity measurements and the associated data The book presents background information in a unique style which is designed to assist readers to grasp the fundamentals of redox processes as well as thermodynamics and kinetics which are essential to later chapters Recovery and extraction of antioxidants from diverse matrices are presented in a clear and logical fashion along with methods used to determine antioxidant activity from a mechanistic perspective Other chapters present current methodologies used for activity testing in different sample types ranging from foods and plants to body fluids and even to packaging but always with a strong emphasis on the nature of the sample and the underlying chemistry of the method A number of emerging techniques for assessing antioxidant behaviour namely electrochemical methods chip technology exploiting microfluidic devices metabolomics plus studies of gene and protein expression are examined Ultimately these techniques will be involved in generation of big data for which an understanding of chemometrics will be essential in drawing valid conclusions The book is written to appeal to a wide audience but will be particularly helpful for any researchers who are attempting to make sense of the vast literature and often conflicting messages on antioxidant activity

Sustainable development is now accepted as a necessary goal for achieving societal economic and environmental objectives Within this chemistry has a vital role to play The chemical industry is successful but traditionally success has come at a heavy cost to the environment The challenge for chemists and others is to develop new products processes and services that achieve societal economic and environmental benefits This requires an approach that reduces the materials and energy intensity of chemical processes and products minimises the dispersion of harmful chemicals in the environment maximises the use of renewable resources and extends the durability and recyclability of products in a way that increases industrial competitiveness as well as improve its tarnished image Mission to Tokyo Robert F. Dorr,2012-09-15 From Hell Hawks author Bob Dorr Mission to Tokyo takes the reader on a World War II strategic bombing mission from an airfield on the western Pacific island of Tinian to Tokyo and back Told in the veterans words Mission to Tokyo is a narrative of every aspect of long range bombing including pilots and other aircrew groundcrew and escort fighters that accompanied the heavy bombers on their perilous mission Several thousand men on the small Mariana Islands of Guam Saipan and Tinian were trying to take the war to the Empire Imperial Japan in B 29 Superfortresses flying at 28 000 feet but the high altitude bombing wasn't very accurate The decision was made to take the planes down to around 8 000 feet even as low as 5 000 feet Eliminating the long climb up would save fuel and allow the aircraft to take heavier bomb loads The lower altitude would also increase accuracy substantially The trade off was the increased danger of anti aircraft fire This was deemed worth the risk and the devastation brought to the industry and population of the capital city was catastrophic Unfortunately for all involved the bombing did not bring on the quick surrender some had hoped for That would take six more months of bombing culminating in the atomic bombs dropped on Hiroshima and Nagasaki As with Mission to Berlin Spring 2011 Mission to Tokyo focuses on a specific mission from spring 1945 and provides a history of the strategic air war against Japan in alternating chapters **Use of Services for Family Planning and Infertility, United States, 1982** Gerry E.

Hendershot,Marjorie C. Horn,William D. Mosher,1988 The 1982 statistics on the use of family planning and infertility services presented in this report are preliminary results from Cycle III of the National Survey of Family Growth NSFG conducted by the National Center for Health Statistics Data were collected through personal interviews with a multistage area probability sample of 7969 women aged 15 44 A detailed series of questions was asked to obtain relatively complete estimates of the extent and type of family planning services received Statistics on family planning services are limited to women who were able to conceive 3 years before the interview date Overall 79% of currently married nonsterile women

reported using some type of family planning service during the previous 3 years There were no statistically significant differences between white 79% black 75% or Hispanic 77% wives or between the 2 income groups The 1982 survey questions were more comprehensive than those of earlier cycles of the survey The annual rate of visits for family planning services in 1982 was 1077 visits 1000 women Teenagers had the highest annual visit rate 1581 1000 of any age group for all sources of family planning services combined Visit rates declined sharply with age from 1447 at ages 15 24 to 479 at ages 35 44 Similar declines with age also were found in the visit rates for white and black women separately Nevertheless the annual visit rate for black women 1334 1000 was significantly higher than that for white women 1033 The highest overall visit rate was for black women 15 19 years of age 1867 1000 Nearly 2 3 of all family planning visits were to private medical sources Teenagers of all races had higher family planning service visit rates to clinics than to private medical sources as did black women age 15 24 White women age 20 and older had higher visit rates to private medical services than to clinics Never married women had higher visit rates to clinics than currently or formerly married women Data were also collected in 1982 on use of medical services for infertility by women who had difficulty in conceiving or carrying a pregnancy to term About 1 million ever married women had 1 or more infertility visits in the 12 months before the interview During the 3 years before interview about 1 9 million women had infertility visits For all ever married women as well as for white and black women separately infertility services were more likely to be secured from private medical sources than from clinics The survey design reliability of the estimates and the terms used are explained in the technical notes

Popular Photography , 1996-01 *Aces of the Republic of China Air Force* Raymond Cheung, 2015-05-20 The ace pilots of the Republic of China Air Force have long been shrouded in mystery and obscurity as their retreat to Taiwan in 1949 and blanket martial law made records of the RoCAF all but impossible to access Now for the first time the colourful story of these

aces can finally be told Using the latest research based on released archival information and full colour illustrations this book charts the history of the top scoring pilots of the RoCAF from the beginning of the gruelling eight year Sino Japanese War to the conclusion of the Civil War against the Chinese Communists Beginning as a ragged and very disparate group of planes and pilots drawn from various provincial air forces the RoCAF gradually became standardised and was brought under American tutelage Altogether it produced 17 aces who scored kills whilst flying a startling variety of aircraft from biplanes to F 86 Sabres The Early Air War in the Pacific Ralph F. Wetterhahn, 2019-11-22 During the first 10 months of the war in the Pacific Japan achieved air supremacy with its carrier and land based forces But after major setbacks at Midway and Guadalcanal the empire s expansion stalled in part due to flaws in aircraft design strategy and command This book offers a fresh analysis of the air war in the Pacific during the early phases of World War II Details are included from two expeditions conducted by the author that reveal the location of an American pilot missing in the Philippines since 1942 and clear up a controversial account involving famed Japanese ace Saburo Sakai and U S Navy pilot James Pug Southerland *Whitaker's Books in Print* ,1998 **InfoWorld** ,1994-11-28 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects
