It is highly recommended to readers whose work involves practical issues concerning vacant housing and who are interested in theoretical aspects of property law, building law, and administrative law. Japanese Popular Culture and Contents Tourism Philip Seaton, Takayoshi Yamamura, 2018-02-02. Contents tourism is tourism induced by the contents narratives, characters, locations, and other creative elements of films, novels, games, manga, anime, television dramas, and other forms of popular culture. Amidst the boom in global interest in Japanese popular culture, the utilization of popular culture to induce tourism domestically and internationally has been central to the Cool Japan strategy, and since 2005, government policy for local community revitalization. This book presents four main case studies of contents tourism: the phenomenon of anime pilgrimage to sites appearing in animated film; the travel behaviours and pop spiritualism of female history fans; to heritage sites; the

collaboration between local community fans and copyright holders that underpinned an anime induced tourism boom in a small town north of Tokyo and the large scale economic impacts of tourism induced by NHK's annual samurai period drama Taiga Drama. It is the first major collection of articles published in English about media induced tourism in Japan using the contents tourism approach. This book will be of particular interest to students and researchers of media and tourism studies in Asia. This book was previously published as a special issue of Japan Forum.
