**Emotion Regulation and Psychopathology in Children and Adolescents** Cecilia A. Essau, Sara S. LeBlanc, Thomas

H. Ollendick, 2017-07-04 Emotions are a cardinal component of everyday life affecting one's ability to function in an adaptive manner and influencing both intrapersonal and interpersonal processes such as self-esteem and relationship satisfaction. However, when emotions are overpowering, they can become debilitating and intrusive in daily life. In general, emotion regulation competencies become differentiated as a function of development. Children tend to seek support from adults or use behavioral techniques to regulate their emotions. As children reach adolescence, they become increasingly self-reliant, engaging in playful problem solving and utilizing cognitive strategies, for example, reappraisal, more frequently when faced with stressful life events. While the majority of children and adolescents will successfully navigate these developmental stages by cultivating adaptive coping skills, for some, this marks the beginning of lifelong challenges with emotion regulation and resultant dysregulation. This book provides a guide to dealing with these problems with contributions from leading experts in the field. Divided into 4 sections, it starts by providing an introduction to the field of emotion regulation in adolescents, touching upon the cultural, social, biological, and developmental issues related to this topic. Section two discusses several psychological disorders impacting adolescents, such as anxiety, depression, and conduct problems, while also discussing the underlying role emotion regulation plays in the development, maintenance, and propagation of these disorders. In addition, this section considers the implication for treatment by discussing the latest evidence-based intervention approaches. The third section focuses on the role of emotion regulation in specific behaviour populations, such as children of abuse and neglect, as well as adolescents who engage in nonsuicidal self-injury. The final section includes an epilogue discussing emergent areas of research, answering questions of a theoretical, psychological, and empirical nature. For all those working in the field of mental health, whether novice or experienced, the book provides a valuable guide to understanding and treating these increasingly common problems.

*Counselling Survivors of Childhood Sexual Abuse* Claire Burke Draucker, Donna Martsof, 2006-05-18  
Praise for the Second Edition: This is a user-friendly, readable, practical guide to assist survivors of childhood sexual abuse that will be particularly useful to students and practitioners who are new to this field. *Journal of Child and Adolescent Mental Health*. This is a book that should give those who find themselves working with sexual abuse survivors some tools and skills for the job. *Young Minds Magazine*. This book will be found valuable by all therapists and counsellors, not just those who have a special interest in childhood sexual abuse. Many will want to follow up the well-selected references the author gives. The detailed index will also help one to browse and read selectively. *Sexual and Relationship Therapy*. The experience of childhood sexual abuse is a trauma which continues to have an impact on survivors throughout their lives. The pervasive and long-term effects that stem from sexual abuse make it vital that counsellors become adept at addressing the unique and complex needs of survivors. In this Third Edition of *Counselling Survivors of Childhood Sexual Abuse*, Claire Burke Draucker and Donna S Martsof identify the significant healing processes which are essential to achieve recovery. These include disclosing the abuse, reinterpreting it from an adult perspective, addressing issues related to the context of the abuse, and making desired life

changes Each of these processes is discussed in conjunction with the most effective counselling interventions to facilitate resolution Carefully chosen case examples demonstrate the appropriate use of interventions in practice The Third Edition includes a wealth of new material covering memory retrieval outcome research multicultural counselling emerging therapeutic approaches and neuroscience and counseling Dynamics and difficulties in the therapeutic relationship are also discussed in great depth
