Histoires De Masques:

Asymptote Robert Ziegler, 2009 *Asymptote* An Approach to Decadent Fiction offers a radically new approach to the psychology of Decadent creation Rejecting traditional arguments that Decadence is a celebration of deviance and exhaustion this study presents the fin de siècle novel as a transformative process a quest for health By allowing the writer to project into fiction unwanted traits and destructive tendencies by permitting the playful invention of provisional identities Decadent creation itself becomes a dynamic act of creative regeneration In describing the interrelationship of Decadent authors and their fictions *Asymptote* uses the mathematical figure of the asymptote to show how they converge then split apart and grow distant The author's approach to the facsimile selves he plays with and discards is the curve that never merges with his authorial identity In successive chapters this study describes the Decadents experimentation with perversion Huysmans's *A rebours* and Mendes's *Zola* and their subsequent validation of social regulation and creative discipline It examines magic and its appeal to fantasies of elitism and omnipotence Péguy's *Le Vice suprême* and Villiers's *Axël* then shows authors embracing the values of community and service It considers the Decadent text as a vehicle of change in which an artist ventilates fantasies of aggression and revenge Mirbeau's *Le Journal d'une femme de chambre* and Rachilde's *La Marquise de Sade* then employs writing as the means by which these feelings are discharged It examines creation as a form of play une aliénation grâce à laquelle l'esprit se recrée sous la forme des autres Schwob's *Vies imaginaires* and Lorrain's *Histoires de masques* yet notes the Decadents decision to return to a single generative center Finally it examines creation as an expression of artistic transience and failure yet shows the Decadents success in commemorating the very forces of disintegration Rodenbach's *L'Art en exil* In considering the Decadents insistence on subjectivism and aloneness this study concludes Gourmont's *Sixtine* by showing their wish to escape the prison of identity and to redefine their art as cooperative creation

Histoires de masques Jean Lorrain, 1912 **Histoires de masques ; suivi de Contes d'un buveur d'éther ; et de textes inédits** Jean Lorrain, 1987 Paris Concealed James H. Johnson, 2025-01-22 A comprehensive history of masks in France from the seventeenth to the nineteenth century Masks can conceal disguise or protect They can guard status inspire delight or spread fear They can also betray trust through insincerity deceit and hypocrisy In *Paris Concealed* historian James H. Johnson offers a sweeping history of masks both visible and unseen from the time of Louis XIV to the late nineteenth century exploring the complex roles that masking and unmasking have played in the fashioning of our social selves Drawing from memoirs novels plays and paintings *Paris Concealed* explores the many domains in which masks have been decisive Beginning in the court of Versailles Johnson charts the genesis of courtly politesse and its widespread condemnation by Enlightenment philosophers and political thinkers He describes strategies deployed in the era of the French Revolution for unmasking traitors and later efforts to penetrate criminal disguises through telltale marks on the body He portrays the disruptive power of masks in public balls and carnivals and with the coming of modernity evokes their unsettling presence

within the unconscious Compellingly written and beautifully illustrated Paris Concealed lays bare the mask's transformations from marking one's position in a static society to inspiring imagined identities in meritocracies to impeding the elusive search for one's true self To tell the history of masks Johnson shows is to tell the history of modern selfhood *The Studio*, 1901 *Plato and Socrates (RLE: Plato)* Richard McKirahan, 2012-11-12 This valuable work of reference provides a comprehensive bibliography on all scholarly work that was published on Plato and Socrates during the years 1958-73 It thus forms an important addition to Harold Cherniss's bibliography which covered the years 1950-7 The author has sought to include all materials primarily concerned with Socrates and Plato together with other works which make a contribution to our understanding of the two philosophers The bibliography is arranged by topic and there are cross references at the end of each section The works in each category are arranged chronologically and then alphabetically by author within each year An effort has been made to distinguish when a book has had more than one edition and when an article has been reprinted Additionally the author has listed reviews of books and dissertations as these have come to his attention

French Decadent Tales Stephen Romer, 2013-05-09 He had become the dandy of the unpredictable A quest for new sensations and an avowed desire to shock possessed the Decadent writers of fin de siècle Paris The years 1880-1900 saw an extraordinary hothouse flowering of talent that produced some of the most exotic stylized and cerebral literature in the French language While Decadence was a European movement its epicentre was the French capital On the eve of Freud's early discoveries writers such as Gourmont, Lorrain, Maupassant, Mirbeau, Richepin, Schwob and Villiers engaged in a species of wild analysis of their own perfecting the art of short fiction as they did so Death and Eros haunt these pages and a polymorphous perversity by turns hilarious and horrifying Their stories teem with addicts, maniacs and murderers as they strive to outdo each other This newly translated selection brings together the very best writing of the period from lesser known figures as well as famous names Provocative and unsettling these extraordinary corrosive little tales continue to cast a cold eye on the modern world ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more *Catalog of Copyright Entries* Library of Congress. Decadence in French Literature, 1830-1900 A.E. Carter, 1978-12-15 The cult of decadence is usually dismissed as an eccentricity of French literature a final twitter of Romantic neurosis convulsing the lunatic fringe of letters during the last third of the nineteenth century However the nineteenth century's preoccupation with decadence provides us with a key to

the secret places of its thought to all the obscure passages and backstairs behind the triumphant facade Between 1814 and 1914 there was no sense of disaster no tragic sense Civilization had become a habit a side product of political constitutions and applied science History was viewed pragmatically of what use were such traditional symbols as throne and altar Both are essentially propitiatory evidence of man's uneasy knowledge that power is dangerous and destiny implacable And both seemed anachronisms in a world where it was thought human reason had solved or would solve all the old problems The theory of decadence is very largely a protest against this comfortable belief Had the decadents not written we should hardly suspect that the nineteenth century suffered from the same doubts and hesitations as all other ages before and since

The Urban Fantastic in Nineteenth-Century European Literature Patricia García, 2022-01-17 The Urban Fantastic in Nineteenth Century European Literature explores transnational perspectives of modern city life in Europe by engaging with the fantastic tropes and metaphors used by writers of short fiction Focusing on the literary city and literary representations of urban experience throughout the nineteenth century the works discussed incorporate supernatural occurrences in a European city and the supernatural of these stories stems from and belongs to the city The argument is structured around three primary themes Architectures Encounters and Rhythms make reference to three axes of city life material space human encounters and movement This thematic approach highlights cultural continuities and thus supports the use of the label of urban fantastic within and across the European traditions studied here
