Hit Makers Derek Thompson,2018-02-06 Enthralling full of aha moments about why some ideas soar and others never get off the ground This book picks up where The Tipping Point left off Adam Grant Nothing goes viral If you think a popular movie song or app came out of nowhere to become a word of mouth success in today s crowded media

environment you're missing the real story. Each blockbuster has a secret history of power, influence, dark broadcasters, and passionate cults that turn some new products into cultural phenomena. Even the most brilliant ideas wither in obscurity if they fail to connect with the right network and the consumers that matter most aren't the early adopters but rather their friends, followers, and imitators: the audience of your audience. In his groundbreaking investigation, Atlantic senior editor Derek Thompson uncovers the hidden psychology of why we like what we like and reveals the economics of cultural markets that invisibly shape our lives. Shattering the sentimental myths of hit making that dominate pop culture and business, Thompson shows quality is insufficient for success: nobody has good taste, and some of the most popular products in history were one bad break away from utter failure. It may be a new world, but there are some enduring truths to what audiences and consumers want. People love a familiar surprise: a product that is bold yet sneakily recognizable. Every business, every artist, every person looking to promote themselves and their work wants to know what makes some works so successful while others disappear. *Hit Makers* is a magical mystery tour through the last century of pop culture blockbusters and the most valuable currency of the twenty-first century: people's attention. From the dawn of impressionist art to the future of Facebook, from small Etsy designers to the origin of Star Wars, Derek Thompson leaves no pet rock unturned to tell the fascinating story of how culture happens and why things become popular. In *Hit Makers*, Derek Thompson investigates what Taylor Swift, the printing press, and the laugh track have in common. The secret link between ESPN's sticky programming and the Weeknd's catchy choruses. How advertising critics predicted Donald Trump. The 5th grader who accidentally launched *Rock Around the Clock*, the biggest hit in rock and roll history. How Barack Obama and his speechwriters think of themselves as songwriters. How Disney conquered the world, but the future of hits belongs to savvy amateurs and individuals. The French collector who accidentally created the Impressionist canon. Quantitative evidence that the biggest music hits aren't always the best. Why almost all Hollywood blockbusters are sequels, reboots, and adaptations. Why one year, 1991, is responsible for the way pop music sounds today. Why another year, 1932, created the business model of film. How data scientists proved that going viral is a myth. How 19th-century immigration patterns explain the most heard song in the Western Hemisphere.

Hit & Myth William Motley, Cohen and Cohen, 2014 *Ghosts - Journeys To Post-Pop* Matthew Restall, 2025-03-07

Three music-obsessed suburban London teenagers set out to make their own kind of pop music after years of struggle. Success came to David Sylvian and Japan, and to Mark Hollis and Talk Talk. Kate Bush became an overnight star. But when their unique talents brought them international acclaim, they turned their backs on stardom. Just when I think I'm winning, sang Sylvian on *Ghosts*, a 1982 Japan hit when my chance came to be king, the ghosts of my life grew wilder than the wind. Haunted by doubt, spooked by fame, and shocked by the industry's sexism and rapacity, Sylvian, Hollis, and Bush were driven to brave new destinations. Inspired by artists from every genre and by their own creative originality and inner psychological struggles, they forged something new, changing how we hear pop music and the role of its creators in modern society. Focusing mostly on Sylvian

with Hollis and Bush also explored Ghosts uses their journeys to define post pop for the first time Revealing both personal ghosts and a larger cultural history the post pop story is about music and fame ambition and fear happiness and melancholy The journey as one from noise to silence is ultimately about life itself Matthew Restall is a historian of Latin America and popular music London born and raised in England Spain Venezuela and Japan he currently holds the Sparks Professorship in History and Anthropology at the Pennsylvania State University USA Having written some thirty books on Latin American history his first book on pop music was Blue Moves in the 33 1 3 series and he is now writing On Elton for Oxford s Opinionated Guides series He dreams of retiring to write on nothing but pop until he drops matthewrestall.com
