

HITLER'S SECOND BOOK

GERMAN FOREIGN POLICY

Translated, Introduced and Annotated by

ARTHUR KEMP

Hitler S Second German Foreign Policy

Adolf Hitler, Arthur Kemp

Hitler's Second German Foreign Policy:

Hitler's Second Book Adolf Hitler, Arthur Kemp, 2014-06-25 Often called Hitler's Secret Book this is the only full length completely unedited and correctly translated text of Hitler's second book written to explain National Socialist foreign policy Dictated in 1928 to Max Annan head of the NSDAP's publishing house the unedited and draft manuscript provisionally titled *Deutsche Aussenpolitik* but later more commonly known as Hitler's Second Book was never published in Hitler's lifetime Originally written as a propaganda recruitment tool designed to generate support for the NSDAP at the time of what he saw as an artificial crisis in German nationalist circles over the Italian occupation of South Tyrol Hitler's second book is of necessity dated with regard to some time specific events Nonetheless it contains much more than just a discussion of the South Tyrol issue Within these pages the reader will find the philosophical principles which underwrote National Socialist domestic and foreign policy and a large number of astonishingly accurate and prescient foresights into many pressing international issues which still occupy the world stage in the twenty first century Read Hitler's predictions on The economic social and racial problems posed by European unification American immigration policy and its racial meaning The need to temper foreign policy with realism The threat posed by modern air warfare The possibility that the Jewish Communists would lose power in the Soviet Union The racial values which underpinned the British Empire The negative influence of birth control upon European population growth The eugenic danger of war in general The threat which outsourcing to the Far East poses to Western economies and The role of International Jewry in influencing world affairs and inciting conflict amongst many other topics The philosophical principles which Hitler endorsed that victory goes to the strong and the brave and that the meek shall inherit nothing were equally applicable to both domestic and foreign policy two areas which he saw as irretrievably interlinked In general freedom is preserved neither by begging nor by cheating And also not by work and industry but exclusively by struggle and indeed by one's own struggle This accumulated hatred was discharged in the typically bourgeois national fulmination and battle cry God punish England Since God is just as much on the side of the stronger and the more determined as well as preferably on the side of those who are cleverer He manifestly refused to inflict this punishment For this earth is not allotted to anyone nor is it presented to anyone as a gift It is awarded by Providence to people who in their hearts have the courage to take possession of conquering it the strength to preserve it and the industry to put it to the plough This edition contains the full text translated from the German original and includes the article How America entered the War to which Hitler referred and intended to add to the manuscript as an appendix Also contains a full index

Hitler's Second Book Adolf Hitler, 2006-10-01 Provides a valuable insight into the development of ideas that were to shape Hitler's foreign policy after 1933 Jeremy Noakes *The Times Literary Supplement* The text bears all of Hitler's hallmarks along with a terrifying sustained belief in war and violence as a means to ensure that Germany would flourish Publishers Weekly He envisaged the German people becoming involved in a series of wars for Lebensraum culminating in an

epic battle against America Michael Smith Daily Telegraph The Second Book is in many ways more important than Mein Kampf Guardian I have never known anyone to say this is a forged document Volker Berghahn The New York Times Hitler admires the young racially select American people and the nation's restrictive immigration policies at the time The New York Times Far more than Mein Kampf the Second Book establishes the grandiose scale of Hitler's ambitions Dennis Showalter Colorado College More clearly than ever Hitler sketched out the worldwide struggle against the Jews which he and his party had to lead Richard Overly Guardian Hitler's Second Book is the first complete and annotated edition of the manuscript Hitler dictated shortly before his rise to power four years after publishing Mein Kampf It contains a catalog of shocking policy statements and previously undisclosed plans of world conquest at the core of Nazi ideology that Hitler concluded were too provocative for publication

Hitler's Second Book Adolf Hitler, 2016-10-28 Also called Hitler's Secret Book this is the only full length completely unedited and correctly translated text of Hitler's second book written to explain National Socialist foreign policy Hitler deals with European unification the danger of outsourcing to the East and much more [German Foreign Policy, 1918-1945](#) Christoph M. Kimmich, 2013-03-14 Christoph Kimmich's German Foreign Policy 1918-1945 A Guide to Current Research and Resources is a comprehensive guide to archival resources and published materials on the foreign policy of Weimar and Nazi Germany It catalogues the archives libraries and research institutes both public and private that house important collections especially in Germany but also elsewhere in Europe and in the United States and describes their holdings terms of access and use and guides and inventories available German Foreign Policy 1918-1945 also includes a substantial annotated bibliography of published sources ranging from documentary series to significant contemporary accounts from memoirs to secondary works The bibliography reflects current scholarship and draws attention to works that are innovative and accessible It also describes the various series of the Nuremberg War Crimes Trial Records and the original trial documents available in archives and libraries The guide canvasses the vast and growing offering of materials on the Web digitized print materials archival inventories and source materials In order to expedite work in the archives the guide also explains the organization and functioning of the German foreign ministry between 1918 and 1945 and how it kept and stored its records This third edition offers new information on German archives many of which were consolidated and relocated after German reunification on recently discovered archival holdings and on materials posted on the Web It is a reference source for both established scholars and young researchers offering quick and efficient access to the voluminous research and research materials that are now available *Hitler's Foreign Policy 1933-1939* Gerhard L. Weinberg, 2010-03-01 Hitler's path to war consisted of two different stages that paralleled the internal development of Germany From 1933 to the end of 1936 he created a diplomatic revolution in Europe From a barely accepted equal Germany became the dominant power on the continent With the remilitarization of the Rhineland the stalemate in the Spanish Civil War the forming of the Axis and the signing of the Anti Comintern Pact the first phase was completed In the second phase the

diplomatic initiative in the world belonged to Germany and its partners Germany's march toward war therefore became the central issue in world diplomacy *The Foreign Policy of Hitler's Germany* Gerhard L. Weinberg, 1995-07 These two volumes are designed to explain the origins of World War II by focusing on the role of German foreign policy under Hitler New light is shed on German rearmament on the efforts of Britain and France to avert war on the annexation of Austria on the Munich Agreement and on the final steps to war in 1939 Both specialists and general readers will find much of interest in these two volumes The German foreign policy as determined by Adolf Hitler is analyzed on the basis of comprehensive research in German British and American archives The published documents of France Italy Russia and numerous other countries as well as the extensive literature on the subject and the papers of many participants have been researched to present what still remains the only comprehensive study in any language of the road to war in 1939 This edition adds a new preface relating these volumes to the evidence the controversies and the literature of the years since they were first written

German Foreign Policy Towards Iran Before World War II Rashid Khatib-Shahidi, 2013-03-19 Early twentieth century Iran had been dominated by the competing influences of the two great imperial powers of the time Russia and Britain making it difficult for a third power to establish a foothold But an emergent highly industrialised and assertive Germany in the 1930s became an attractive ally through which Iran could cut loose from domination by Britain and the Soviet Union allowing it to seek modernity outside the constraints of old imperial interests This led to the development of close commercial ties between Reza Shah's Persia and Hitler's Germany in the interwar period an aspect of German foreign policy that is often overlooked It was the National Bank of Persia established in 1927 under German management and with Kurt Lindenblatt as its governor that was to be the vehicle for Germany's commercial expansion into Iran The Bank was a vital engine driving industrialisation even after Lindenblatt retired and was followed by Gholam Reza Amir Khosravi and a board of directors including Hossein Ala and Abdul Hossein Hazhir By the mid 1930s a new German foreign policy approach of active diplomacy fortified initial inroads into the Iranian economy building upon the foundations laid by individual entrepreneurs the National Bank and the construction of the Trans Iranian Railway Iran evolved into an attractive country for international trade and at the outbreak of World War II Germany was Iran's largest trading partner surpassing both the Soviet Union and Britain These close ties reveal a complex relationship between Germany and Iran and an admiration of the Nazi's brand of industrial scientific and organisational progress It was however a relationship that came to an abrupt end with the Allied invasion of Iran in 1941 that deposed the Shah Khatib Shahidi delves into previously untapped German primary sources to explore the nature of German involvement in Iran between the wars examining how it came to be moulded by a handful of individuals This book is a revealing resource on the historical ties between Iran and Germany making it indispensable for students and researchers of European Imperialism and Colonialism in the Middle East as well as of Iranian Political and Economic History **Hitler's Second Book** Adolf Hitler, 2013-10-18 The unpublished followup to Hitler's autobiography never published during the

dictator's lifetime includes details of his vision for a foreign policy based on continual aggression that would inevitably result in a confrontation with the United States which he saw as a major stumbling block to his plans The Making of the Second World War Anthony P. Adamthwaite, 1992 First Published in 1979 Routledge is an imprint of Taylor Francis an informal company *International History of the Twentieth Century and Beyond* Antony Best, Jussi M. Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2024-09-03 Now in its fourth edition this highly successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the last 120 years The fourth edition is thoroughly updated to take account of the most recent research and global developments including new material on the impact of the Trump administration on international politics the rise of China under the leadership of Xi Jinping and the origins of the wars in Ukraine and Gaza The book is supported by a fully revised companion website including links to further resources and self testing material which can be found at www.routledgelearning.com/internationalhistory20c Germany, Hitler, and World War II Gerhard L. Weinberg, 1995 Reflecting on the greatest war in human history one cannot help but think about the terrible conflict as a whole its leaders its peoples and the puzzles still open about its conduct Leaders on both sides realised that at stake from the very beginning was a complete restructuring of the world order More than a conflict of imperial aggression World War II was about who would live and command the globe's resources and which peoples would disappear entirely because they were believed to be inferior or undesirable by the victor This collection of special studies in twentieth century German and world history illuminates the nature of the Nazi system and its impact on Germany and the world Bringing together essays now widely scattered and several never previously published in English this volume examines the Holocaust the connections between the European and Pacific theatres of war as well as the effects leaders and research problems of World War II By examining the effects of World War II its leaders its problems and the Holocaust this volume provides an illuminating study of the nature of the Nazi system and its impact on Germany and the world When Right Makes Might Stacie E. Goddard, 2018-12-15 Why do great powers accommodate the rise of some challengers but contain and confront others even at the risk of war When Right Makes Might proposes that the ways in which a rising power legitimizes its expansionist aims significantly shapes great power responses Stacie E. Goddard theorizes that when faced with a new challenger great powers will attempt to divine the challenger's intentions does it pose a revolutionary threat to the system or can it be incorporated into the existing international order Goddard departs from conventional theories of international relations by arguing that great powers come to understand a contender's intentions not only through objective capabilities or costly signals but by

observing how a rising power justifies its behavior to its audience To understand the dynamics of rising powers then we must take seriously the role of legitimacy in international relations A rising power's ability to expand depends as much on its claims to right as it does on its growing might As a result When Right Makes Might poses significant questions for academics and policymakers alike Underpinning her argument on the oft ignored significance of public self presentation Goddard suggests that academics and others should recognize talk's critical role in the formation of grand strategy Unlike rationalist and realist theories that suggest rhetoric is mere window dressing for power When Right Makes Might argues that rhetoric fundamentally shapes the contours of grand strategy Legitimacy is not marginal to international relations it is essential to the practice of power politics and rhetoric is central to that practice *Germany and Europe 1919-1939* John Hiden, 2014-09-25

This is the only short study in English to survey Germany's foreign policy from a German viewpoint across the entire inter war period The approach which sets Germany in her full European context is not narrowly diplomatic and it gives as much attention to the Weimar years of the 1920s as it gives to the more familiar story of Germany's international relations under the Third Reich John Hiden has now thoroughly revised his text to take account of new scholarship since the book first appeared in 1977 *Origins of the Second World War Reconsidered* Gordon Martel, 2002-02-07 When A J P Taylor's *The Origins of the Second World War* appeared in 1961 it made a profound impact The book became a classic and a central point of reference in all discussion on the Second World War The second edition of this distinguished collection written by leading experts in the field is designed to bring the state of the argument up to date The issues discussed include the legacy of the Treaty of Versailles Hitler's foreign policy Appeasement AJP Taylor and the Russians the treatment of the crises leading up to war including the Anschluss Danzig Abyssinian crises and the Spanish Civil War This second edition will ensure that *The Origins of the Second World War* will remain a high priority student and scholarly reading lists **Hitler's Voice:**

Organisation & development of the Nazi Party Detlef Mühlberger, 2004 Detlef Mühlberger's work *Hitler's Voice The Volkischer Beobachter 1920-1933* is an important addition to the study of National Socialism In today's scholarship it is difficult to locate a detailed work on National Socialism that does not rely in some way on the *Volkischer Beobachter* it was truly the bullhorn of the party from the time when the National Socialists were no more than a small group of unknowns gathering at the Munich Bürgerbräukeller until they gained power in 1933 Considering the vast amount of literature on National Socialism however it is surprising that until now there have only been shorter articles and two dissertations and not a single comprehensive analysis of the newspaper 1 Mühlberger's translation of articles from the *Volkischer Beobachter* addresses this lacuna He has sifted through eleven years of the paper condensing them into two volumes His first volume gives a chronological account of the development and organization of the party until 1933 while the shorter second volume entitled *Nazi Ideology and Propaganda* examines topical issues such as attacks against the Weimar Republic racism and attempts by the party to garner support from workers farmers and the German Mittelstand *German Foreign Policy from Bismarck to*

Adenauer Klaus Hilderbrand, 2013-09-13 First Published in 1989 Tackling the problem of Germany's role in the history of world politics in the nineteenth and twentieth centuries is one of the most interesting tasks of historiography Furthermore the relationship between Britain and Germany is of central significance in understanding this role **The Routledge Companion to World History since 1914** Chris Cook, John Stevenson, 2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world's major famines and natural disasters since 1914 whether all countries of the world have a king president prime minister or other governance GNP of the world's major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international relations and for all those with an interest in world history **The Germans and the East** Charles W. Ingrao, Franz A. J. Szabo, 2008 The editors present a collection of 23 historical papers exploring relationships between the Germans necessarily adopting different senses of the term for different periods or different topics and their immediate neighbors to the East The eras discussed range from the Middle Ages to European integration Examples of specific topics addressed include the Teutonic order in the development of the political culture of Northeastern Europe during the Middle ages Teutonic Balt relations in the chronicles of the Baltic Crusades the emergence of Polenliteratur in 18th century Germany German colonization in the Banat and Transylvania in the 18th century changing meanings of German in Habsburg Central Europe German military occupation and culture on the Eastern Front in World War I interwar Poland and the problem of Polish speaking Germans the implementation of Nazi racial policy in occupied Poland Austro Czechoslovak relations and the post war expulsion of the Germans and narratives of the lost German East in Cold War West Germany *The Hitler Years: Triumph, 1933-1939* Frank McDonough, 2021-06-22 From historian Frank McDonough the first volume of a new chronicle of the Third Reich under Hitler's hand On January 30th 1933 Adolf Hitler was appointed the German Chancellor of a coalition government by President Hindenburg Within a few months he had installed a dictatorship jailing and killing his leftwing opponents terrorizing the rest of the population and driving Jews out of public life He embarked on a crash program of militaristic Keynesianism reviving the economy and achieving full employment through massive public works vast armaments spending and the cancellations of foreign debts After the grim years of the Great Depression Germany seemed to have been reborn as a brutal and determined European power Over the course of the years from 1933 to 1939 Hitler won over most of the population to his vision of a renewed Reich In these years of domestic triumph cunning maneuvers pitting neighboring powers against each other and biding his time we see Hitler preparing for the

moment that would realize his ambition But what drove Hitler s success was also to be the fatal flaw of his regime a relentless belief in war as the motor of greatness a dream of vast conquests in Eastern Europe and an astonishingly fanatical racism Hitler's War Aims Norman Rich,1973 Dealing with the military phase of Hitler s expansion Rich tells an absorbing story of Germany s relentless drive in every direction and provides a vivid account of the relations between Hitler and his newly acquired subjects and satellites Hans W Gatzke Political Science Quarterly

Hitler S Second German Foreign Policy Introduction

In the digital age, access to information has become easier than ever before. The ability to download Hitler S Second German Foreign Policy has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Hitler S Second German Foreign Policy has opened up a world of possibilities. Downloading Hitler S Second German Foreign Policy provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Hitler S Second German Foreign Policy has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Hitler S Second German Foreign Policy. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Hitler S Second German Foreign Policy. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Hitler S Second German Foreign Policy, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites.

they are downloading from. In conclusion, the ability to download Hitler S Second German Foreign Policy has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Hitler S Second German Foreign Policy Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks.
