

HR Policy and Procedure Manual Template

Who should use this template?

This manual is designed to be used by any small business owner or operator who employs people in their business.

Why use a HR policy and procedure manual?

In short this manual helps you to establish robust structure and a basic set rules that you will use to manage your people on a day to day basis.

This is important because using a structured approach from day one will help you to ensure:

- that you meet your basic legal obligations
- that you help your people managers to make consistent and reliable decisions – this promotes a culture of fairness
- that you have established a clear understanding of expectations, rules and consequences
- that you welcome and introduce your employees to your business and their new job

It takes some effort to complete, but brings definite long-term benefits as it will minimise the incidence of people reverting to their own set of rules which in turn reduces disputes or grievances caused by confusion, and it adds to the overall professionalism of your business operations.

How to complete this template

Designed to be customised

This template for a HR manual is made up of example topics and sections. It is completely customisable based on your specific requirements; in fact the more time you spend tailoring it to your specific requirements the more effective it will be.

Perceived Exertion Laboratory Manual Luke Haile,Michael Gallagher, Jr.,Robert J. Robertson,2014-11-07 This manual provides laboratory based learning experiences in perceptually and psychosocially linked exercise assessment prescription and programming The primary pedagogic outcome is the ability to use applied theory and practice in perceptual and psychosocial exercise assessment and program design to promote the adoption and maintenance of a physically active

lifestyle enhancing overall health fitness Perceptual and psychosocial variables are presented in individual stand alone laboratory modules that can supplement existing curricula such as exercise and sport psychology exercise physiology exercise testing and prescription and exercise training and conditioning In addition the complete modular set has a conceptual flow that allows its presentation as an entire laboratory based course The laboratory modules are divided into three primary units assessment theoretical constructs scales and procedures tests prescription self regulation performance and program evaluation The manual uses a unique format in which case studies are embedded in the conceptual flow of each lab module facilitating translation of laboratory results to real world application The manual concludes with a discussion of perceptually and psychosocially linked exercise prescription and programming applications in public health such as program monitoring and adherence
