Human Rights Council Report:

The Human Rights Council Damian Etone, 2020-01-27 This book examines the engagement of African states with the United Nations Human Rights Council's Universal Periodic Review (UPR) mechanism. This human rights mechanism is known for its pacific and non-confrontational approach to monitoring state human rights implementation. Coming at the end of the first three cycles of the UPR, the work offers a detailed analysis of the effectiveness of African states' engagement and its potential impact. It develops a framework which comprehensively evaluates aspects of states' UPR engagement such as the pre-review national consultation process and implementation of UPR recommendations which until recently have received little attention. The book considers the potential for acculturation in engagement with the UPR and unpacks the impact of politics, regionalism, cultural relativism, rights ritualism and civil society. The work provides a useful guide for policymakers and international human rights law practitioners as well as a valuable resource for international legal and international relations academics and researchers.

The UN Human Rights Council Eric Tistounet, 2020-02-28 Since its establishment, the work of the Human Rights Council (UNHRC) has been subject to many interpretations, theories, comments or conclusions. This comprehensive book dissects every aspect of the UNHRC's work and analyses the efficiency of and interactions between its mechanisms. Authored by the first Secretary of the UNHRC, this book provides unique practitioner insights into the complex decision-making processes of the Council alongside the core variations from its predecessor.

The Human Right to Water and its Application in the Occupied Palestinian Territories Amanda Cahill Ripley, 2011-04-11 The Human Right to Water and Its Application in the Occupied Palestinian Territories provides an overview and examination of the human right to water as determined under international human rights law. This is a highly topical issue with the UN General Assembly having passed a resolution which declares access to clean water and sanitation a human right (New York, Jul 28, 2010). The recent appointment of the UN Independent Expert on the issue of human rights obligations related to access to safe drinking water and sanitation and movement within the NGO community for an international water treaty. Amanda Cahill Ripley analyses the current legal status, substantive content and obligations correlative to the right and examines the relationship between other economic, social and cultural rights related to the right to water. The book goes on to look more specifically at the application of the human right to water in the Occupied Palestinian Territories. Using innovative methodology, Cahill Ripley combines legal analysis with a qualitative social science empirical case study to explore the enjoyment of the right on the ground. The wider implications of the case study findings are then considered, looking at what can be done to strengthen the right legally in terms of its status and codification and what remedy can be found for violations of the right both specifically in the Occupied Palestinian Territories and in a more general context. The book will be of interest to students, academics and practitioners within the fields of international human rights law and international humanitarian law as well as those concerned with international relations and conflict resolution within Israel, Palestine and

the wider Middle East region *South Africa and the UN Human Rights Council* Eduard Jordaan, 2019-09-18 This book provides a detailed analysis of South Africa's actions on the UN Human Rights Council examining the country's positions on civil and political rights economic rights and development social groups whose rights are frequently violated and abuses in specific countries The most detailed and comprehensive study of any country's record on the UN Human Rights Council to date this book demonstrates that despite occasional support for human rights South Africa's overall record ranged from opposing to failing to support human rights This is compounded by an anti Western or anti imperial edge to South Africa's positions on the UNHRC Using South Africa as a study case of a liberal country consistently behaving illiberally this book therefore challenges the widespread belief in international relations theory typically found in liberal and constructivist thought that there is an alignment of domestic political society and foreign policy values Addressing ongoing debates since the presidency of Nelson Mandela about the place of human rights in South Africa's foreign policy *South Africa and the UN Human Rights Council* will be useful to students and scholars of international relations human rights international law and African politics *Criminal Punishment and Human Rights: Convenient Morality* Adnan Sattar, 2019-03-05 This book examines the relationship between international human rights discourse and the justifications for criminal punishment Using interdisciplinary discourse analysis it exposes certain paradoxes that underpin the International Bill of Human Rights academic commentaries on human rights law and the global human rights monitoring regime in relation to the aims of punishment in domestic penal systems It argues that human rights discourse owing to its theoretical kinship with Kantian philosophy embodies a paradoxical commitment to human dignity on the one hand and retributive punishment on the other Further it sustains the split between criminal justice and social justice which results in a sociologically ill informed understanding of punishment Human rights discourse plays a paradoxical role vis vis the punitive power of the state as it seeks to counter criminalisation in some areas and backs the introduction of new criminal offences and longer prison sentences in others The underlying priorities it is argued have been shaped by a number of historical circumstances Drawing on archival material the study demonstrates that the international penal discourse produced during the late nineteenth and early twentieth century laid greater emphasis on offender rehabilitation and was more attentive to the social context of crime than is the case with the modern human rights discourse *Hashtag Activism and Women's Rights* Reilly Anne Dempsey Willis, 2025-02-11 With over five billion internet users globally it is crucial to understand social media activism and legal change for women and girls This insightful book examines the impact of international Twitter now X campaigns on domestic laws affecting women and girls Exploring the complexities of legal change for women and girls across seven countries from Latin America to Middle East and Africa the book offers empirical insights into the effectiveness of hashtag advocacy and sheds light on the role of social media in shaping different outcomes This is a key resource for understanding the dynamics driving social media activism and its potential impact on the rights of women and girls worldwide *Detention and Its*
