Adesoji,2015-10-19 Teacher education is vital for the realization of a nation s development aspirations The conception
incubation and delivery of any national development policy as well as the reform and implementation of extant policies are
driven by the quality of teachers and their products within a functional educational system Indeed national and global models
of development including the millennium development goals revolve round the frames of quality education beginning with
teacher education It is therefore important to have functional teacher education systems in Africa to help its citizens explore
the networking of the world as a global village This is achievable through a systematic mobilization of national resources and
visible commitment to the development of a modernized cadre of scientific and technological manpower This book is a rich
exposition of theories and praxes essential for the development of teacher education in Africa The book has immense benefits

Smith,2024-09-10 This book focuses on the development of the National Museum of Natural History s David H Koch Hall of
Human Origins As one of the most visited human evolution exhibits in the world and the largest such exhibit in the United
States it has tremendous influence on public perception and knowledge of human evolution The chapters explore how this
exhibit came about how it has changed since opening and the associated educational and public outreach activities of
members of the Smithsonian s Human Origins Program The author uses the term adaptive resilience to describe a central
theme of the exhibit our species adaptation to changing environments as a key feature of our success and to refer to the
resilience of Richard B Potts in creating his vision for the hall Contextual sections situate the hall s development within the
history of paleoanthropology the politics of evolution and climate change and African contributions The book will be of
particular interest to scholars of anthropology and museum studies as well as the history of science and science
