Intercultural Communication In Contexts 4th Edition:

Intercultural Communication in Japan Satoshi Toyosaki, Shinsuke Eguchi, 2017-02-24 Japan is heterogeneous and culturally diverse both historically through ancient waves of immigration and in recent years due to its foreign relations and internationalization. However, Japan has socially, culturally, politically, and intellectually constructed a distinct and homogeneous identity. More recently, this identity construction has been rightfully questioned and challenged by Japan's culturally diverse groups. This book explores the discursive systems of cultural identities that regenerate the illusion of Japan as a homogeneous nation. Contributors from a variety of disciplines and methodological approaches investigate the ways in which Japan's homogenizing discourses are challenged and modified by counter-homogeneous message systems. They examine the discursive push and pull between homogenizing and heterogenizing vectors found in domestic and transnational contexts and mobilized by various identity politics such as gender, sexuality, ethnicity, foreign status, nationality, multiculturalism, and internationalization. After offering a careful and critical analysis, the book calls for a complicating of Japan's homogenizing discourses in nuanced and contextual ways with an explicit goal of working towards a culturally diverse Japan. Taking a critical intercultural communication perspective, this book will be of interest to students and scholars of Japanese Studies, Japanese Culture, and Japanese Society.

Intercultural Communication and Public Policy Iheanacho, Ngozi, 2016-07-25 As there are different races and people in the world, so there are different cultures, meaning that cultural diversity is inevitable. Through human contact and association, cultures meet. In such meetings, every individual and culture projects itself as worthy and should be held in high esteem. In today's world, it is not encouraging to be ethnocentric, always taking action or in actions that crystallize and project a feeling of one's own culture or racial superiority. Such an attitude obstructs meaningful interaction, human relations, tolerance, and cooperation. Conversely, the skill and ability to tolerate and communicate effectively with people from diverse cultures is a social activity which begins from thought to behaviour in both spoken and non-spoken versions. The book contains 19 essays structured into five parts.
