

INTRODUCTION

Assembled in this book are operating and maintenance instructions for the International 200 (Tractor). This manual has been prepared to assist in the proper use of the tractor to better understand the correct care and efficient operation of your tractor.

If you should need information not given in this manual, or require the services of a trained mechanic, get in touch with the International Distributor. Dealers in your locality are listed under the heading of "List of Dealers" in the back of this manual. They carry stocks of all parts, and are backed in every way by the full facilities of a nearby International Service District Office.

Throughout this manual the use of the terms LEFT, RIGHT, FRONT, and REAR must be understood to avoid confusion when following instructions. LEFT and RIGHT indicate the left and right sides of the tractor when facing forward in the driver's seat. Reference to FRONT indicates the radiator end of the tractor; to REAR, the driver's end. See *Figure 2*.

Figure 2

The illustrations in this manual are intended to correspond with the pages on which they appear. For example, *Figure 2*, is on page 2.

In order to provide a tractor equipped as nearly as possible to suit each customer's needs, a variety of extra equipment and accessories is available.

Many of these items are illustrated and described in the Extra Equipment and Accessories section of this manual.

Where operating and maintenance instructions on these items are required, it is included in the instructions for operating and maintaining the tractor. Observe the instructions for equipment used on your tractor.

When in need of parts, always specify the tractor and engine serial numbers. The serial numbers are stamped on a plate located in the right side of the clutch housing. See *Figure 24*.

Figure 24
Location of tractor serial number.

The engine serial number is stamped in the right side of the engine crankcase, opposite the crankcase breather. See *Figure 28*. The serial number is provided by the prefix C-100, which indicates that it is a four-cylinder engine with a 243-cu-inch piston displacement.

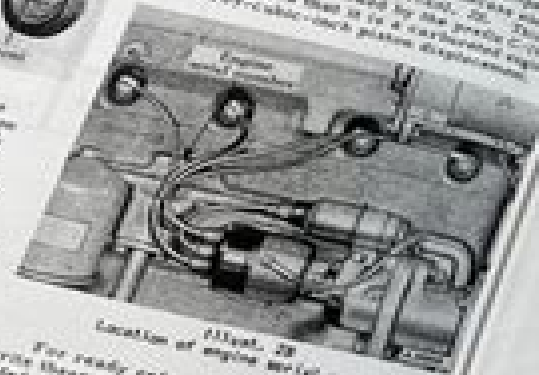

Figure 28
Location of engine serial number.

For ready reference, we suggest that you write these serial numbers in the space provided on the Delivery Report.

DESCRIPTION
