On the Blind Side Lynda Smiley, 2015-02-17 On the blind side is an account of the rehabilitation of some of the men and women Lynda has trained when they lost their sight either through accident or illness or on the battlefield They are all heroes Theirs are stories of bravery and courage of hope and fulfillment Arriving at the Enid Whitaker Rehabilitation for the Blind at a crisis point in their lives often suicidal always downcast they departed on completion of their course full of new ambition to conquer the world Running in tandem with the stories of the rehabilitees are brief vignettes from Lyndas own history glimpses into how she came to take up the work she did The contents include chapters such as In the beginning Lyndas own background for doing the work Clash of the Titans a case history of one of the students Pancakes and snow an account of optacon teaching Too much sugar about Diabetes Mellitus The book should appeal to the general reader to those facing impending loss of sight and those who are already blind as well as to professionals in the field of blindness It is an essentially human story of hope and courage which Lynda had the privilege to witness many many times in the course of her career as the first locally trained Mobility Instructress in South Africa Lynda was employed by the South African National Council for the Blind and later by St Dunstons for War Blinded Veterans Today she freelances in the community

Soil Physics with Python Marco Bittelli, Gaylon S. Campbell, Fausto Tomei, 2015-05-14 This innovative study presents concepts and problems in soil physics and provides solutions using original computer programs It provides a close examination of physical environments of soil including an analysis of the movement of heat water and gases The authors employ the programming language Python which is now widely used for numerical problem solving in the sciences In contrast to the majority of the literature on soil physics this text focuses on solving not deriving differential equations for transport Using numerical procedures to solve differential equations allows the solution of quite difficult problems with fairly simple mathematical tools Numerical methods convert differential into algebraic equations which can be solved using

conventional methods of linear algebra Each chapter introduces a soil physics concept and proceeds to develop computer programs to solve the equations and illustrate the points made in the discussion Problems at the end of each chapter help the reader practise using the concepts introduced The text is suitable for advanced undergraduates graduates and researchers of soil physics It employs an open source philosophy where computer code is presented explained and discussed and provides the reader with a full understanding of the solutions Once mastered the code can be adapted and expanded for the user's own models fostering further developments The Python tools provide a simple syntax Object Oriented Programming techniques powerful mathematical and numerical tools and a user friendly environment Gender Violence in Poverty

Contexts Jenny Parkes, 2015-03-27 This book is concerned with understanding the complex ways in which gender violence and poverty impact on young people's lives and the potential for education to challenge violence Although there has been a recent expansion of research on gender violence and schooling the field of research that brings together thinking on gender violence poverty and education is in its infancy This book sets out to establish this new field by offering innovative research insights into the nature of violence affecting children and young people the sources of violence including the relationship with poverty and inequality the effects of violence on young subjectivities and the educational challenge of how to counter violence Authors address three interrelated aims in their chapters to identify theoretical and methodological framings for understanding the relationship between gender violence poverty and education to demonstrate how young people living in varying contexts of poverty in the Global South learn about engage in respond to and resist gender violence to investigate how institutions including schools families communities governments international and non governmental organisations and the media constrain or expand possibilities to challenge gender violence in the Global South Describing a range of innovative research projects the chapters display what scholarly work can offer to help meet the educational challenge and to find ways to help young people and those around them to understand resist and rupture the many faces of violence Gender Violence in Poverty Contexts will appeal to an international audience of postgraduate students academics and researchers in the fields of international and comparative education gender and women's studies teacher education poverty development and conflict studies African and Asian studies and related disciplines It will also be of interest to professionals in NGOs and other organisations and policy makers keen to develop research informed practice Winner of the 2016 Jackie Kirk Outstanding Book Award Blood on her hands: Women behind bars Carla van der Spuy, 2015-08-01 What makes a woman kill And how does it feel to share a cell with these murderers Carla van der Spuy visits four female correctional facilities across South Africa and gets inside the heads of women who committed violent crimes She visits the babies born behind bars celebrates Christmas with the inmates and chats face to face with women who killed with knives guns and hit men as well as a kleptomaniac and a prostitute Women with blood on their hands What went so terribly wrong in their lives And is there a person behind the criminal
