**The Spectacle 2.0** Marco Briziarelli,Emiliana Armano,2017-12-17 Spectacle 2 0 recasts Debord s theory of spectacle within the frame of 21st century digital capitalism It offers a reassessment of Debord s original notion of Spectacle from the late 1960s of its posterior revisitation in the 1990s and it presents a reinterpretation of the concept within the scenario of contemporary informational capitalism and more specifically of digital and media labour It is argued that the Spectacle 2 0 form operates as the interactive network that links through one singular but contradictory language and various imaginaries uniting diverse productive contexts such as logistics finance new media and urbanism Spectacle 2 0 thus colonizes most spheres of social life by processes of commodification exploitation and reification Diverse contributors consider the topic within the book s two main sections Part I conceptualizes and historicizes the Spectacle in the context of informational capitalism contributions in Part II offer empirical cases that historicise the Spectacle in relation to the present and recent past showing how a Spectacle 2 0 approach can illuminate and deconstruct specific aspects of contemporary social reality All contributions included in this book rework the category of the Spectacle to present a stimulating compendium of theoretical critical literature in the fields of media and labour studies In the era of the gig economy highly mediated content and President Trump Debord s concept is arguably more relevant than ever *The Routledge Companion to the Contemporary Musical* Jessica Sternfeld,Elizabeth L. Wollman,2019-08-16 The Routledge Companion to the Contemporary Musical is dedicated to the musical s evolving relationship to American culture in the late twentieth and early twenty first centuries In the past decade and a half international scholars from an ever widening number of disciplines and specializations have been actively contributing to the interdisciplinary field of musical theater studies Musicals have served not only to mirror the sociopolitical economic and cultural tenor of the times but have helped shape and influence it in America and across the globe a genre that may seem at first glance light hearted and escapist serves also as a bold commentary on society Forty four essays examine the contemporary musical as an ever shifting product of an ever changing culture This volume sheds new light on the American musical as a thriving contemporary performing arts genre one that could have died out in the post Tin Pan Alley era but instead has managed to remain culturally viable and influential in part by newly embracing a series of complex contradictions At present the American musical is a live localized old fashioned genre that has simultaneously developed into an increasingly globalized tech savvy intensely mediated mass entertainment form Similarly as it has become increasingly international in its scope and appeal the stage musical has also become more firmly rooted to Broadway the idea if not the place and thus branded as a quintessentially American entertainment **Just Care** Akemi Nishida,2022-07-15 Just Care examines care as a site where the somatic the political economy and intersectional social oppressions manifest and materialize interactively while it is also a vision and praxis for radically collective and affectionate ways to live and transform society **The Social Fact** John P. Wihbey,2019-04-16 How the structure of news information and knowledge is evolving

and how news media can foster social connection While the public believes that journalism remains crucial for democracy there is a general sense that the news media are performing this role poorly In *The Social Fact* John Wihbey makes the case that journalism can better serve democracy by focusing on ways of fostering social connection Wihbey explores how the structure of news information and knowledge and their flow through society are changing and he considers ways in which news media can demonstrate the highest possible societal value in the context of these changes Wihbey examines network science as well as the interplay between information and communications technologies ICTs and the structure of knowledge in society He discusses the underlying patterns that characterize our increasingly networked world of information with its viral phenomena and whiplash inducing trends its extremes and surprises How can the traditional media world be reconciled with the world of social peer to peer platforms crowdsourcing and user generated content Wihbey outlines a synthesis for news producers and advocates innovation in approach form and purpose *The Social Fact* provides a valuable framework for doing audience engaged media work of many kinds in our networked hybrid media environment It will be of interest to all those concerned about the future of news and public affairs

an elastic approach this state of the field collection systematically explores the transcultural transgenerational transmedial and transdisciplinary dimensions of memory four key dynamics that have sometimes been studied in isolation but never in such an integrated manner Memory Unbound places leading researchers in conversation with emerging voices in the field to recast our understanding of memory s distinctive variability **Beyond Consumption** Manish K

Once celebrated for connecting people and circulating ideas social media are facing mounting criticisms about their anticompetitive reach addictive design and toxicity to democracy Known cumulatively as the techlash journalists users and politicians are asking social media platforms to account for being too big too engaging and too unruly In the age of the techlash strategies to regulate how platforms operate technically economically and legally are often stacked against individual tactics to manage the effects of social media by disconnecting from them These disconnection practices from restricting screen time and detoxing from device use to deleting apps and accounts often reinforce rather than confront the ways social media organize attention everyday life and society Reckoning with Social Media challenges the prevailing critique of social media that pits small gestures against big changes that either celebrates personal transformation or champions structural reformation This edited volume reframes evaluative claims about disconnection practices as either restorative or reformative of current social media systems by beginning where other studies conclude the ambivalence commodification and complicity of separating from social media **Governable Spaces** Nathan Schneider,2024-02-27
