Mauritius Road Traffic Act 2011:

Global Status Report on Road Safety 2018 World Health Organization, 2019-01-10 The Global status report on road safety 2018 launched by WHO in December 2018 highlights that the number of annual road traffic deaths has reached 1 35 million Road traffic injuries are now the leading killer of people aged 5 29 years The burden is disproportionately borne by pedestrians cyclists and motorcyclists in particular those living in developing countries The report suggests that the price paid for mobility is too high especially because proven measures exist Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives

Global Status Report on Road Safety 2013 World Health Organization. Violence and Injury Prevention, World Health Organization, 2013 This report provides legislation data last updated in 2011 and fatality data updated for 2010

Global Status Report on Road Safety 2015 World Health Organization, 2015-12-17 The Global status report on road safety 2015 reflecting information from 180 countries indicates that worldwide the total number of road traffic deaths has plateaued at 1 25 million per year with the highest road traffic fatality rates in low income countries In the last three years 17 countries have aligned at least one of their laws with best practice on seat belts drink driving speed motorcycle helmets or child restraints While there has been progress towards improving road safety legislation and in making vehicles safer the report shows that the pace of change is too slow Urgent action is needed to achieve the ambitious target for road safety reflected in the newly adopted 2030 Agenda for Sustainable Development halving the global number of deaths and injuries from road traffic crashes by 2020 Made possible through funding from Bloomberg Philanthropies this report is the third in the series and provides a snapshot of the road safety situation globally highlighting the gaps and the measures needed to best drive progress Publisher's description

The Use of Foreign Precedents by Constitutional Judges Tania Groppi, Marie-Claire Ponthoreau, 2013-03-28 In 2007 the International Association of Constitutional Law established an Interest Group on The Use of Foreign Precedents by Constitutional Judges to conduct a survey of the use of foreign precedents by Supreme and Constitutional Courts in deciding constitutional cases Its purpose was to determine through empirical analysis employing both quantitative and qualitative indicators the extent to which foreign case law is cited The survey aimed to test the reliability of studies describing and reporting instances of transjudicial communication between Courts The research also provides useful insights into the extent to which a progressive constitutional convergence may be taking place between common law and civil law traditions The present work includes studies by scholars from African American Asian European Latin American and Oceania countries representing jurisdictions belonging to both common law and civil law traditions and countries employing both centralised and decentralised systems of judicial review The results published here for the first time give us the best evidence yet of the existence and limits of a transnational constitutional communication between courts

Prosecuting Maritime Piracy Michael P. Scharf, Michael A. Newton, Milena Sterio, 2015-06-09

This book addresses maritime piracy by focusing on the unique and fascinating issues arising in the course of domestic piracy prosecutions from the pursuit and apprehension of pirates to their trial and imprisonment. It examines novel matters not addressed in other published works such as the challenges in preserving and presenting evidence in piracy trials, the rights of pirate defendants and contending with alleged pirates who are juveniles. A more thorough understanding of modern piracy trials and the precedent they have established is critical to scholars, practitioners and the broader community interested in counter piracy efforts as these prosecutions are likely to be the primary judicial mechanism to contend with pirate activity going forward. *Digest of Crime, Justice, and Security Statistics*, 2015. *OECD Investment Policy Reviews: Mauritius 2014* OECD, 2014-06-25. Despite difficult initial conditions that led a Nobel Prize Winner in economics to predict stagnation (Meade 1961), we use growth accounting to analyze the sources of past growth and project potential ranges of growth through 2033. Growth averaged 4.12 percent over the past 20 years. Our baseline suggests future growth rates around 3.14 percent, but growth could reach 4.5 percent with strong pro-active policies including: i) improving investment and savings rates; ii) improving the efficiency of social spending and public enterprise reforms; iii) investment in education and education reforms; iii) labor market reforms; and iv) further measures to reduce bottlenecks and increase productivity. With policies capable of generating 5 percent growth, Mauritius could reach high income status in 2021, 4 years earlier than under the baseline. *Technical Co-operation*, 1980. *Parliamentary Debates (Hansard)*.
