Gábor Almási, Giorgio Lizzul

Max Weber And The Protestant Ethic Twin Histories:

Max Weber and 'The Protestant Ethic' Peter Ghosh, 2014-09-05 Max Weber and The Protestant Ethic Twin Histories presents an entirely new portrait of Max Weber one of the most prestigious social theorists in recent history using his most famous work The Protestant Ethic and the Spirit of Capitalism as its central point of reference It offers an intellectual biography of Weber framed along historical lines something which has never been done before It re evaluates The Protestant Ethic a text surprisingly neglected by scholars supplying a missing intellectual and chronological centre to Weber s life and work Peter Ghosh suggests that The Protestant Ethic is the link which unites the earlier pre 1900 and later post 1910 phases of his career He offers a series of fresh perspectives on Weber s thought in various areas charisma capitalism law politics rationality bourgeois life and not least Weber s unusual religious thinking which was remote from god yet based on close dialogue with Christian theology This approach produces a convincing view of Max Weber as a whole while previously the sheer breadth of his intellectual interests has caused him to be read in a fragmentary way according to a series of specialized viewpoints this volume seeks to put him back together again as a real individual Max Weber and the Protestant Ethic

James Glass, 2017-07-10 Max Weber and The Protestant Ethic Twin Histories shows a totally new picture of Max Weber a standout amongst the most renowned social scholars in late history utilizing his most acclaimed work The Protestant Ethic and the Soul of Capitalism as its essential issue of reference It offers a scholarly memoir of Weber surrounded along chronicled lines something which has never been finished It re assesses The Protestant Ethic a content shockingly disregarded by researchers providing a missing scholarly and ordered focus to Weber s life and work **The Protestant Ethic in Hungary** Attila K. Molnár, 2024-04-15 While in the 16 17th centuries about the two thirds of the Hungarians belonged to the Reformed Church the presence of the spirit of capitalism and the protestant ethic is rather questionable The Calvinists did not play a different or decisive role in the capitalization process of Hungary at the end of the 19th century The historical analysis focuses on the puritan doctrines can be found in the religiosity of Hungarian puritans and Reformed people in the 17th century The Hungarian Protestant ethic differs from Weber s ideal type in two respects the Hungarian version is more pietistic less activist and it seems to have less practical influence in everyday life because of the weak religiosity The Hungarian case does not refute Weber s thesis but it call the attention to two important parts of historical analysis the reinterpreting selecting procedure in social context and the intensity of religiosity **The Oxford Handbook**

of Max Weber Dr. Edith Hanke, Dr. Lawrence A. Scaff, Dr. Sam Whimster, 2019-12-04 Active at the time when the social sciences were founded Max Weber s social theory contributed significantly to a wide range of fields and disciplines Considering his prominence it makes sense to take stock of the Weberian heritage and to explore the ways in which Weber s work and ideas have contributed to our understanding of the modern world Using his work as a point of departure The Oxford Handbook of Max Weber investigates the Weberian legacy today identifying the enduring problems and themes

associated with his thought that have contemporary significance the nature of modern capitalism neo liberal global economic policy nationalism religion and secularization threats to legality the culture of modernity bureaucratic rule and leadership politics and ethics the value of science power and inequality These problems are global in scope and the Weberian approach has been used to address them in very different societies Thus the Handbook also features chapters on Europe Turkey Islam Judaism China India and international politics The Handbook emphasizes the use and application of Weber s ideas It offers a journey through the intellectual terrain that scholars continue to explore using the tools and perspectives of Weberian analysis The essays explore how Weber s concepts hypotheses and perspectives have been applied in practice and how they can be applied in the future in social inquiry not only in Europe and North America but globally The volume is divided into six parts exploring in turn Capitalism in a Globalized World Society and Social Structure Politics and the State Religion Culture and Science and Knowledge

The Routledge International Handbook on Max Weber Alan Sica,2022-09-20 This book explores the latest thinking about Max Weber and his continuing influence on theoretical and empirical interests today Bringing together the work of leading scholars from a variety of disciplines it illuminates Weber s thought in a number of key areas including the methodology and philosophy of social science comparative religion the rationalization process political sociology the sociology of law and the Protestant ethic and the development of capitalism An international collection that demonstrates the enduring importance of Weber s thought to contemporary sociology and the discipline s major concerns The Routledge International Handbook on Max Weber will appeal to scholars in a range of disciplines including sociology social theory politics philosophy law and international relations

Rethinking the Work Ethic in Premodern Europe Gábor Almási,Giorgio Lizzul,2023-11-14 This book investigates how work ethics in Europe were conceptualised from the Middle Ages to the nineteenth century Through analysis of a range of discourses it focuses on the roles played by intellectuals in formulating communicating and contesting ideas about work and its ethical value The book moves away from the idea of a singular Weberian work ethic as fundamental to modern notions of work and instead emphasises how different languages of work were harnessed for a variety of social intellectual religious economic political and ideological objectives Rather than a singular work ethic that left a decisive mark on the development of Western culture and economy the volume stresses plurality The essays draw on approaches from intellectual social and cultural history They explore how why and in what contexts labour became an important and openly promoted value who promoted or opposed hard work and for what reasons and whether there was an early modern break with ancient and medieval discourses on work These historicized visions of work ethics help enrich our understanding of present day changing attitudes to work

The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century Peter E. Gordon,Warren Breckman,2019-08-29 The Cambridge History of Modern European Thought is an authoritative and comprehensive exploration of the themes thinkers and movements that shaped our intellectual world in the late eighteenth and nineteenth century Representing both individual

figures and the contexts within which they developed their ideas each essay is written in a clear accessible style by leading scholars in the field and offers both originality and interpretive insight This second volume surveys twentieth century European intellectual history conceived as a crisis in modernity Comprised of twenty one chapters it focuses on figures such as Freud Heidegger Adorno and Arendt surveys major schools of thought including Phenomenology Existentialism and Conservatism and discusses critical movements such as Postcolonialism Structuralism and Post structuralism Renouncing a single master narrative of European thought across the period Peter E Gordon and Warren Breckman establish a formidable new multi faceted vision of European intellectual history for the global modern age **Christianity and Private Law**

Robert Cochran, Jr, Michael Moreland, 2020-11-22 This volume examines the relationship between Christian legal theory and the fields of private law Recent years have seen a resurgence of interest in private law theory and this book contributes to that discussion by drawing on the historical theological and philosophical resources of the Christian tradition The book begins with an introduction from the editors that lays out the understanding of private law and what distinguishes private law topics from other fields of law This section includes two survey chapters on natural law and biblical sources The remaining sections of the book move sequentially through the fields of property contracts and torts Several chapters focus on historical sources and show the ways in which the evolution of legal doctrine in areas of private law has been heavily influenced by Christian thinkers Other chapters draw out more contemporary and public policy related implications for private law While this book is focused on the relationship of Christianity to private law it will be of broad interest to those who might not share that faith perspective In particular legal historians and philosophers of law will find much of interest in the original scholarship in this volume The book will be attractive to teachers of law political science and theology It will be of special interest to the many law faculty in property contracts and torts as it provides a set of often overlooked historical and theoretical perspectives on these fields [The Rise of Digital Management](#) François-Xavier de Vaujany, 2024-06-03 This book analyzes the history of management placing it in perspective with both American history and the genealogy of digital technology Focusing on the years of industrial mobilization in the United States from 1937 to 1945 and their extension into the Cold War it shows particularly how scientific management was reconfigured and re legitimized in favor of a new profoundly American geopolitics In a context where the future was at a standstill this research also explains what became of the managerial processes at the heart of capitalism from the 40s onwards the shift from a managerial capitalism of calculation to a narrative capitalism made up of desiring machines This digital management no longer simply contributes along with others to unveiling and revealing the future Aligned with the American obsession with novelty it is the very process of revelation and unveiling with managers and consumers alike becoming the intersecting subjects of desires borne of managerial apocalypses To explore this period of American history the author has combined a triple narrative anchored in three types of archives an intimate history of this reconfiguration from the presence in New York of Saint Exupéry Burnham

and Wiener a description of the great historical moment of industrial mobilization and a philosophical speculation about reconfiguration and its links to American history

The Polymath Peter Burke, 2020-09-08 The first history of the western polymath from the fifteenth century to the present day From Leonardo Da Vinci to John Dee and Comenius from George Eliot to Oliver Sacks and Susan Sontag polymaths have moved the frontiers of knowledge in countless ways But history can be unkind to scholars with such encyclopaedic interests All too often these individuals are remembered for just one part of their valuable achievements In this engaging erudite account renowned cultural historian Peter Burke argues for a more rounded view Identifying 500 western polymaths Burke explores their wide ranging successes and shows how their rise matched a rapid growth of knowledge in the age of the invention of printing the discovery of the New World and the Scientific Revolution It is only more recently that the further acceleration of knowledge has led to increased specialisation and to an environment that is less supportive of wide ranging scholars and scientists Spanning the Renaissance to the present day Burke changes our understanding of this remarkable intellectual species

God and Progress Joshua Bennett, 2019-03-07 Exploring the rich relationship between historical thought and religious debate in Victorian culture *God and Progress* offers a unique and authoritative account of intellectual change in nineteenth century Britain The volume recovers a twofold process in which the growth of progressive ideas of history transformed British Protestant traditions as religious debate in turn profoundly shaped Victorian ideas of history It adopts a remarkably wide contextual perspective embracing believers and unbelievers Anglicans and nonconformists and writers from different parts of the British Isles fully situating British debates in relation to their European and especially German Idealist surroundings The Victorian intellectual mainstream came to terms with religious diversity changing ethical sensibilities and new kinds of knowledge by encouraging providential spiritualized and developmental understandings of human time A secular counter culture simultaneously disturbed this complex consensus grounding progress in appeals to scientific advances and the retreat of metaphysics *God and Progress* thus explores the ways in which divisions within British liberalism were fundamentally related to differences over the past present and future of religion It also demonstrates that religious debate powered the process by which historicism acquired cultural authority in Victorian national life and later began to lose it The study reconstructs the ways in which theological dynamics often relegated to the margins of nineteenth century British intellectual history effectively forged its leading patterns

The Methodology of Political Economy J.I. Bakker, 2015-12-24 The importance of the global rural urban matrix is often overlooked due to urban normativity But sometimes agrarian populism and a pastoral rural imaginary result in the equally fallacy of a rural normativity as in Jeffersonian nostalgia for a lost way of life that never existed The nature of rurality in North America is important to study but as Alessandro Bonanno makes clear we cannot limit ourselves to the study of one or two nation states We must take a global perspective when it comes to the bio physical environment and the nature of the world capitalist system This collection takes such a perspective The editor frames the contributions with a Meta

Paradigm called the New Political Economy Perspective NPEP and explains the roots of that approach in Classical Political Economy and the Canadian Political Economy Tradition of Harold Adams Innis There are chapters by an anthropologist a geographer two generalist sociologists and a group of rural sociologists There is also a chapter on psychiatry and mental health and another chapter which discusses pedagogy The use of an inter disciplinary framework to study global issues makes this a stimulating book which provides a window on issues that are often overlooked **The Quest for Liberation**

Chunjie Zhang,2025-09-02 Contemporary debate on cosmopolitanism routinely refers to Immanuel Kant as its intellectual origin A group of Chinese and German speaking thinkers in the early twentieth century however used classical Chinese philosophy as an alternative intellectual genealogy to reimagine ethics politics society and modernity for the entire world Their engagement with Confucianism Taoism and Buddhism broadens the scope of global intellectual history to include a non European origin of concepts and ideas Due to the differences in their local crises the Chinese and the European stories are often narrated in separate national and cultural contexts Bridging the critical divide between China and the West The Quest for Liberation examines the thinkers shared interest in Chinese philosophy and their common effort to envision a world culture other than Western modernity Breaking with the common logic of either studying the reception and adaptation of Western ideas in the East or critiquing the misrepresentation of the East in the West Zhang s book emphasizes entanglements between Chinese and European thinkers and highlights their quest for liberation in a globalizing world Their visions of an ontological commons for everyone help us imagine a better world community in our time of global crises beyond the clash of civilizations This book is available from the publisher on an open access basis [Capitalism's Future](#)

,2016-05-30 Capitalisms Future Alienation Emancipation and Critique frames 21st century economic and social possibilities in a dialogue between two forms of critical social theory Marx s critique of political economy that analyzes capitalism and the critique of political psychology that analyzes authoritarianism Contributions from social theorists in sociology philosophy and cultural studies are brought together to dissect and critique capitalist crises left liberalism left Thatcherism resistance to risk pooling idealist philosophy undemocratic social character status wages and authoritarian spectacles Throughout Marx s centrality to critical social theory is confirmed both alone and in in powerful combination with Adorno Durkheim Dubois Lacan Veblen Weber and others This book outlines conjoined critiques of commodity fetishism and authority fetishism as the emancipatory agenda of 21st century critical theory Contributors are Kevin S Amidon Graham Cassano Tony A Feldmann Daniel Krier Christian Lotz Patrick Murray David Norman Smith Tony Smith William J Swart and Mark P Worrell

The SAGE Encyclopedia of Business Ethics and Society Robert W. Kolb, 2018-03-27 Spans the relationships among business ethics and society by including numerous entries that feature broad coverage of corporate social responsibility the obligation of companies to various stakeholder groups the contribution of business to society and culture and the relationship between organizations and the quality of the environment

Sovereignty and the Sacred Robert A. Yelle, 2018-11-26 Sovereignty and the Sacred challenges contemporary models of polity and economy through a two step engagement with the history of religions Beginning with the recognition of the convergence in the history of European political theology between the sacred and the sovereign as creating states of exception that is moments of rupture in the normative order that by transcending this order are capable of re founding or remaking it Robert A Yelle identifies our secular capitalist system as an attempt to exclude such moments by subordinating them to the calculability of laws and markets The second step marshals evidence from history and anthropology that helps us to recognize the contribution of such states of exception to ethical life as a means of release from the legal or economic order

Yelle draws on evidence from the Hebrew Bible to English deism and from the Aztecs to ancient India to develop a theory of polity that finds a place and a purpose for those aspects of religion that are often marginalized and dismissed as irrational by Enlightenment liberalism and utilitarianism Developing this close analogy between two elemental domains of society Sovereignty and the Sacred offers a new theory of religion while suggesting alternative ways of organizing our political and economic life By rethinking the transcendent foundations and liberating potential of both religion and politics Yelle points to more hopeful and ethical modes of collective life based on egalitarianism and popular sovereignty Deliberately countering the narrowness of currently dominant economic political and legal theories he demonstrates the potential of a revived history of religions to contribute to a rethinking of the foundations of our political and social order **Money, Markets, and Merit**

Wim Decock, Professor of Legal History Wim Decock, 2025-10-29 This book revisits the legacy of one of the protagonists in the history of economic thought Leonardus Lessius 1554 1623 In a time marked as much by fierce debates on grace and free will as by doubts about the legitimacy of the first global economy Lessius offers a glimpse into the interconnectedness between meritocratic ideas on spiritual salvation and material prosperity *The Cambridge Companion to Nineteenth-Century Thought* Gregory Claeys, 2019-08-22 Leading historians introduce the most influential trends in thought which originated or developed in the nineteenth century Modernism After the Death of God Stephen Kern, 2017-11-22 Modernism After the Death of God explores the work of seven influential modernists Friedrich Nietzsche James Joyce D H Lawrence Andr Gide and Martin Heidegger criticized the destructive impact that they believed Christian sexual morality had had or threatened to have on their love life Although not a Christian Freud criticized the negative effect that Christian sexual morality had on his clinical subjects and on Western civilization while Virginia Woolf condemned how her society was sanctioned by a patriarchal Christian authority All seven worked to replace the loss or absence of Christian unity with non Christian unifying projects in their respective fields of philosophy psychiatry or literature The basic structure of their main contributions to modernist culture was a dynamic interaction of radical fragmentation necessitating radical unification that was always in process and never complete

The Top Books of the Year Max Weber And The Protestant Ethic Twin Histories The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the fascinating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Max Weber And The Protestant Ethic Twin Histories : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
