Sebastian Brünink

Meade 2045 Telescopes Owners Manual:

Astronomy, 1997 *Telescope Making*, 1988 **Astronomy Now**, 2001 **Air & Space Smithsonian**, 1986 Deep Sky, 1990 *Choosing and Using a New CAT* Rod Mollise, 2009-02-28 Choosing and Using the New CAT will supersede the author's successful Choosing and Using a Schmidt Cassegrain Telescope which has enjoyed enthusiastic support from the amateur astronomy community for the past seven years. Since the first book was published a lot has changed in the technology of amateur astronomy. The sophistication and variety of the telescopes available to amateurs has increased dramatically. Computerized SCTs, Maksutov Cassegrains and most recently Meade's new and acclaimed Ritchey Chr tiens have come to dominate the market. That means that all amateurs considering the purchase of a new telescope, not only a SCT and not just beginners, will benefit from this detailed guide. Choosing the right telescope for particular kinds of observation or even for general work is far from easy, but Rod Mollise gives invaluable advice and guidance. *Popular Photography*, 1992-12 **Popular Photography**, 1993-04 **Popular Photography**, 1993-01 Popular Photography, 1993-06

Star Ware Philip S. Harrington, 1994-06 A complete current review of the material needed by backyard astronomers. It deserves a place on the bookshelf of anyone who looks at the sky. David Eicher, Associate Editor Astronomy. Author of *Beginner's Guide to Amateur Astronomy*. A great help to anyone, especially the novice who is wondering what to get. I don't know of any other single source that covers so much of the equipment scene. Alan MacRobert, Associate Editor Sky Telescope. Author of *Star Hopping for BackYard Astronomers*. These are great times for telescope shopping. The marketplace is filled to the rafters with terrific and some not so terrific equipment. And that's the problem. Making the right choices amid the whirlwind of technical jargon and manufacturers' hype is a formidable challenge, even for experienced amateur astronomers. In *Star Ware*, award-winning astronomy writer Philip S. Harrington has done most of the work for you. He takes a hard look at what's on the market, offering a point-by-point comparative critique of most major manufacturer's offerings. In addition, *Star Ware* gets you the biggest bang for the buck by helping you to match your needs and your pocketbook with the best of what's available. Covers absolutely everything from telescopes, filters, mounts, sites, and lenses to guides and references, star charts, even the best bug sprays and long johns to take on field trips. Helps you to set up and test your new equipment as you site, observe, and photograph the Moon, Sun, planets, and a number of deep sky objects. Saves you money with ten do-it-yourself projects ranging in difficulty from making a dew cap to building an observatory. **Popular Photography**, 1992-09

Popular Photography, 1992-10 *Popular Photography*, 1993-02 **Popular Photography**, 1989-10 **Popular Photography**, 1991-01 **Popular Photography**, 1985-05 **Popular Photography**, 1990-07 **Popular Photography**, 1992-11 Popular Photography, 1991-01

Meade 2045 Telescopes Owners Manual Book Review: Unveiling the Power of Words
