Anime's Identity Stevie Suan, 2021-11-09 A formal approach to anime rethinks globalization and transnationality under neoliberalism Anime has become synonymous with Japanese culture but its global reach raises a perplexing question what happens when anime is produced outside of Japan Who actually makes anime and how can this help us rethink notions of cultural production In *Anime's Identity* Stevie Suan examines how anime's recognizable media form no matter where it is produced reflects the problematics of globalization The result is an incisive look at not only anime but also the tensions of transnationality Far from valorizing the individualistic originality so often touted in national creative industries anime reveals an alternate type of creativity based in repetition and variation In exploring this alternative creativity and its accompanying aesthetics Suan examines anime from fresh angles including considerations of how anime operates like a brand of media the intricacies of anime production occurring across national borders inquiries into the selfhood involved in anime's character acting and analyses of various anime works that present differing modes of transnationality *Anime's Identity* deftly merges theories from media studies and performance studies introducing innovative formal concepts that connect anime to questions of dislocation on a global scale creating a transformative new lens for analyzing popular media

The Secret Origins of Comics Studies Matthew Smith, Randy Duncan, 2017-09-19 In *The Secret Origins of Comics Studies* today's leading comics scholars turn back a page to reveal the founding figures dedicated to understanding comics art Edited by comics scholars Matthew J Smith and Randy Duncan this collection provides an in depth study of the individuals and institutions that have created and shaped the field of Comics Studies over the past 75 years From Coulton Waugh to Wolfgang Iser these influential historians educators and theorists

produced the foundational work and built the institutions that inspired the recent surge in scholarly work in this dynamic interdisciplinary field. Sometimes scorned, often underappreciated, these visionaries established a path followed by subsequent generations of scholars in literary studies, communication, art history, the social sciences, and more. Giving not only credit where credit is due, this volume both offers an authoritative account of the history of Comics Studies and also helps move the field forward by being a valuable resource for creating graduate student reading lists and the first stop for anyone writing a comics-related literature review.

Trans-Asia as Method Jeroen de Kloet, Yiu Fai Chow, Gladys Pak Lei Chong, 2019-11-06. This rich collection of essays offers a multi and interdisciplinary discussion of trans-Asia approaches from critical theory, historical studies, cultural studies to film studies. In doing so, the authors lay down the groundwork for a more inclusive knowledge production and fruitful transnational collaboration. The authors engage with the implications of trans-Asia using a range of empirical cases. At the heart of the book is a desire and attempt to give a grounded understanding of what trans-Asia approaches are by examining human mobilities, media culture flows and connections across Asia and beyond in four key aspects: cross border flows and connections, inter-Asian comparison and referencing, transnational and de-nationalized approaches and cross border collaboration.

Japanese Animation in Asia Marco Pellitteri, Wong Heung-wah, 2021-09-28. Anime is a quintessentially Japanese form of animation consisting of both hand-drawn and computer-generated imagery and is often characterised by colourful graphics, vibrant characters and fantastical themes. As an increasingly globalising expression of popular art and entertainment, and distributed through cinema, television and over the internet, anime series and films have an enormous following not only in Japan but also in Asia. This book provides a comprehensive survey of the historical development, industrial structure and technical features of Japanese animation and of the overall dynamics of its globalisation in key contexts of the Asian region. Specific chapters cover anime's production logics, its features as an emotion industry and the involvement of a range of Asian countries in the production, consumption and cultural impact of Japanese animation.

Anime Rayna Denison, 2015-10-22. *Anime: A Critical Introduction* maps the genres that have thrived within Japanese animation culture and shows how a wide range of commentators have made sense of anime through discussions of its generic landscape. From the battling robots that define the mecha genre through to Studio Ghibli's dominant genre brand of plucky shojo young girl characters, this book charts the rise of anime as a globally significant category of animation. It further thinks through the differences between anime's local and global genres from the less considered niches like *nichijō kei* (everyday style) anime through to the global popularity of science fiction anime. This book tackles the tensions between the markets and audiences for anime texts. Anime is consequently understood in this book as a complex cultural phenomenon, not simply a genre but as an always shifting and changing set of texts. Its inherent changeability makes anime an ideal contender for global dissemination as it can be easily re-edited, translated and then newly understood as it moves through the world's animation markets. As such, *Anime: A Critical Introduction* explores anime through

a range of debates that have emerged around its key film texts through discussions of animation and violence through debates about the cyborg and through the differences between local and global understandings of anime products Anime A Critical Introduction uses these debates to frame a different kind of understanding of anime one rooted in contexts rather than just texts In this way Anime A Critical Introduction works to create a space in which we can rethink the meanings of anime as it travels around the world
