Environmental Science: A Global Concern William Cunningham, Mary Ann Cunningham, 2009-09-18 Environmental Science A Global Concern Eleventh Edition is a comprehensive presentation of environmental science for non science majors which emphasizes critical thinking environmental responsibility and global awareness This book is intended for use in a one or two semester course in environmental science human ecology or environmental studies at the college or advanced placement high school level We have updated data throughout the chapters in this book Information and examples presented are the most recent available as of the mid 2009 You will find an abundance of specific numbers and current events details that are difficult to keep up to date in a textbook The goal of this book is to provide an up to date introductory global view of essential themes in environmental

science along with emphasis on details and case studies that will help students process and retain the general principles. Because most students who will use this book are freshman or sophomore non science majors the authors make the text readable and accessible without technical jargon or a presumption of prior science background

100 Questions & Answers about High Blood Pressure (Hypertension) , **101 Questions and Answers About Hypertension** William M. Manger, Norman M. Kaplan, 2013-03-15 Hypertension or high blood pressure affects an estimated 50 million Americans and is a major contributor to cardiovascular disease the leading cause of death in the United States Through proper management the effects of hypertension can be minimized Dr William Manger s 101 Questions it s also responsible for more than 52 million lost workdays In addition every year more than one million people suffer heart attacks and 600 000 suffer strokes a large percentage of both proving fatal However Dr Manger is convinced these statistics can be reduced Inspired by the decrease in the incidence of heart attack and stroke Manger saw that with improved medical management and healthy lifestyle changes hypertension could be controlled and its complications minimized or prevented He believes a close patient doctor relationship and a clear understanding of what hypertension is and how to manage it is essential for bringing it under control and minimizing the risk of further health complications Even though Manger is positive overall about statistics still there is room for improvement nearly 30% of people suffering from hypertension go undiagnosed and only 27% of the 50 million people with this condition have their blood pressure under control 101 Questions Answers About Hypertension seeks to reduce the statistical gap by giving readers a comprehensive understanding of hypertension so they are able to knowledgeably communicate with their doctors and make informed decisions and choices to improve their health and reduce health risk

Blood Pressure Kalra Morales, **Blood Pressure Measurement** Jane Wilcox, 1964 **High Blood Pressure** Rumi Michael Leigh, 2020-07-30 High Blood Pressure Things You Should Know Questions and Answers explains the causes risk factors symptoms complications diagnosis and treatments of hypertension in a question and answer format The book introduces hypertension as a condition caused by narrowing of the arteries leading to higher pressure on blood vessel walls It explains normal blood pressure values the meaning of systolic and diastolic pressure and why hypertension is often called a silent killer Different forms of hypertension are outlined including prehypertension malignant hypertension primary hypertension and secondary hypertension Risk factors such as stress obesity smoking high cholesterol caffeine lack of physical activity and chronic kidney disease are discussed Symptoms and warning signs are described including nosebleeds headaches and vision problems Complications are also covered such as stroke heart failure coronary insufficiency rhythm disorders kidney failure blindness and dementia The book explains diagnostic methods like sphygmomanometer measurements and describes treatment options including lifestyle changes antihypertensive therapy diuretics beta blockers calcium channel blockers vasodilators and angiotensin converting enzyme inhibitors Related concepts such as vasoconstriction vasodilation natriuresis and the renin angiotensin system are also explained This book will interest students
