Minternational Jan 2014 Paper

Nasir Andisha

Minternational Jan 2014 Paper:

In Whose Name? Armin von Bogdandy, Ingo Venzke, 2014 The vast majority of all international judicial decisions have been issued since 1990 This increasing activity of international courts over the past two decades is one of the most significant developments within the international law It has repercussions on all levels of governance and has challenged received understandings of the nature and legitimacy of international courts It was previously held that international courts are simply instruments of dispute settlement whose activities are justified by the consent of the states that created them and in whose name they decide However this understanding ignores other important judicial functions underrates problems of legitimacy and prevents a full assessment of how international adjudication functions and the impact that it has demonstrably had This book proposes a public law theory of international adjudication which argues that international courts are multifunctional actors who exercise public authority and therefore require democratic legitimacy It establishes this theory on the basis of three main building blocks multifunctionality the notion of an international public authority and democracy The book aims to answer the core question of the legitimacy of international adjudication in whose name do international courts decide It lays out the specific problem of the legitimacy of international adjudication and reconstructs the common critiques of international courts It develops a concept of democracy for international courts that makes it possible to constructively show how their legitimacy is derived It argues that ultimately international courts make their decisions even if they do not know it in the name of the peoples and the citizens of the international community

and discuss the reasons for the cases discussed Chapters Three and Four provide detailed case studies of the mechanisms of norm contestation as they apply to the civilian immunity and non intervention norms Chapter Five concludes by reconnecting the norm contestation model to the case studies and describing how it can be applied to norms other than those regulating armed conflict It also discusses policy implications and avenues for future research As such this book will appeal to students and researchers working broadly on issues related to international relations theory armed conflict security studies humanitarianism human rights international law and global governance It will also be of interest to policy makers and practitioners interested in influencing the normative behavior of actors in diverse arenas

The European Monetary Union Helmut Siekmann, 2021-12-23. This book provides a commentary on the law of the EU related to the Monetary Union. It contains a comprehensive analysis of all provisions of the Statute of the European System of Central Banks (ESCB) and the European Central Bank (ECB). In addition, the book also analyses all provisions of the Treaties themselves which regulate the ESCB and the ECB. This analysis is supplemented by commentaries on other Protocols which contain relevant rules for the Monetary Union. In essence, all relevant statutory rules governing the euro and its key monetary authority, the European Central Bank, are unfolded and explained in one volume. This gives the book a unique position in the legal literature on the law of the EU. With contributions by renowned academics and practitioners, this book is an expanded and updated translation of the 2013 German commentary *EWU Kommentar zu Europäischer Währungsunion* (Mohr Siebeck) and is an invaluable resource for practitioners and academics alike who are looking for a provision-by-provision commentary on the laws governing the European Monetary Union.

Defence Diplomacy in the Long War Patrick Blannin, 2017-08-28. One of the most dominant security issues of the twenty-first century has been the US-led battle against transnational terrorism, the aptly named Long War. Over the past fifteen years, the Long War has been examined using multiple perspectives. However, one central mechanism is missing in current Long War analyses: defence diplomacy. Defence diplomacy enhances the diplomatic and security capacity of a state, providing the only link between executive office and the ministries of foreign affairs and defence, two vital institutions in the Long War. Using a case study of US defence diplomacy in Afghanistan from 2001 to 2014, the paper argues simply that the practice of defence diplomacy far outweighs current theories on what it is, how it works, and why it matters. The paper aims to generate a more nuanced understanding of defence diplomacy as well as identify it as a key component of the US CT/COIN strategy to achieve their Long War policy objectives.

The Participation of Victims in International Criminal Proceedings Alessandra Cuppini,2022-09-30 This book argues that the expressivist justice model provides a meaningful foundation for the participation of victims in international criminal proceedings Traditional criminal justice theories have tended to marginalise the role afforded to victims while informing the criminal procedures utilised by international criminal courts As a result giving content to shaping and enhancing victims participatory rights have been some of the most debated issues in international criminal justice This book contributes to this debate by advancing expressivism which has the capacity to create a historical narrative of gross human rights violations as a core of international criminal justice able to provide a worthwhile basis for the participation of victims in proceedings and clarifying the scope and content of their participatory rights The work provides an in depth discussion on issues related to victims participatory rights from the perspective of international human rights law victimology and the philosophical foundation of international criminal justice The book will be a valuable resource for researchers academics and policymakers working in the areas of international criminal justice international human rights law transitional justice and conflict studies

Commercial and Financial Chronicle Bankers Gazette, Commercial Times, Railway Monitor and Insurance Journal ,1908 **High-Table Diplomacy** Kjell Engelbrekt,2016-06-10 The proliferation of minilateral summits is reshaping how international security problems are addressed yet these summits remain a poorly understood phenomenon In this groundbreaking work Kjell Engelbrekt contrasts the most important minilateral summits the G7 formerly G8 and G20 with the older and more formal UN Security Council to assess where the diplomacy of international security is taking place and whether these institutions complement or compete with each other Engelbrekt s research in primary source documents of the G7 G8 G20 and UN Security Council provides unique insight into how these institutions deliberate on three policy areas conflict management counterterrorism cooperation and climate change mitigation Relatively informal and flexible GX diplomacy invites more countries to take a seat at the table and allows nontraditional security threats to be placed on the agenda Engelbrekt concludes however that there is a continuing need for institutions like the UN to address traditional security problems High Table Diplomacy will provoke discussion and further research on the role of minilateral summits among scholars of international relations security studies and international organizations *Feminist Engagement with International Criminal Law* Eithne Dowds,2020-01-23 This work introduces and further develops the feminist strategy of norm transfer the proposal that feminist informed standards created at the level of international criminal law make their way into domestic contexts Situating this strategy within the complementarity regime of the International Criminal Court ICC it is argued that there is an opportunity for dialogue and debate around the contested aspects of international norms as opposed to uncritical acceptance The book uses the crime of rape as a case study and offers a new perspective on one of the most

contentious debates within international and domestic criminal legal feminism the relationship between consent and coercion in the definition of rape In analysing the ICC definition of rape it is argued that the omission of consent as an explicit element is flawed Arguing that the definition is in need of revision to explicitly include a context sensitive notion of consent the book goes further setting out draft legislative amendments to the ICC Elements of Crimes definition of rape and its Rules of Procedure and Evidence Turning its attention to the domestic landscape the book drafts amendments to the United Kingdom UK Sexual Offences Act 2003 and to the Youth Justice and Criminal Evidence Act 1999 thereby showing how the revised version of the ICC definition can be applied in context of the UK
