cultural and medical history of transsexuality in the United States Joanne Meyerowitz tells a powerful human story about
people who had a deep and unshakable desire to transform their bodily sex In the last century when many challenged the
social categories and hierarchies of race class and gender transsexuals questioned biological sex itself the category that
seemed most fundamental and fixed of all From early twentieth century sex experiments in Europe to the saga of Christine
Jorgensen whose sex change surgery made headlines in 1952 to today's growing transgender movement Meyerowitz gives us
the first serious history of transsexuality She focuses on the stories of transsexual men and women themselves as well as a
large supporting cast of doctors scientists journalists lawyers judges feminists and gay liberationists as they debated the big
questions of medical ethics nature versus nurture self and society and the scope of human rights In this story of
transsexuality Meyerowitz shows how new definitions of sex circulated in popular culture science medicine and the law and
she elucidates the tidal shifts in our social moral and medical beliefs over the twentieth century away from sex as an evident
biological certainty and toward an understanding of sex as something malleable and complex *How Sex Changed* is an
intimate history that illuminates the very changes that shape our understanding of sex gender and sexuality today *Jeep*
