

Miracle cure kills fifth patient

By The Associated Press

A fifth volunteer died Tuesday from an experimental drug touted as a miracle cure for hepatitis B, beyond medical rescue even as scientists unraveled the mystery of what went gravely wrong in a clinical trial.

Agonizingly, the first clue was in plain sight a year ago, but researchers at the National Institutes of Health didn't know enough about how the drug worked to recognize what it meant, the study's lead scientist says.

"Something terrible happened and we missed it," Dr. Jay Hoofnagle said in an emotional

interview describing the horror of realizing the drug was killing people months after they stopped taking it.

"The dreadful thing [is] waiting to see what will happen," he said, his voice trembling, before learning of the most recent death. "I just hope we're over the worst."

The drug Fialuridine, or FLAU, had shown great promise for fighting the hepatitis B virus, which can cause deadly cirrhosis and liver cancer. When dogs passed toxicity tests unharmed, the Food and Drug Administration approved FLAU for human trials.

Too late, scientists would discover that in humans, FLAU stealthily attacks the very building blocks of cells in livers, kidneys and nerves.

Five people treated with FLAU have died of liver and kidney failure, despite liver transplants for three of them. On Tuesday, a 37-year-old woman succumbed after two months in critical condition and two liver transplants at the University of Virginia Medical Center. One volunteer remains in serious condition there, and another is recovering from an Aug. 4 transplant at Emory University Hospital in Atlanta.

I am Tim Peter Rees, 2023-08-08 My name is Tim and that is what I want you to call me, except if another officer is present and especially if it is the CO Lt Col Bennett then I am Sir. At all other times I am Tim. When Tim Fischer's elder son was diagnosed with autism spectrum disorder, it triggered Tim's resignation as federal National Party leader and deputy prime minister of Australia. An outpouring of emotion across the political divide greeted his decision, a rarity in a political environment where few leaders choose to give up power and prominence. In *I am Tim*, Peter Rees uncovers the influences that shaped a key figure of twentieth-century Australian political life, from a Jesuit boarding school to the rigours of officer training and the battlefields of Vietnam, time in state and federal politics, marriage to Judy Brewer, and life at home. Fischer's interests and activities after politics were many and varied, spanning a diplomatic posting to the Holy See, new historical studies, and chairing the Global Seed Vault in Svalbard, Norway. Tim Fischer emerges as a man of energy and ambition but also of humanity, courage, and love.
