ECMS 2015 - Periodico di Mineralogia Special Issue Giovanni B. Andreozzi, Ferdinando Bosi, 2015-09-03 Rome is proud to host the eighth edition of the European Conference on Mineralogy and Spectroscopy ECMS 2015. This is a welcome back after the starting point of this conference cycle in Rome 1988 and following editions held in Berlin 1995, Kiev 1996, Paris 2001, Vienna 2004, Stockholm 2007 and Potsdam 2011. The Rome 2015 conference will hopefully reflect the philosophy of previous conferences and provide a common forum to present new ideas, concepts and results related to mineral spectroscopy. It will also offer an opportunity for students and young scientists to meet and interact with established well-known scientists. The conference deals with mineralogy, spectroscopy and related fields of science, bringing together both theoretically and experimentally oriented scientists and providing an opportunity to share ideas and learn from one another. The ECMS 2015 is housed in the headquarters of the National Research Council and consists of three days of oral presentations and two days of poster sessions. Keynote lectures will be presented by Frank C Hawthorne, Laurence Galois, Robert D Shannon, Giancarlo Della Ventura, Bjorn Winkler and Catherine McCammon. This volume is the joint effort of all conference participants, largely coming from Europe but also from America, Asia and Australia. It contains 100 contributions, many of which present experimental results and applications based on new or well-established analytical techniques, while others highlight theoretical and computational approaches to our better understanding of short range and long range structures of minerals and materials. We are very grateful for the constant support of Francesco Di Benedetto, publicity chair, Sabrina Nazzareni, treasurer and our scientific advisory board: Danilo Bersani, Giuseppe Cruciani, Michele Dondi, Ulf Henius, Monika Koch, M. Ller, Roberta Oberti, Henrik Skogby and Sergio Speziale. Without the generous sponsoring from the Societ Italiana di Mineralogia e Petrologia, SIMP, Italian National Research Council, CNR and Periodico di Mineralogia and the support of Sapienza University of Rome, it would have been very difficult to organize this meeting and this volume. We also appreciate the sponsorship and scholarship grant from the European Mineralogical Union, EMU and the International Union of Crystallography, IUCr and contributions from private companies: Bruker, Geologica, Gemmorama, Masterstones, PANalytical. Thanking all participants for coming in the Eternal City, we wish you all a stimulating, informative and enjoyable conference and offer a sincere welcome to the ECMS 2015. Giovanni B. Andreozzi and Ferdinando Bosi, Co chairmen. On behalf of the Organizing Committee. *Cement Chemistry* Ian G Richardson, H F W Taylor, 2025-07-29 The third edition of *Cement Chemistry* addresses the chemistry and materials science of the principal silicate and aluminate cements used in building and civil engineering with emphasis throughout on the underlying science. **X-Ray Studies on Electrochemical Systems** Artur Braun, 2017-04-10 This book is your graduate level entrance into battery, fuel cell and solar cell research at synchrotron x-ray sources.
