limiting competition among news organizations and rigidly structuring relations through strict rules and sanctions She also shows how the web of interrelations extends into and is reinforced by media industry associations and business groups keiretsu Political news and information are conveyed to the public in Japan but because of institutional constraints they are conveyed in a highly delimited fashion that narrows the range of societal inquiry into the political process Closing the Shop shows us how the press system in Japan serves as neither a watchdog nor a lapdog Nor does the state directly control the press in ways Westerners might think of as censorship The level of interconnectedness through both official and unofficial channels helps set the agenda and terms of political debate in Japan s mass media to an extent that is unimaginable to many in the United States and other advanced industrial democracies This fascinating look at Japan s information cartels provides a critical but often overlooked explanation for the overall power and autonomy enjoyed by the Japanese state *Documents of the Assembly of the State of New York* New York (State).
