extent of specific problems confronting that crucial engine of our economy higher education In each case he spells out what needs a tune up and what needs something closer to an overhaul Of course he offers specific proposals for fixing those problems They re likely to be controversial but the author hopes they spark a debate that ultimately leads to productive solutions     Princeton Alumni Weekly ,1937-08-20     **Annual Reports on the Progress of Chemistry** ,1990     *College and University* ,1986 Includes proceedings of the association s annual convention     Microform Review ,1982     **The Education Index** ,1986     *Reference Quarterly* ,1985     **Corks and Curls** ,1987     Report to the Board of Regents ...
